# MUNICIPAL REGULATIONS

## FOR PAYMENT OF BILLS AGAINST THE CITY.

---

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Monday of each month.

HENRY E. CHAMBERLIN,  
*City Clerk.*

# MAYOR CORNING'S INAUGURAL ADDRESS.

---

*Gentlemen of the Board of Aldermen and of the Common Council and My Fellow Citizens:*

This occasion, unprecedented in the annals of Concord, cannot but impress me. Chosen by the voters of this city to a third term as mayor is an honor which I shall always hold dear. As it was at my first election and at my second, so it has been in my third election, an honor all the more prized because it came without price or solicitation. To be called to a public service in this manner is in my opinion to enhance the trust and to dignify the office. Surely the debt of gratitude which I owe to my fellow citizens because of their reiterated partiality toward me, is such that I cannot hope to lighten it except by constant diligence, unwearied effort and honest and courageous discharge of duty.

Whatever may have been accomplished during the last four years is due not alone to me, but to those who with me comprised the city government. During this time my constant thought has been centered in the work pertaining to my office of mayor, and what I have done has been dictated by motives absolutely unselfish and unpartisan. Politics in a city government are out of place, while influence and "pulls," calculated always to promote measures that ought not to be promoted, are next to crime.

So far as I know there have been but few and insignificant attempts to thrust personal politics into the sphere of city government and those attempts met with no favor. As I have said on another occasion like this so I again say, that I believe our departments are well man-

aged and prudently conducted and that our officials are honest and capable. I am aware that those who hold public positions are subject to criticisms of various kinds, and are sometimes accused of shortcomings which, upon investigation, turn into thin air. The demagogue's cry of graft may or may not be an exigency of campaign ambitions and deserves to be condemned unless clearly proved.

We are now entering upon Concord's forty-first consecutive city government, and looking backward over the years of administration, we shall see among our predecessors many of Concord's best and foremost citizens. They administered municipal affairs with intelligence and honesty and they had many vexing undertakings during their terms of office.

City affairs are constantly increasing, progress is written everywhere, and despite all cavilling and fault-finding, our citizens, men and women alike, rejoice in our efforts to maintain a modern city, healthful, clean and sound. This, then, should be our present endeavor. Neither niggardliness nor extravagance should be shown, but a careful course between the two and thereby win the good esteem of those who have sent us here.

#### ASSESSORS.

While in no wise changing my opinion respecting a board of assessors representing the whole city, I am willing to await the forming of public sentiment which, in due time, will be expressed on this subject regardless of partisanship and ward prejudices. The board of assessors sent a request to the late city council asking for a map of the city. The estimated expense incident to preparing such a map would be upward of \$2,000. I am convinced that a map showing the size, shape and situation of every parcel of land, and buildings thereon, within the city would be of service to the assessors and of infinite benefit to the taxpayers. I am in favor of beginning this work and I recom-

mend making an appropriation wherewith to make a start. Naturally the details and structure of the map should be under the supervision and charge of the city engineer.

#### BONDED DEBT.

On the first day of this year the indebtedness of Concord was as follows:

City .....	\$177 000	
Sewer precincts .....	95,300	
School districts.....	213,800	
Total .....	—————	\$486,100
Water-works .....		630,000
		<hr/>
Total debt.....		\$1,116,100

Of the \$177,000 city bonds, \$130,000 represent the cost of the city hall and auditorium, and \$5,000 are bridge bonds, \$17,000 are police station bonds, and \$25,000 represent Concord's contribution to the state library by purchase of land.

Of the \$95,300 sewer bonds, \$59,000 belong to the city precinct, \$16,500 to the Penacook precinct, \$15,300 to the West Concord precinct, \$1,000 to the East Concord precinct, and \$3,500 to St. Paul's School precinct.

Of the \$213,800 school district bonds, \$51,000 are on account of the Dewey school and the Rumford school; \$119,000 are for the High school and the Garrison school, and \$30,000, not yet bonded, represent the cost of the Manual Training school. In this school indebtedness is seen a superb illustration of Concord's generosity in providing a common school education for the city's children. Here, too, is found the largest liability, except the water-works which are not a burden on the taxpayers. No person may honestly charge extravagance because of this debt incurred by new schoolhouses. Personally I know how imperative the need was for larger school accommodations, yet even

now I realize, after all that has been done, that there is a further need, especially south of West street.

While the city government has no voice respecting school affairs, we are bound to recognize the large cost of our schools and to try to adjust our municipal expenditures accordingly.

With this debt staring us in the face, our policy respecting new subjects of expenditure is too plainly demonstrated to require another word from me. This is a period of debt when all personal ambitions to do something for this or that section of the city, involving more bond issues, should be absolutely repressed.

#### FIRE DEPARTMENT.

Two years ago I recommended a modern and quickly handled hook and ladder truck to replace a sturdy but antiquated truck built in the seventies. Without a dissenting opinion or a negative vote, the late administration appropriated \$1,200 to pay for such a truck, including runners, and it is exceedingly gratifying to say that this new piece of apparatus is in commission and gives entire satisfaction to the department and to the public. As this truck weighs much more than the old one an additional horse has been added in order to make what is called a three-horse hitch. Another improvement has been made in this department by replacing the old hose wagon of the Alert Company with a larger and more convenient wagon, built, as was the new truck, at the Abbot-Downing Company. The old hook and ladder truck is housed on North State street, and is kept equipped and ready to respond to emergency alarms.

#### PARKS.

Our parks are now as much a subject of pride as our good streets and modern schoolhouses. But the management of the parks is peculiarly intensive and therein dif-

fers from certain other departments. Not only is the routine work to be carried forward but there comes yearly the problem of permanent beautification. Two years ago I spoke of the playground at White park as meeting the desires of a large number of persons and I advanced the hope that a similar recreation ground might be added to Rollins park. A year had not passed when the city council voted a generous appropriation to buy additional land adjoining that park for the purpose of making a playground.

During the two years last passed Pecker park, in Ward Two, has been added to our park system. This small but attractive spot, at the junction of the highway leading to Shaker Village and to Sewall's Falls bridge, is due wholly to the generosity of Jonathan Eastman Pecker, a native and life-long citizen of Concord. Whatever has been done there demonstrates the practical work that can be done elsewhere in reclaiming waste and unsightly places and changing them into simple, inexpensive, yet pleasing plots of permanent beauty and utility.

#### PUBLIC LIBRARY.

Here is an institution as important as any in the city and very close to the hearts of our people. I regret that the necessities of our schools compelled the district to appropriate money for new school buildings, thereby depriving the city government of its desire to give the library a much needed enlargement. I regret further that I cannot consistently at this time, considering the state of our expenditures and debt, recommend an adequate appropriation for library enlargements. If, however, during our term of office, circumstances change for the better, I shall not hesitate to call your attention to this subject. The librarian accomplishes much and evinces a pride to keep our library in the front rank of similar institutions. Concord has always had a population given to good reading,

and never more so than at the present time. Whatever we can do to promote the usefulness of our public library I am sure we ought to do promptly and cheerfully.

#### REVISION OF ORDINANCES.

In February, 1894, the revision of the city ordinances was authorized by vote of the city council. Since that date there have been changes, amendments, repeals and substitutions to an extent scarcely conceivable, until the precise meaning and extent of our municipal laws are matters of more or less uncertainty. To accomplish this work thoroughly is of great importance, and much time and consideration will be necessary to enable those who may have the work in charge to produce a satisfactory result. At some later time I shall, with your consent, submit my views on this subject more definitely and clearly.

#### SEWERS.

Here is a subject of supreme importance and urgency. Following my recommendation of two years ago the city council authorized the services of an expert sanitary engineer, Mr. Freeman S. Coffin, whose recent death is a distinct loss to his profession. Mr. Coffin made a comprehensive study of our system of sewers and in due time presented his results in a clear and exhaustive report, in which he not only dealt with conditions as they now are but looked far into the future and provided for that period. To carry out in full the engineer's plans and recommendations at this time would be impracticable, if not impossible, and nobody has ever given a thought to such a measure, but to begin the work in accordance with the report had been my hope and expectation. What we had planned to do was to construct a large sewer, starting on Main street at the corner of Montgomery and extending to Hall's court, thence across the railroad yard and the intervalle to the Merrimack river.

A main sewer of the size we proposed would relieve in a great measure the frequent congestion and overflowing into cellars which is now, and for several years has been, a source of well-founded complaints.

I had confidently hoped at this time to congratulate you on the completion of this much needed work, and I confess my regret at not being able to do so. Owing to appropriations for new schoolhouses, more particularly for the Manual Training building, I did not feel justified in asking the city council to increase our municipal debt by an appropriation of \$20,000 with which to begin an enlargement of our sewer system. But I feel that this work must be begun before long, and unless monetary objections again interpose it will be my purpose to ask for an appropriation during the present term.

While concerned with this subject I desire to say that unless we make larger annual appropriations for sewers, and to this I am opposed, it is manifest that some householders must wait their turn for sewer connections. It has too often been the case that a costly sewer has been laid merely to accommodate one house. In this as in many other matters that come before us we need courage and common sense, courage being preferable, whereby we may resist the irate taxpayer and vote-getter and expend the limited appropriation only in places where it will do the greatest public good.

#### STREETS.

Whether some of our citizens agree or not respecting the care of streets and our considerable increase in permanent street construction during the four years last passed, the fact is that never since the first administration in 1853 has Concord had better streets and sidewalks. To look backward a decade and see what we had then and compare it all with what we have now is to confirm my statement. I cannot but believe that good and permanent streets have become the desire and expectation of our peo-

ple. Main street from School street to Warren street should receive our immediate attention, in fact it is our duty to carry out the vote of the preceding administration relative to this work.

We must be convinced, by this time, that the highways leading into the city should be so constructed as to make them attractive to those who dwell in surrounding towns and who naturally prefer to come here to trade than to go elsewhere. The road to London is an example of the trade and travel magnet of a good highway.

Most emphatically do I ask your favorable consideration toward the highway extending from the lower bridge to the State-Aid highway ending at the boundary between Pembroke and Concord. A section of gravel road, measuring a thousand feet, has already been completed on the Concord side of the boundary at the Soucook river, and it is our duty, as I regard it, to keep adding to the good road on our side until we have a well constructed highway from the Pembroke line extending over the sandy plains and down Black hill to the lower bridge.

North State street is now a macadam road to Blossom Hill cemetery and this year this desirable work should be extended northward to Calvary cemetery.

Strange as it is when we consider the gravel banks of earlier years that to-day Concord is face to face with a positive want of gravel for street uses. Nowhere other than in Ward Nine are gravel banks apparent, and from this point we must carry gravel to remote parts of the city. To carry a load measuring a cubic yard from North Rumford street to distant points beyond the Merrimack river is costly and slow, for the greater the distance from the supply to the unloading point the greater the cost and the smaller the amount deposited daily. To this want of convenient gravel and crushed stone must be added the increased cost of construction, in as much as there is no method of conveyance other than by teaming. It had been thought practicable to make an arrangement

with the street railroad whereby crushed stone might be conveyed through the city, but an investigation proved that this plan would be impracticable.

#### TREES.

Here is a matter that at once challenges our attention and invokes our solicitude. Owing to the invasion of insect pests the denudation and ultimate destruction of our splendid foliage is threatened. Whoever has visited the Massachusetts towns where the ravages of the gypsy moth and the brown-tail moth may be seen will, I am sure, approve heartily of our utmost endeavors to stay and to exterminate this baneful enemy.

For a year past the commissioner of highways has worked diligently to remove the nests. I am troubled concerning this subject, and yet, owing to the difficulties of the case, I am not prepared to suggest any unusual remedial measures. Unlike disease the moths defy sequestration and render of slight avail the repressive attempts on our part to deal with the peril. To protect Concord, while all the towns around do nothing, is impossible. The state is interested in preserving our forests and the state should show its interest in protecting the wayside trees which are among New Hampshire's greatest charms. Let us trust in the wisdom of the legislature to adopt effective measures so that the work may be systematic throughout the infested districts, and Concord, I am sure, will do all and more than has been done in the past to protect our exquisite foliage.

#### CONCLUSION.

The present tax rate in the central wards is \$22.50 on a thousand dollars. Naturally this appears to be a somewhat high rate, yet this rate is equalled or exceeded by many towns in the state and by several cities. If the present rate can be maintained, and I regret to acknowledge that I

entertain grave doubts on the subject, Concord taxpayers would have but little to complain about, but the increase in school expenditures, together with the calls for lights, sewers and sidewalks in the newly occupied section of the city, are suggestive of increased expenses. The valuation and population gain gradually, but not enough to meet the increasing cost of carrying on the city.

Exemption from taxation on the part of new industries may be of positive benefit to this city, but I doubt whether Concord will ever become a manufacturing community. It is the home owner, the man or woman attracted here because of school facilities or who comes here because of Concord's situation and surroundings, that must be a source of civic strength now and hereafter.

Whoever finds interest in an analysis of the Concord tax rate is commended to study for a moment this tabulation.

The rate of \$22.50 is made up in this way:

State tax.....	\$2.90
County tax.....	3.80
School tax.....	4.40
City tax.....	4.10
Union School District tax.....	3.50
Street lighting tax.....	1.50
Street sprinkling tax.....	.60
Hydrant tax.....	.60
Garbage tax.....	.60
Sewer tax.....	.50
	—— \$22.50

The first three items amount to \$11.10, yet the city government has nothing whatever to do with the assessment; yet subtracting this from \$22.50 leaves \$11.40 for city, precinct and Union School District expenses.

There are other departments to which reference could be made, such as water-works, cemeteries, schools and police, but I have nothing to say respecting them except

to commend them, for I believe their affairs are carefully and efficiently conducted.

The water-works are in better condition than ever before. New and larger iron pipes are fast replacing smaller pipes, greater mains are laid, and, to safeguard the purity of Lake Penacook, the commissioners have bought several parcels of land with dwelling-houses thereon.

An appropriation of \$3,000 has enabled the cemetery commissioners to build a granite waiting-house near the gateway at Blossom Hill. This is a much desired addition and will be appreciated by all.

The reports of the departments contain in detail an account of what has been done and I trust you will give them your diligent attention.

Our revenue, owing to the no-license vote will be considerably lessened for several years, a fact which you will later on understand. It is easy to talk about economy in our affairs, yet that means curtailment of appropriations. I am sure you will appreciate this. However, we are pledged to do the best we can after taking all things into consideration, bearing always in mind what Concord is, what Concord stands for, and what Concord demands and expects.

# Ordinances and Joint Resolutions

PASSED DURING THE YEAR ENDING JANUARY 8, 1907.

## CITY OF CONCORD—ORDINANCES.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINANCIAL YEAR FOR THE USE OF THE CITY.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within said city the sum of forty-seven thousand dollars (\$47,000) to defray the necessary expenses and charges of the city for the ensuing financial year, which together with the sums which may be raised by taxes on railroads and from other sources shall be appropriated as follows:

For payment of interest on bonds . . . . .	\$6,420.00
payment of interest on temporary loans . . . . .	1,500.00
interest Cemetery Trust funds . . . . .	658.00
support of city poor . . . . .	800.00
incidentals and land damages . . . . .	4,000.00
salaries of members of city council . . . . .	2,150.00
printing and stationery . . . . .	2,000.00
aid to Margaret Pillsbury hospital . . . . .	3,000.00
decorating the graves of soldiers and sailors . . . . .	460.00
dependent soldiers, city . . . . .	150.00
public school text-books . . . . .	3,500.00
open air concerts . . . . .	300.00
public baths . . . . .	250.00
Blossom Hill cemetery . . . . .	1,000.00
Old North cemetery . . . . .	100.00
West Concord cemetery . . . . .	75.00
Millville cemetery . . . . .	75.00
Pine Grove cemetery . . . . .	150.00
Old Port cemetery . . . . .	15.00
Horse Hill cemetery . . . . .	25.00
Woodlawn cemetery . . . . .	25.00
Soucook cemetery . . . . .	20.00
parks . . . . .	3,500.00
Penacook park . . . . .	125.00

Truant officer . . . . .	500.00
	<hr/>
	\$11,438.00

SECT. 2. There shall be raised in like manner the sum of fifty-one thousand one hundred ninety-five dollars (\$51,195) for the support of schools for the ensuing financial year, which, together with the income of the Abial Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing there is appropriated for the cemeteries of the city, one half of the income from the sale of lots and the income derived from the care of lots and grading, which sum shall be deposited by the superintendent or others receiving them in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for care of cemeteries and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year and the remainder, in each instance, credited to the individual funds.

SECT. 4. In addition to the foregoing there is appropriated for the use of the public library in the purchase of books, the amount collected for fines.

SECT. 5. This ordinance shall take effect upon its passage.

Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE STREET SPRINKLING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct of said city the sum of five thousand dollars (\$5,000) to

defray the necessary expenses and charges of the street sprinkling precinct for the ensuing year, which shall be appropriated as follows:

For sprinkling streets . . . . . \$5,000

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE GARBAGE PRECINCT FOR THE ENSUING YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the garbage precinct of the city, the sum of six thousand dollars (\$6,000) to defray the necessary expenses and charges of the garbage precinct for the ensuing financial year, which shall be appropriated as follows:

For the collection of garbage and refuse matter in said  
precinct . . . . . \$6,000

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE CITY WATER PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the water precinct of the city the sum of six thousand dollars (\$6,000) to defray the necessary expenses and charges of the water precinct for the ensuing financial year, which shall be appropriated as follows:

For water hydrant service . . . . . \$6,000

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the sewerage pre-

precinct of said city, the sum of four thousand eight hundred sixty dollars (\$4,860) to defray the necessary expenses and charges of the precinct for the ensuing financial year, which shall be appropriated as follows:

For repairs and construction . . . . .	\$1,000
For interest on notes and bonds . . . . .	2,360
For payment of note No. 295 . . . . .	1,500

SECT. 2. This ordinance shall take effect upon its passage.  
Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE PENACOOK SEWERAGE PRECINCT FOR THE ENSUING YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the Penacook sewerage precinct the sum of twenty-two hundred and thirty-five dollars (\$2,235) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund . . . . .	\$1,300
For the payment of interest that may become due on precinct bonds . . . . .	635
For repairs and maintenance of sewers in said precinct . . . . .	300

SECT. 2. This ordinance shall take effect upon its passage.  
Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF ST. PAUL'S SCHOOL SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the St. Paul's School sewerage precinct the sum of six hundred sixty-five dollars

(§665) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund . . . . .	\$500
For the payment of interest that may become due on precinct bonds . . . . .	120
For repairs and maintenance of sewers in said precinct . . . . .	45

SECT. 2. This ordinance shall take effect upon its passage.  
Passed March 12, 1906.

---

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the East Concord sewerage precinct the sum of one hundred thirty-five dollars (\$135) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund . . . . .	\$100
For the payment of interest that may become due on precinct bonds . . . . .	35

SECT. 2. This ordinance shall take effect upon its passage.,  
Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE WEST CONCORD SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the West Concord sewerage precinct the sum of fifteen hundred ninety-five and fifty one-hundredths dollars (\$1,595.50) to defray the necessary expenses

and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund . . . . .	\$1,000.00
For the payment of interest that may become due on pre- cinct bonds . . . . .	595.50

SECT. 2. This ordinance shall take effect upon its passage.  
Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO  
BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN  
THE LIMITS OF THE LIGHTING PRECINCT FOR THE ENSUING YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the lighting precinct of said city, the sum of fifteen thousand dollars (\$15,000) to defray the necessary expenses and charges of the precinct for the ensuing financial year, which shall be appropriated as follows:

For lighting streets . . . . .	\$15,000
--------------------------------	----------

SECT. 2. This ordinance shall take effect upon its passage.  
Passed March 12, 1906.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO  
BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN  
THE LIMITS OF THE EAST CONCORD LIGHTING PRECINCT FOR THE  
ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the East Concord lighting precinct the sum of two hundred dollars (\$200) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For lighting of streets within said precinct . . . . .	\$200
--	-------

SECT. 2. This ordinance shall take effect upon its passage.  
Passed April 9, 1906.

AN ORDINANCE TO BORROW MONEY IN AID OF UNION SCHOOL DISTRICT  
IN CONCORD.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. That coupon bonds of the City of Concord, amounting to the sum of one hundred and nineteen thousand dollars (\$119,000), be issued and delivered to Union School District, in Concord, in accordance with the request and upon the terms contained in resolutions adopted by its voters at a special meeting of said district held on June 1, 1905, and the vote of the district passed at its annual meeting held on March 29, 1906, providing an additional appropriation for the West Concord school building.

Said bonds shall be signed by the mayor and city treasurer and countersigned by the city clerk.

Said bonds shall be dated July 2, 1906, of the denomination of one thousand dollars (\$1,000) each, and be payable as follows:

\$8,000 thereof July 1, 1915.  
\$8,000 thereof July 1, 1916.  
\$8,000 thereof July 1, 1918.  
\$8,000 thereof July 1, 1919.  
\$8,000 thereof July 1, 1920.  
\$8,000 thereof July 1, 1921.  
\$8,000 thereof July 1, 1922.  
\$10,000 thereof July 1, 1923.  
\$5,000 thereof July 1, 1924.  
\$5,000 thereof July 1, 1925.  
\$5,000 thereof July 1, 1926.  
\$5,000 thereof July 1, 1927.  
\$4,000 thereof July 1, 1928.  
\$10,000 thereof July 1, 1929.  
\$10,000 thereof July 1, 1930.  
\$9,000 thereof July 1, 1931.

The interest on said bonds shall be at the rate of three and one-half per cent. (3½ per cent.) per annum, payable semi-annually on the first days of January and July in each year, at the First National bank, in Boston, Mass., and the office of the city treasurer, in the said city of Concord, upon presentation of said coupons.

SECT. 2. The treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized, and such bids as seem for the best interest of the city shall be accepted by him, provided the same are approved by the finance committee.

SECT. 3. All of said bonds, while owned by citizens of said

City of Concord, shall be exempt from taxation, as provided by law.

SECT. 4. The mayor and treasurer are authorized to execute in the name and behalf of the city, such agreements, in writing, between it and said district as they may deem necessary and advisable to protect the rights of the respective parties, growing out of this transaction.

SECT. 5. This ordinance shall take effect and be in force from and after its passage.

Passed May 14, 1906.

---

#### AN ORDINANCE RELATING TO JUNK DEALERS.

WHEREAS, In previous years, junk dealers' licenses have been granted in some instances to be exercised at points within the compact part of the city, and sundry applications have been made to the board of mayor and aldermen for such licenses for the current year to be exercised at points within the compact part of the city, and

WHEREAS, In the opinion of the city council, the accumulation and storage of old junk and worn-out and discarded materials within the compact part of the city is unnecessary, and so enhances the risks of fire and contagious disease and is otherwise so incompatible with the safety and welfare of the city that no licenses ought hereafter to be granted permitting such accumulation and storage within the compact part of the city, now therefore

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. No person shall keep or maintain a shop or other place for the purchase, sale or barter of old junk, old metals, old or second-hand bottles or other such second-hand articles, refuse, or waste, within the limits of the city hereinafter described, nor shall any dealer in such articles accumulate or store any of the same at any place within such limits.

The limits of the city above referred to are hereby fixed as follows: Beginning at the intersection of the center lines of Pleasant and Tuttle streets; thence in a straight line to a point in the easterly line of Auburn street two hundred feet northerly from the north line of Franklin street; thence easterly on a line two hundred feet north of and parallel with the northerly line of Franklin street to a point two hundred feet west of the westerly line of Rumford street; thence northerly on a line two hundred feet west of and parallel with the westerly line of Rumford street to the center line of Penacook street; thence easterly by the center line of Pena-

cook street to the main track of the Boston & Maine railroad, Concord division; thence southerly by the easterly main tracks of the Concord and Southern divisions of said Boston & Maine railroad to a point two hundred feet easterly of the highway near the junction of South Main and Water streets; thence southerly on a line two hundred feet easterly of and parallel with the easterly line of Water street to the center line of Hammond street; thence westerly by the center line of Hammond street to Hall street; thence in a straight line to the intersection of the center lines of South Main and Rockingham streets; thence westerly by the center line of Rockingham street to a point two hundred feet west of the westerly line of Bow street; thence in a straight line to a point in the northerly line of Clinton street two hundred feet west of the westerly line of South Fruit street; thence, northerly on a line two hundred feet west of and parallel with the westerly line of South Fruit street to a point eight hundred feet south of the southerly line of Pleasant street; thence westerly on a line eight hundred feet south of and parallel with the southerly line of Pleasant street to the center line of Tuttle street; thence northerly by the center line of Tuttle street to the point of beginning.

SECT. 2. Any person violating the provisions of section 1 of this ordinance shall be fined not exceeding ten dollars, and each day's continuance of such violation shall be deemed a separate offense.

SECT. 3. Nothing herein contained shall be construed to affect the powers or duties of the board of mayor and aldermen under chapter 124 of the Public Statutes as adopted by chapter 9 of the Revised Ordinances and by an ordinance passed August 14, 1905, except that no license shall be issued thereunder permitting the accumulation or storage of any of the articles above specified at a place within the limits of the city above set out.

SECT. 4. This ordinance shall take effect upon its passage.

*Provided, however,* that persons holding and exercising junk dealers' licenses at points within the limits of the city above described for the year ending March 31, 1906, shall have sixty days from the passage hereof in which to remove their materials from said limits before they shall become subject to the penalty herein prescribed.

Passed June 11, 1906.

---

#### AN ORDINANCE RELATIVE TO THE PUBLIC HEALTH.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. All matters relating to the public health of the city shall be under the control of a board of health, consisting of the

mayor, who shall be chairman, the city physician and a third member who shall forthwith be appointed by the mayor with the approval of the city council in joint convention for the remainder of the present municipal term. At the commencement of each succeeding municipal term and whenever a vacancy shall exist, a third member of such board shall be appointed in like manner, who shall hold office until the end of the municipal term during which he is appointed and until his successor is appointed. Such board shall consider all matters relative to the public health which in their judgment call for action on the part of the city council, or which may be referred to them by the city council, the sanitary officer or the city physician, and make recommendation with reference thereto, and shall perform such other duties as may be imposed upon them by this ordinance or by the laws of the state, and such as are imposed upon the present board of health by any ordinance not hereby repealed.

SECT. 2. The city council shall, at the commencement of each municipal term, elect a sanitary officer, who shall hold his office for two years and until his successor is chosen and qualified, subject, however, to removal at any time by vote of the city council. Vacancies in said office shall be filled for the remainder of the municipal term by new elections, and an election shall be held forthwith to fill the existing vacancy for the remainder of the present term.

SECT. 3. The sanitary officer shall devote his entire time to the performance of the duties imposed upon him by virtue of his office, and shall serve all orders and notices, and enforce all rules and regulations issued by the city council or the board of health, and enforce all ordinances and rules relating to nuisances or other conditions affecting the health and comfort of the public.

SECT. 4. The sanitary officer shall, under the direction of the board of health, in the first week of May, commence a systematic house-to-house sanitary inspection, which shall continue until the inspection of the city is completed. The sanitary officer shall require the abatement within a reasonable time of all nuisances found; and shall give such advice and make such recommendations to householders and others as he may deem necessary to secure good sanitary conditions.

SECT. 5. The board of health shall prescribe a blank form upon which a complete record of the inspections made by the sanitary officer shall be entered; a record shall also be kept by the sanitary officer of all complaints made to him, or to the board; of all orders issued, of all notices served, and of all nuisances abated. All the records kept by the sanitary officer shall be submitted to the board of health, or the city council whenever called for, and shall at the end of each fiscal year be placed in the hands of the city clerk.

SECT. 6. The sanitary officer shall see that all the provisions of the ordinance regulating or relating to sewers or drains are enforced. He shall inspect all private drains laid by any licensed drain layer before the same are covered, and shall report monthly to the board of health and to the committee on sewers and drains the result of said inspection, giving the name of the owner and of the occupant of the premises, the street and number, the position of the inlet employed, the size of the drain, inclination of the same and the manner in which it enters the main sewer, and shall perform such other duties in the enforcement of the provisions of said ordinance as may be authorized by the board of health, or the committee on sewers; he shall also enforce the provisions of the city ordinances relating to the pollution of the water of Penacook lake. In case any licensed drain layer shall have completed his excavating, and on account of an approaching storm or other urgent cause, there is necessity that the work should be immediately connected and back filled, any member of the committee on sewers and drains may be required to act in place of the sanitary officer, if, from any cause, said sanitary officer is unable to be present.

SECT. 7. No person shall place or leave, or cause to be placed or left, in or near any highway, street, alley, or public place, or in any pond or other body of water where the current will not remove the same, any rubbish, dirt, soot, ashes, hay, shreds, oyster, clam, or lobster shells, manure, swill, tin cans, decaying fruit or vegetables, waste water, or any refuse animal or vegetable matter whatsoever, nor keep in or about any vacant lot, dwelling-house, barn, shed, store, shop or cellar, any of the aforesaid substances after the same have become putrid or offensive, or a menace to the public health.

SECT. 8. No person or persons shall suffer or permit any cellar, vault, private drain, pool, sink, privy, sewer, or other place upon any premises or grounds belonging to or occupied by him or them, to become offensive or injurious to the public health.

SECT. 9. No person or occupant, or any person having control or charge of any lot, tenement, premises, building, or other place, shall cause or permit any nuisance to be or remain in or upon said lot, tenement building, or other place, or between the same and the center of the street, lane or alley adjoining.

SECT. 10. No person or persons shall erect, maintain or use within the compact part of any ward in the city, any swill-house, or building for rendering any offal, tainted or damaged lard, tallow, or any putrid animal substance, or for the deposit of green pelts or skins.

SECT. 11. No person or persons shall keep or use any hog-pen, goat-pen, chicken-coop, or barn-yard so near to any highway, park, or other public place, as to be offensive or a menace to the public

health, or adjoining or abutting any lot upon which any other person resides, if so near them as to be offensive, or in such manner that the contents of such hog-pen, goat-pen, chicken-coop, or barn-yard are discharged upon said lot or upon any street, lane or alley in the city.

SECT. 12. The owner, agent, occupant, or other person having the care of any tenement used as a dwelling-house, or any other building, shall furnish the same with a sufficient drain, under ground, to carry off the waste water; and also with a suitable privy, which, if not properly connected with the public sewer, shall have a vault which shall be sunk underground, and built in the manner hereinafter prescribed, and of capacity proportionate to the number of inhabitants of such tenement, or of those having occasion to use such privy; and no person shall suffer any waste or stagnant water to remain in any cellar or upon any land by him owned or occupied, in the compact part of any ward of the city.

SECT. 13. All vaults, privies, and cesspools shall be so constructed that the inside of the same shall be at least two feet distant from the line of every adjoining lot, unless the owner of said adjoining lot shall otherwise agree and consent; and a like distance from any street, lane, alley, court, square, public place, public or private passageway. Every vault and cesspool shall be made tight, so that the contents cannot escape therefrom, and shall be securely covered; and no person shall open a vault, privy, or cesspool, or remove the contents thereof, or haul such contents through any street in the city, between the first day of May and the first day of November inclusive, except between the hours of nine o'clock in the evening and six o'clock in the morning.

SECT. 14. Any person or persons intending to construct a privy, vault or cesspool shall first obtain a written permit to do so, signed by the sanitary officer. Each permit shall designate the location on the lot, the distance from any house, well or spring, the kind of vault or cesspool and the depth thereof, and shall contain a printed abstract of the state law and city ordinances relating to the construction of privy vaults and cesspools; but no cesspool for the reception of sink or other waste water shall be constructed within one hundred feet of a public sewer; and no abandoned well shall be used as a privy vault, cesspool, or sink.

SECT. 15. When any vault, privy, cesspool, or drain shall become offensive or obstructed, the same shall be cleansed and made free; and the owner, agent, occupant, or other person having charge of the premises in which any vault, privy, cesspool, or drain may be situated, the state or condition of which shall be a violation of the provisions of this ordinance, shall remove, cleanse, alter, amend, or repair the same within such reasonable time after notice in writ-

ing to that effect from the sanitary officer, as shall be expressed in such notice. In case of neglect or refusal so to do, the sanitary officer may cause the same to be removed, altered, amended or repaired, as he may deem expedient, at the expense of the owner, agent, occupant or other person as aforesaid.

SECT. 16. The owner, agent, occupant, or other person having the care of any stable, barn, premises, or any other place where manure, swill, garbage, or any other animal or vegetable substances accumulate, shall cause the same to be removed at such stated periods as the sanitary officer may designate.

SECT. 17. The prudential committee, or boards of education, shall not admit any scholar into the public schools without satisfactory evidence that such scholar has been vaccinated; and the city physician shall at all times be prepared to vaccinate, at the expense of the city, any scholar who is unable to pay therefor.

SECT. 18. It shall be and is hereby made the duty of every physician, surgeon, or other person attending upon a case of smallpox, epidemic cholera, epidemic dysentery, diphtheria, scarlet fever, typhoid fever, measles, yellow fever, or other dangerous, contagious, infectious, or pestilential disease, and of every householder, attendant, or agent, in whose house a case of any such disease occurs, to report every such case to the sanitary officer, within twenty-four hours after first having knowledge of the same, giving the number of the house, the street, avenue, or lane upon which it is situated, and the name of the occupant or occupants, with the name and age of the diseased person, if known. The board of health shall prescribe a course of action which shall be followed by the sanitary officer in all ordinary cases to prevent the spread of such disease; all cases of smallpox, and diphtheria, and others, not covered by the general instructions shall be at once reported by the sanitary officer to said board, who shall take such further or different action as they may deem expedient, and who may in cases of emergency, with the approval of the finance committee of the city council, employ, at the expense of the city, such medical advice and assistance, in addition to the services of the city physician, as in their judgment may be necessary.

SECT. 19. All petitions for the cleansing, removing, or abatement of any nuisance shall be made to the sanitary officer, verbally or in writing, stating distinctly the character of such nuisance, the premises where situated, and the reason for its removal or abatement, but if it becomes necessary to institute legal proceedings against the party or parties complained of, the complainants shall, before such proceedings are instituted, file a complaint in writing with the city council.

SECT. 20. A notice served on an owner, agent, or occupant of any property, or left at the private residence of the owner, or agent, or occupant, or, if after due search neither can be found, posted on the front door or wall or fence of such property, and a like notice sent to his last known post-office address, shall be considered sufficient and ample notice.

SECT. 21. The sanitary officer shall have the same power to make arrests as is by ordinance and law conferred upon the regular police of the city, in all cases where any person or persons shall violate the laws of the state, city ordinances, rules, or regulations relating to the health of the city; and shall wear a uniform or badge to be prescribed by the city council.

SECT. 22. The board of health shall provide themselves and the sanitary officer with such blanks and record books at the expense of the city as are necessary, and shall, at the close of each financial year, make a report to the city council of all complaints made to them or to the sanitary officer, and the cause for the same, with such suggestions pertaining to the health of the city as they may deem expedient to present, so much of the vital statistics as is necessary, the causes of death so far as possible, and such other sanitary information as may be called for by the city council.

SECT. 23. The board of health may make such rules and regulations for the prevention and removal of nuisances, for the control and restriction of infectious and contagious diseases, and such other relations relating to the public health as in their judgment the health and safety of the people may require. Copies thereof shall be printed and circulated among the citizens, and published in one or more of the daily papers of the city.

SECT. 24. The board of health shall meet at such times and places as it may deem necessary, for the consideration of matters relating to the public health or whenever requested by the sanitary officer; they shall investigate, inquire into, and advise in all cases referred to them for such purpose by the sanitary officer or the city physician and shall direct them in such cases. In case the sanitary officer is unable to attend to the duties of his office, through sickness or other good cause, the board may select a suitable person to act temporarily in his stead, and said person shall, while so acting possess all the authority, with the same compensation given the sanitary officer under the provisions of the city ordinances.

SECT. 25. Any person or persons, company or corporation, who shall violate or cause to be violated, by agent or otherwise, any provision of this ordinance, or any order, rule or regulation made by the sanitary officer or the board of health, under the authority of this ordinance, shall upon conviction thereof, before the police or

other court of competent jurisdiction, be fined not less than three dollars and not more than twenty dollars, with the costs of prosecution, for each offense, except in cases where the punishment is provided for by the laws of the state, in which cases the penalty so prescribed shall be imposed.

SECT. 26. Chapter 14 and section 22 of chapter 30, Revised Ordinances, are hereby repealed. This ordinance shall take effect upon its passage, and upon such passage the powers and duties of the present board of health shall cease.

Passed January 14, 1907.

---

AN ORDINANCE RELATIVE TO THE CITY PHYSICIANS.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. The city council shall, biennially, at the commencement of each municipal term, elect a city physician and one assistant city physician, who shall hold their offices until their successors are chosen unless sooner removed by the city council. Vacancies in said offices shall be filled by new elections. The assistant city physician shall discharge the duties imposed upon said physicians by this ordinance within the limits of Ward One. In all other parts of the city, said duties shall be discharged by the city physician.

SECT. 2. It shall be the duty of said physicians to attend upon sick paupers and all patients under the care of the city authorities, including those in quarantine, when called to act by the overseers of the poor, or by the sanitary officer of the city or the board of health, and to vaccinate all persons required by the city ordinances to be vaccinated at the expense of the city, and to perform such other professional services as may reasonably be required of them by the board of health, the board of mayor and aldermen or the city council.

SECT. 3. The city physicians, in addition to the amount received from the county for attendance on county paupers, shall receive in full for all services such salary as the city council may from time to time fix and determine.

SECT. 4. Unless otherwise directed by the board of health with the approval of the finance committee of the city council, no physicians other than the city physicians shall be employed.

SECT. 5. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect on January 21, 1907.

Passed January 14, 1907.

## AN ORDINANCE FIXING THE SALARIES OF THE CITY PHYSICIANS.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. The city physicians, in addition to the amount received from the county for attendance on county paupers, shall receive in full for their services the following sums: city physician, four hundred and fifty dollars per annum; assistant city physician, fifty dollars per annum.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect on January 21, 1907.

Passed January 14, 1907.

---

JOINT RESOLUTIONS.

A JOINT RESOLUTION APPROPRIATING TWENTY-ONE AND EIGHTY-SIX ONE-HUNDREDTHS DOLLARS TO REIMBURSE JOHN FLYNN FOR TAXES PAID BY MISTAKE.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of twenty-one and eighty-six hundredths dollars be, and the same hereby is, appropriated to reimburse John Flynn of Concord, N. H., for taxes paid to the City of Concord for the year 1905 by mistake. The sum hereby appropriated shall be charged to the account of incidentals and land damages.

Passed February 12, 1906.

---

A JOINT RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND SEVENTY-FIVE DOLLARS (\$175) FOR THE PURCHASE OF ONE SEAGRAVE TRUSSED LADDER FOR USE OF FIRE DEPARTMENT, WARD ONE.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of one hundred and seventy-five dollars (\$175) be, and the same hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purchase of one Seagrave trussed ladder, fifty-four feet in length, for the use of the fire department, Ward One, such purchase to be made by the committee on fire department, together with the chief engineer. This sum shall be charged to the expenses of the fire department.

Passed February 12, 1906.

A JOINT RESOLUTION ASKING FOR SEALED PROPOSALS FOR PRINTING AND BINDING THE ANNUAL CITY REPORTS.

*Resolved by the City Council of the City of Concord, as follows:*

That the city clerk be, and hereby is, instructed to advertise for sealed proposals for printing and binding the city reports for the year 1905, and submit the same to the finance committee, who shall have full power to act in the matter. Proposals to be confined to citizens of Concord doing business in this city.

Passed February 12, 1906.

---

A JOINT RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO REPORT ON THE CONDITIONS AT CENTRAL FIRE STATION AND TO RECOMMEND CHANGES AND IMPROVEMENTS.

*Resolved by the City Council of the City of Concord, as follows:*

That the committee on lands and buildings are hereby authorized and requested to examine into the conditions relating to the placing of the horses at Central fire station and to report such changes as in the opinion of the committee will conduce to more modern and satisfactory condition.

Passed February 12, 1906.

---

A JOINT RESOLUTION AUTHORIZING THE APPROPRIATION OF AN AMOUNT NOT TO EXCEED THREE THOUSAND DOLLARS FROM THE CEMETERY FUND FOR THE CONSTRUCTION OF A WAITING HOUSE AT BLOSSOM HILL.

*Resolved by the City Council of the City of Concord, as follows:*

That an amount not to exceed three thousand dollars be, and the same is, hereby appropriated out of the money known as the Cemetery Fund for the purpose of constructing a waiting house at Blossom Hill, the said amount, or so much thereof as shall be required, to be expended by the commissioners of cemeteries.

Passed March 12, 1906.

---

A JOINT RESOLUTION IN RELATION TO THE SALE OF LAND FORMERLY OCCUPIED FOR CITY STABLES.

*Resolved by the City Council of the City of Concord, as follows:*

That the mayor and the committee on lands and buildings are hereby authorized to sell by auction or by private sale the land for-

merly occupied for city stables situated between School and Center streets and containing about forty thousand square feet, and the mayor is hereby authorized to execute in the name of the city, proper deeds therefor.

Passed March 12, 1906.

---

A JOINT RESOLUTION IN AID OF LOCAL MILITARY COMPANIES.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of two hundred dollars (\$200) is hereby appropriated from money in the treasury not otherwise appropriated, for the assistance of Companies C and E, Second Infantry, N. H. N. G. This money shall be paid one hundred dollars (\$100) to each company.

Passed March 12, 1906.

---

A JOINT RESOLUTION IN RELATION TO THE USE OF THE ALDERMEN AND THE COUNCIL CHAMBERS BY THE SUPERIOR COURT.

*Resolved by the City Council of the City of Concord, as follows:*

Should it become necessary for Merrimack county to procure a place for holding the April term of court, that the use of the aldermen and council chambers be granted to the County of Merrimack for the purpose of holding the April term of the superior court.

That the county be charged the sum of five dollars per day for each day or fraction of a day used and for any extra janitor service found necessary, the city reserving the right to the apartments for meetings of the city government.

Passed March 12, 1906.

---

A JOINT RESOLUTION RESCINDING JOINT RESOLUTION PASSED NOVEMBER 13, 1905, RELATIVE TO PURCHASE OF A MODERN HOOK AND LADDER TRUCK AND APPURTENANCES FOR USE AT CENTRAL FIRE STATION.

*Resolved by the City Council of the City of Concord, as follows:*

That the purchase of a modern hook and ladder truck and appurtenances for use at Central fire station, authorized by joint resolution passed November 13, 1905, not having been made at the close of the fiscal year 1905, the joint resolution is hereby rescinded.

Passed April 9, 1906.

A JOINT RESOLUTION APPROPRIATING A SUM NOT EXCEEDING TWELVE HUNDRED DOLLARS (\$1,200) FOR THE PURCHASE OF A MODERN HOOK AND LADDER TRUCK AND APPURTENANCES.

*Resolved by the City Council of the City of Concord, as follows:*

That a sum not exceeding twelve hundred dollars (\$1,200) be, and hereby is, appropriated, out of any money in the treasury not otherwise appropriated, for the purchase of a new hook and ladder truck of modern design, together with a set of attachable steel sleigh runners for the same and a track for the same to run on when equipped with runners, to replace the truck now in use at the Central fire station.

The money hereby appropriated shall be expended under the direction of the mayor and the chief engineer of the fire department, who are hereby constituted a committee with full power to purchase said new hook and ladder truck and appurtenances and to make such disposition of the old truck as they shall deem best.

This sum shall be charged to the expense of the fire department.

Passed April 9, 1906.

That the mayor, Charles R. Corning, is hereby authorized and directed to execute and deliver to Ione B. Clark a deed from the City of Concord of the Kit Factory property, so called, in West Concord, containing five and sixty-eight one-hundredths acres. Said deed to contain a reservation of the Kit Factory road and of the right for the City of Concord to maintain the sewers already on said land and to enter said land at any time for the purpose of relaying or repairing said sewers.

Passed July 9, 1906.

---

A JOINT RESOLUTION APPROPRIATING MONEY FOR PERMANENT IMPROVEMENTS ON STATE AND MAIN STREETS.

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That the sum of eight thousand dollars, or such part thereof as may be necessary, be and is hereby appropriated, from any money in the treasury not otherwise appropriated, for the following purposes, viz.: A sum not exceeding five thousand dollars to be added to an equal sum to be furnished by Irving C. Tomlinson and others for permanent improvements upon State street from Pleasant street northerly, and south of Franklin street; a sum not exceeding three thousand dollars for permanent improvements on Main street between School and Warren streets; the same to be expended under direction of the commissioner of highways.

SECT. 2. This resolution shall take effect upon its passage.

Passed August 7, 1906.

A JOINT RESOLUTION RELATING TO THE DISCONTINUANCE OF CERTAIN PRACTICE BY FIRE DEPARTMENT COMPANIES.

*Resolved by the City Council of the City of Concord, as follows:*

That the practice by the various fire department companies of presenting to the city council petitions for reimbursement for various articles purchased by them for use in the fire department shall be discontinued;

That the chief of the fire department notify the captains of the various companies of the passage of this resolution;

That this resolution take effect upon its passage.

Passed August 13, 1906.

---

A JOINT RESOLUTION PROVIDING FOR THE PRINTING OF A REPORT THIS DAY SUBMITTED BY THE FINANCE COMMITTEE.

*Resolved by the City Council of the City of Concord, as follows:*

That the city clerk be, and hereby is, instructed to cause two hundred (200) copies of the report this day submitted by the committee on finance upon a "Joint Resolution providing for a statement of the city debt" to be printed for the use of the city council and other officials, all persons who may be interested therein, the expense thereof to be charged to the account of printing and stationery.

Passed August 13, 1906.

---

A JOINT RESOLUTION IN AMENDMENT OF A JOINT RESOLUTION PASSED AUGUST 7, APPROPRIATING MONEY FOR PERMANENT IMPROVEMENTS ON STATE AND MAIN STREETS.

*Resolved by the City Council of the City of Concord, as follows:*

That a joint resolution passed August 7, appropriating money for permanent improvements on State and Main streets be amended as follows: Strike out in section 1 all after the words "Warren streets" and substitute therefor the following: The same to be expended under the direction of the committee on finance who shall call for bids for the work of construction, said committee to have the power to accept or reject any bids.

Passed August 13, 1906.

A JOINT RESOLUTION APPROPRIATING THE SUM OF FOUR THOUSAND DOLLARS (\$4,000) FOR INCIDENTALS AND LAND DAMAGES.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of four thousand dollars (\$4,000) be, and the same is, hereby appropriated out of any money in the treasury not otherwise appropriated, for incidentals and land damages.

Passed September 10, 1906.

---

A JOINT RESOLUTION PROVIDING FOR A TEMPORARY LOAN OF TWO HUNDRED AND FIFTY DOLLARS (\$250) FOR THE USE OF THE WEST CONCORD SEWER PRECINCT.

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That the city treasurer is hereby authorized and directed to procure by loan, on the credit of the city, the sum of two hundred fifty dollars (\$250) for the use of the West Concord sewer precinct.

SECT. 2. The amount thus raised shall be charged to said West Concord sewer precinct and said precinct shall raise by taxation a sum sufficient to pay said amount and the interest thereon.

Passed October 8, 1906.

---

*Resolved by the City Council of the City of Concord, as follows:*

That five hundred dollars (\$500) be, and the same is, hereby appropriated out of any money in the treasury not otherwise appropriated, and credited to the incidental account of health department.

Passed November 12, 1906.

---

A JOINT RESOLUTION APPROPRIATING TWO THOUSAND THREE HUNDRED DOLLARS (\$2,300) FOR THE USE OF THE FIRE DEPARTMENT.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of two thousand three hundred dollars (\$2,300) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated, for the repairing of Governor Hill steamer, No. 4, and the purchase of a horse for the hook and ladder truck.

Passed November 12, 1906.

A JOINT RESOLUTION AUTHORIZING THE CONVERSION INTO CASH OF A PORTION OF THE BLOSSOM HILL CEMETERY PERMANENT FUND, TO REIMBURSE THE TREASURY FOR MONEY PAID OUT ON ACCOUNT OF THE NEW WAITING ROOM AT SAID CEMETERY.

*Resolved by the City Council of the City of Concord, as follows:*

That the city treasurer be, and hereby is, authorized and directed to convert into cash an amount not exceeding three thousand dollars of the Blossom Hill Cemetery permanent fund, and to turn said sum when so realized into the treasury on general account, for the purpose of reimbursing the treasury for a like sum heretofore drawn therefrom and charged against said fund, in accordance with a joint resolution passed March 12, 1906, to pay for the new waiting room at said Blossom Hill cemetery.

Passed December 10, 1906.

---

A JOINT RESOLUTION APPROPRIATING EIGHTEEN AND SEVENTY ONE-HUNDREDTHS DOLLARS (\$18.70) TO REIMBURSE THE CHARLES MAIN ESTATE FOR TAXES PAID BY MISTAKE.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of eighteen and seventy one-hundredths dollars (\$18.70) be, and hereby is, appropriated to reimburse the Charles Main estate, of Concord, for taxes paid by it to the City of Concord for the years 1904 and 1905, the same having been erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed December 10, 1906.

---

A JOINT RESOLUTION APPROPRIATING THREE AND THIRTEEN ONE-HUNDREDTHS DOLLARS (\$3.13) TO REIMBURSE W. P. LADD, COLLECTOR OF TAXES.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of three and thirteen one-hundredths dollars (\$3.13) be, and hereby is, appropriated to reimburse W. P. Ladd, collector of taxes for the City of Concord, it being for money received for taxes in excess of the assessment, and refunded from his own funds.

Passed December 10, 1906.

A JOINT RESOLUTION APPROPRIATING MONEY FOR DEFICIENCIES IN THE SEVERAL DEPARTMENTS.

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That the sum of two thousand four hundred sixty-eight and sixty-two one-hundredths dollars (\$2,468.62) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated, to pay outstanding claims as follows:

City poor . . . . .	\$368.18
Old Fort cemetery . . . . .	.75
Fire department . . . . .	496.18
Parks . . . . .	139.81
Penacook park . . . . .	19.62
Board of health . . . . .	261.73
Salaries . . . . .	816.89
Highway department . . . . .	116.07
Interest, temporary loan . . . . .	249.39
	<hr/>
	\$2,468.62

SECT. 2. That there be transferred to the appropriation for sewers for the year 1906 the sum of two hundred sixty-two and thirty-four one-hundredths dollars (\$262.34), the same being the earnings of this department.

SECT. 3. That there be transferred to the appropriation for garbage for the year 1906 the sum of one hundred fifty-three and three one-hundredths dollars (\$153.03), the same being the earnings of this department.

SECT. 4. That there be transferred to the appropriation for parks for the year 1906 the sum of one hundred thirty-one and eight one-hundredths dollars (\$131.08), the same having been deposited in the city treasury on account of Pecker park.

SECT. 5. That there be transferred to the appropriation for highway department for the year 1906 the sum of five hundred eighty-three and three one-hundredths dollars (\$583.03), the same being the earnings of this department.

SECT. 6. This resolution shall take effect upon its passage.

Passed January 14, 1907.

A JOINT RESOLUTION APPROPRIATING MONEY FOR PERMANENT IMPROVEMENTS ON MAIN STREET.

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That the sum of three thousand dollars (\$3,000), or such part thereof as may be necessary, be, and hereby is, appro-

priated from any money in the treasury not otherwise appropriated, for the purpose of making permanent improvements on Main street between School and Warren streets; the same to be expended under the direction of the committee on finance who shall call for bids for the work of construction, said committee to have the power to accept or reject any bids.

The above appropriation is to take the place of an appropriation of three thousand dollars (\$3,000) for permanent improvements on Main street between School and Warren streets made by a resolution passed August 7, 1906, and that part of the resolution passed August 7, 1906, appropriating three thousand dollars (\$3,000) for permanent improvements on Main street between School and Warren streets is hereby rescinded and repealed.

SECT. 2. This resolution shall take effect upon its passage.

Passed January 14, 1907.

---

A JOINT RESOLUTION AUTHORIZING AND DIRECTING THE CITY CLERK TO ISSUE NEW CITY ORDERS TO TAKE THE PLACE OF CITY ORDERS LOST BY S. P. DANFORTH.

WHEREAS, On December 14, 1906, City Order No. 3,218 for \$71.97 and City Order No. 3,142 for \$2.04 were delivered to S. P. Danforth in payment of certain bills of said Danforth against the city, and whereas said orders have been lost by said Danforth,

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That the city clerk be, and hereby is, authorized and directed to deliver to S. P. Danforth new city orders to take the place of City Orders Nos. 3,218 and 3,142 upon the execution and delivery by the said Danforth to the city of a bond to save the city harmless from all loss, costs, damage or expense on account of said first orders.

REPORT OF THE BOARD OF EDUCATION OF  
UNION SCHOOL DISTRICT, FOR YEAR  
ENDING MARCH 31, 1907.

---

*To the Inhabitants of Union School District:*

The Board of Education begs to submit its forty-seventh annual report comprising the last school year.

Two years ago the board called your attention to the crowded condition of certain schoolhouses and recommended that measures be taken looking toward the erection of larger buildings. With a generosity and desire such as has always characterized the people of Concord whenever the improvement of their schools was concerned, an appropriation of \$118,000 was voted for an eight-room building at West Concord and for a new and much larger High school. The appropriation was \$28,000 and \$90,000. Last year the manifest need of a Manual Training school building came before the annual meeting and an appropriation of \$30,000 was at once voted for a modern and commodious building wholly adapted to wood- and iron-working, mechanical drawing, cooking and sewing. Of these three buildings one only is open, the Garrison at West Concord. The High and the Manual Training schools will be ready for occupation at the beginning of the fall term in September.

The cost imposed on the district is very large, yet the contracts were reasonable and within the hopes and expectations of the committee. The bond issue consequent to these new buildings is at a rate of three and one half per cent., and the bonds have been sold at a price far above

the prevailing market quotations for similar indebtedness offered by cities of unquestionable financial integrity and standing. The \$30,000 represented by the Manual Training school has not yet been funded, but will be very soon. The Dewey school bonds, \$24,000, will be reduced \$16,000 by the first of April. The total indebtedness of the district will at that date amount to \$192,000. If by any reasoning a debt may be useful in urging economy in further expenditures it would seem that the illustration as well as the precept is before us. The past decade has been a period of permanent construction which, let us hope, will not repeat itself for many years. For the details concerning the management and conduct of the schools as well as for particular information respecting supplies, repairs and incidental expenses, reference should be had to the respective reports of the superintendent and of the financial agent. The board, while earnest in support of our schools and in encouragement of teachers, cannot bring about the best results without parental co-operation.

The present management of the High school is all that could be desired and there is an atmosphere of loyalty to requirements noticeable among the pupils. But there is one important matter which is beyond the direct control of the Board of Education and the teachers, and we wish to bring it to the attention of parents, who have the exclusive right and authority in the premises.

The interest and attention of the pupils in their studies are diverted by a too frequent participation in outside matters of a social nature. These seem to be increasing to such an extent as seriously to interfere with the best work of the school, and to antagonize the efforts of the teachers. If the best results are to be obtained and the scholarship of the school kept up to the required standard, these social temptations should be stoutly resisted. In this matter the parents and the guardians have full authority and the

Board of Education earnestly request their moral co-operation.

Respectfully submitted,

CHARLES R. CORNING,

JOHN M. MITCHELL,

SUSAN C. BANCROFT,

GEORGE M. KIMBALL,

EDWARD N. PEARSON,

ELLA H. J. HILL.

JOHN VANNEVAR,

GEORGE H. MOSES,

*Board of Education of Union School District.*

## REPORT OF COMMITTEE ON BUILDINGS AND REPAIRS.

*To the Board of Education of Union School District:*

We, the Building and Repairs Committee, make the following report:

During this year the work has been confined to the necessary repairs of buildings and equipment as could be done without a large expenditure, the work having been miscellaneous carpenter work, plumbing and repairs to heating plants. No large amount of work was undertaken in any one building.

With seventeen schoolhouses to keep in order on five thousand dollars a year the question is one of not so much what shall we do as what can we do. In looking over the buildings, we would make the following suggestions as to work to be done this coming summer, outside of the things that must be done each year:

The Tahanto school should be repainted outside.

The Walker school painted outside and in, walls cleaned and tinted. Some additional light should be given the west room, third floor, should the room continue in use. The committee have considered this for several seasons, but owing to the condition of the Merrimack school have hesitated about any large output on the Walker school, as a new building to replace the Merrimack might make the expense unnecessary.

The Merrimack should have new ceilings, a new chimney for smoke flue to furnaces, and a very thorough overhauling.

The Franklin school is in good condition, but could be

much improved by varnishing the wood-work and coloring the walls.

We hope to refurnish two rooms this year with adjustable desks and chairs made from old desks. This will make one more building with adjustable furniture.

Dewey school: The ceiling in the two upper rooms should be removed and replaced with new ones, as was done with the two lower rooms two years ago. The wood-work should be varnished and walls colored. New smoke pipe put in for all furnaces.

Kimball school: This is in good order and we think will require only the general repairs made each year.

High school (School St.): This building should have the walls cleaned and colored before it is put in use for ninth grade, and all outside stone-work repointed.

Chandler school: Repainting outside. Considerable work has been done on the steam plant in this building during the year with good results.

Rumford school: Repainting outside, revarnishing inside, and we would suggest that the interior walls be painted and ceilings whitened. This would put the building in better shape than when new.

Penacook school: This building should have new floors, and all the wood-work and plastering in the entire building should be done over. The committee has considered this for sometime, but have delayed on account of the fact that at the same time the building should be raised to get a better basement and better drainage for the yard.

The Cogswell school is in good condition, with the usual summer renovation.

Eastman school: The old wood stoves are in use here, and we would suggest that the furnaces taken from the old West Concord school be put into this building, which would necessitate a stack for ventilation and would give opportunity for cremating closets in place of the outbuildings now in use. We also recommend that a suitable well for drinking purposes be dug.

The expenditures in the Garrison school are for flag-pole, book-cases, double windows, and such items not in contract.

GEORGE M. KIMBALL,  
EDWARD N. PEARSON,  
CHARLES R. CORNING.

## REPORT OF THE SUPERINTENDENT.

*To the Board of Education of Union School District:*

LADIES AND GENTLEMEN: I am privileged to submit to you my annual report, being the forty-seventh of its series.

### ATTENDANCE.

	1905.	1906.	Increase.	Decrease.
Number of pupils in public schools.....	2,486	2,886	46	..
"    "    parochial schools.....	553	519	..	34
"    "    private schools .....	37	29	..	8
	<hr/>	<hr/>	<hr/>	<hr/>
	3,436	3,434	40	42

Net decrease.... 2

### PUBLIC DAY SCHOOLS.

	1905.	1906.	Increase.	Decrease.
Number of pupils in the high schools. ....	322	340	18	..
"    "    "    grammar schools	940	843	..	97
"    "    "    primary schools.	1,336	1,450	114	..
"    "    "    kindergarten....	248	253	5	..
	<hr/>	<hr/>	<hr/>	<hr/>
	2,486	2,886	137	97

Net increase..... 40

(For other data see Table of Attendance.)

### ATTENDANCE.

From the above enumeration we find that the net loss in all schools has been just two for the year ending June 15, 1906, due to a falling off in the attendance in private and parochial schools. The net gain in the public schools has been forty. Since the time of this enumeration additional parochial schools have been established, causing the withdrawal of a large number of public school pupils; nevertheless, the attendance has held well up to that of the preceding year.

The enrollment in the southern part of the district

increases steadily, and if continued, will call for additional room. The institution of a central grammar school in the old High school building seems to reduce to a necessity for the avoidance of further building construction south of Pleasant street. This arrangement would give us one extra room in the Merrimack building and four in the Chandler building, additional accommodations which can be used in reducing the number of grades to a room and in allowing the pupils of the forenoon classes to attend school all day. The attendance at the High school reached a maximum of 353 this year. About 190 pupils will graduate from the grammar schools next June, and it is fair to assume that 150 of these pupils will enter the High school in the fall and that the attendance will be somewhat above 400. Only two forenoon classes have been maintained this year, one each in the Franklin and Dewey school buildings. Although these schools have done good work and we have made the best of the situation, nevertheless, pupils of these ages should have the benefit of two daily sessions. The attendance at the Eastman, Garrison and Harriet P. Dame schools has varied little except in the latter, which was largely increased by the transfer of the Black hill pupils.

In view of the heavy rate of school tax in this district, additional construction of school buildings should be the result of only absolute necessity and the plant which the district now has ought to be utilized to its fullest extent. No room should remain idle for even a half day if reasonable adjustment and consolidation can render it unnecessary.

#### TRANSPORTATION OF PUPILS.

Under the state law, the school board is permitted to use a portion of the school money, not exceeding twenty-five per cent., for conveying pupils to school. Upon petition of the parents residing at Black hill, asking for the transportation of school children living in that district, the

Board of Education authorized such provision to be made. During the spring term pupils were conveyed by the Eagle stable teams to the Penacook and Rumford schools, but in the fall, these being overcrowded, it was thought best to send the children to the Harriet P. Dame school at the Plains. The transportation since last fall has been in charge of William H. Gay.

### SCHOOL SESSIONS.

During the spring term a new arrangement of school sessions was given a trial as follows:

Forenoon session, 8.30 to 12.

Afternoon session, 1.30 to 3.

This was done to facilitate the accomplishment of the course of study and thus minimize school fatigue through a more logical arrangement of the studies. At the end of the term an expression of opinion from the parents, pupils and teachers as to the feasibility of the scheme was taken and submitted to the Board of Education.

The opinions received were largely in favor of continuing the plan. In consequence, the board voted it a permanent arrangement for all the lower schools.

1. Number of parents expressing an opinion	1,910
2. Number of parents reporting in favor of the scheme	1,629
3. Number of parents reporting not in favor of it	221
4. Number of parents indifferent as to the scheme	50
5. Number of pupils expressing an opinion	2,041
6. Number of pupils reporting in favor of the scheme	1,852
7. Number of pupils reporting not in favor of the scheme	185
8. Number of pupils indifferent as to the scheme	4
9. Number of teachers expressing an opinion	51
10. Number of teachers in favor of the scheme	45
11. Number of teachers not in favor of the scheme	3
12. Number of teachers indifferent as to the scheme	3

## NON-RESIDENT PUPILS.

There are a large number of non-resident pupils in the schools. They are to be found in all the grades, which seems to show that the school privileges afforded here are held in esteem by outsiders. The tuition list in the High school has shown a decided decrease owing to the fact that many towns have met the requirements of the state in regard to "approved High schools," thus keeping their children in home institutions.

The specific requirements of the state superintendent of public instruction concerning examination for admission to high schools has a deterrent effect upon outsiders from appearing for such examination. The number of those presenting themselves last year was seven. One received special permission to enter our High school from the state superintendent, one failed of passing and five were admitted, having attained the required average. Of these five, three were obliged to take a second examination after having passed the summer vacation in extra preparation.

## NIGHT SCHOOL.

At the annual meeting held March 29, 1906, a resolution was offered that the sum of one thousand dollars (\$1,000) be raised and appropriated for maintaining a night school during the winter months, and it was so voted. In accordance with this vote the Board of Education authorized the superintendent to start such a school. It began Tuesday night, January 1, 1907. The four rooms on the lower floor of the High school building on School street were properly fitted up for this work, supplies purchased, teachers hired and everything done to make the project a success. Advertisements which were inserted in the daily papers, asking for the registration of the names of those who purposed to attend such a school, brought forth a preliminary enrollment of eighty. A definite report of the attendance cannot be given here because the school is in session at the time of

this writing. About one hundred and ninety different people have been in attendance, one hundred and thirty-seven being the largest number present on any one night.

The following teachers were chosen and they have done efficient work. Principal, Kenneth L. Morse; assistants, Mildred K. Bentley, Grace L. Aldrich, Della I. Lewis and Bernice E. Hoyt.

The school is composed largely of people born in foreign countries, nearly all of whom come with a strong desire to learn our language so that they may conform more easily to our laws and customs, thus rendering their citizenship effective and desirable. Many come through the observance of the school laws which have been carefully enforced. These people, earnest, industrious, and well-disposed, will do credit to our country and its institutions.

The studies pursued are elementary reading, writing, arithmetic, spelling, history, and one class each in English grammar and algebra. I believe this money to have been expended wisely and well. All people who have not been offered the advantages of day schools should be granted extensive privileges in this direction. When we consider that many men and women do not get home from work until 6.30 p. m., have their supper and appear regularly for instruction for three months three nights a week, we may then readily understand what the school means to many who have a strong desire to improve their education. I recommend that it be continued next winter.

#### PENMANSHIP.

The results in penmanship do not show up to advantage because of the recent change from the vertical system to the slant. The best penmanship I have ever seen produced by the schools was done in the vertical script. It was the most natural, the most artistic, the easiest taught, and the easiest learned. A gradual falling away from the vertical script

has been noticeable in the entire country, due to commercial criticism almost wholly. From my own observations I find that many pupils write the vertical hand naturally and others write the slant. What is hard for the one may be easy for another. Some cities have solved the problem by allowing the pupil to choose between the two and without close investigation it appears to me to possess many advantages.

### PUPIL GOVERNMENT.

Pupil government has been tried in the Rumford school during the year. There is a marked difference of opinion among educators regarding the educational value of this scheme, valid arguments being adduced both for and against it. In this building, however, it has proved its efficiency in many ways. Noticeable among other things is the entire absence of corporal punishment. It is hoped that the general effect of this scheme may be good and lasting. The rules which have been strictly enforced follow.

### RULES.

1. No loud talking to each other in the lines.
2. No disorder in the lines.
3. No loud talking in the basement.
4. No disorderly conduct in the halls.
5. No snow-balling in the yards.
6. No disorderly conduct in the yard.
7. No damage to the property of Union School District.
8. To conduct oneself as befitting a pupil of the Rumford school.

### FIRST CORPS OF OFFICERS.

Chief, Robert McMullen; assistants, Edna Wright, Wales Allen.

## SUBORDINATES.

William Bennett, Ruth Merrill, Russell Fraser, Ailee Drury, Edward Whitaker, Ethel Dyer, Chandler White, Jeanette Crowell, Henry Donovan, Rose Tardiff.

## TRAINING SCHOOL.

The thing most worthy of note in connection with this school for the past year has been the alteration in the requirements of the training course. The former plan of admitting trainers three times a year was changed so as to admit them but once a year at the beginning of the fall term, and the length of the course was made seventy-six weeks instead of fifty-six as previously, arrangements which will work advantageously in many ways. Three young ladies graduated in December last and two will graduate at the end of this winter term.

## THE SAN FRANCISCO FIRE.

A sympathetic spirit for the suffering caused by the catastrophe at San Francisco last spring was shown by our public schools in contributing \$147.94 to the general relief fund raised by the citizens of Concord.

## HIGH SCHOOL.

The High school has had a year of progress. At the end of the spring term Mr. Doring, Mr. Moore and Mr. Standish, master, sub-master and teacher of science respectively, resigned their positions to go elsewhere. The committee chose for their successors Mr. C. F. Cook, master; Mr. Kenneth L. Morse, sub-master; and Miss Edith Fernald, teacher of science. The work has been going on with as little friction as could be expected and steady advancement is noticeable. In view of the fact that next year the attendance will be largely increased, the new High school building will be ready none too soon.

The course of study has been changed by taking away alternative commercial arithmetic and concrete geometry, making geometry required and commercial arithmetic elective. Mediæval and modern history was also made an elective for the sophomore class. In the senior class American history and civics was made a required study. Sophomore English was given four recitations a week instead of three and senior stenography five instead of four. These changes hold only for the present year, but next year a complete revision of the course of study should be made to meet the requirements of the state department of public instruction.

A new system of keeping the records was installed to enable the principal to make more frequent reports to the parents. Hereafter these reports will be sent out at the end of the fifth, tenth, fifteenth and nineteenth weeks, and the regular examinations will be held at the end of each semester, thus making a more convenient unit for determining ranks.

The principal shows a praiseworthy interest in making the following recommendations:

1. The expansion of the commercial course to a comprehensive four years' course.
2. The institution of a mechanic arts course, to which I have alluded in another place.
3. Provision for yearly additions to the school library.
4. Provision for schoolroom decoration, because, as he says, "attractive schoolrooms have an educational value which, though unconscious, is none the less powerful."

I commend the efforts of Mr. Cook in his earnest endeavor to bring the school up to a standard as high as it has ever attained in previous years.

#### MANUAL TRAINING.

The accomplishments in the different departments of manual training were quite forcibly demonstrated in the

annual exhibition of the work held last June, when a large number of people viewed with expressed satisfaction the results of a year's work.

*Wood- and iron-work:* It was decided to hire Mr. George W. Cunningham to take charge of the drawing of this department, in order that the regular classes might be more widely and more individual attention be given to the work. The east room of the Union Street school building was fitted up for temporary usage, crudely, but well enough to carry on the work until the new building is ready for occupancy. The results in both departments have been commensurate with the degree of application shown by the pupils and the conditions prevailing here. The new High school building has obstructed the light somewhat and caused inconvenience. The principal asks for longer periods of work for the high school classes.

*Cooking:* The attendance at the cooking school increases steadily each year and the pupils are reported to evince a keen interest in the exercises given. This is true especially of the younger pupils who seem to grasp more easily than the older ones the essential features of the work. For this reason the instructor asks for the enrollment of class K in cooking.

*Sewing:* The instructor suggests the following things as necessary for the room in the new manual training building:

1. Plenty of floor space.
2. Suitable light.
3. Blackboards.
4. Cupboards for books.
5. Closets and drawers for work and supplies.
6. A cutting table.
7. An ironing table.
8. Chairs and small tables for each girl.
9. Toilet room with hot and cold water, good soap and towels.
10. A room to store model books.
11. A room for "trying on" garments.

## DRAWING.

The instructor in drawing has devoted her time solely to drawing, having had nothing to do with basketry as heretofore. In consequence of this, basketry has not had the services of one who is competent to handle this work as it ought to be. The exhibition in June showed remarkable advancement in drawing during the past year, which was further emphasized by the prizes which some of the pupils took at the monthly contest instituted by the School Arts Book Company, at Worcester, Mass. The following pupils appeared as winners of prizes.

Second prize: Ethel Parker, Merrimack school.

Third prize: Ada L. Huntley, Kimball school.

Caroline Pearson, Rumford school.

Fourth prize: Hugo Erickson, West Concord school.

Ruth Chase, Helena H. Haggett, Phœbe

M. Jenks, Bessie McDuffie, Kimball school.

Alice J. Lindgren, Tahanto school.

The teacher summarizes as follows: "As far as drawing is concerned, I feel that the Concord schools need an additional teacher, more time for the subject and a well-supervised course in manual work for the primary grades."

A beginning has been made in schoolroom decoration through an appropriation of fifty dollars from the prize speaking fund, voted by the Board of Education for this purpose. The lowest primary rooms in the Tahanto and Penacook schools have been fitted up with appropriate pictures selected by a special committee consisting of Mrs. Hill, of the Board of Education; Miss Bell, drawing instructor; and the superintendent of schools. The cost of these pictures framed, slightly exceeded the amount appropriated and was met by taking the premium money given by the Concord State Fair Association.

## MUSIC.

Much attention has been paid this year to sight-singing in the regular grades and to the production of soft tones in the kindergartens. Mr. Conant makes the statement that with the exception of a single school, the standard of musical attainment in the schools is higher than ever before.

The High school chorus numbers about one hundred and fifty voices. While the annual concert of last year was not a financial success, it is hoped that the one to be held this spring will be much more remunerative and that the general public will respond in such numbers as to make up for the deficiency of last year. In addition to this chorus, a boys' glee club and a girls' glee club have been formed with about twenty voices in each. The usual course in the training school has been well sustained and the routine work of the other schools faithfully performed.

## KINDERGARTENS.

In the fall the Walker kindergarten was discontinued and a primary school established in its place. This allowed two sessions a day for all primary pupils in this building. A new kindergarten was started in the Tahanto building, the highest primary room being given up. This kindergarten started with but few pupils but it has grown steadily until now it has over twenty. This will steadily increase and eventually become a large kindergarten, doing as effective work as any other in the city. Of the work in general I can say only words of praise due to close supervision, better conditions and hearty co-operation.

Frequent mothers' meetings have been held to acquaint the parents more fully with the nature of this feature of the public school system.

I am pleased to report that a movement has been made to free the kindergartens from the burden of the musical instruments which have for years labored hard to lay claim to the name pianoforte but miserably failed.

The afternoon kindergartens have accomplished good results despite the fact that this is not the ideal time of day for such work.

#### MILITARY DRILL.

The report of the instructor shows that drills have been held regularly twice a week. The competitive drill of last spring was highly praised by Lieutenant Hunt of the United States Army. The cadets had a Field Day in June and were also represented in the Interscholastic Competitive drill at the Institute of Technology. Colonel Mason makes an earnest plea for compulsory uniforming of the company, for weekly inspection of the equipment, and the addition of more arms and accoutrements, there not being enough to equip the present company.

#### MECHANIC ARTS COURSE.

The trend of educational thought is toward arranging courses that work for the development of the whole man. The old courses which sprang largely from clerical sources have proved inadequate for the masses of the people. For years the classics have been hurled over the heads of many pupils who have taken such work as a matter of course without that careful thought and intelligent guidance which such a choice calls for. This has resulted in many cases of arrested mental development, discouragement over school work, and withdrawal from school at an age when proper counsel in the selection of studies would have meant two and three years more of valuable school life. We note with satisfaction that reason is coming to its own in recognizing the fact that the making of a man is not confined to any stereotyped course of study, also that that which trains the hand often employs the student's best faculties and arouses thought even better than a strictly mental course can do. This trend of thought is shown conclusively by the constantly increasing number of scientific courses incor-

porated into the regular school curricula each successive year; the vast sums of money expended in equipping such courses properly; the attitude of the highest educational authorities regarding them and the curtailment of the "old school" requirements for admission to college. All of these things tend to show the policy of the future in matters educational.

The scientific courses of the past have not shown a unity of purpose, or a logical correlation that ought to be manifest if the greatest good is to be gained from them. Such correlation can be gained best by instituting a course which shall be so comprehensive in its scope as to begin with the lowest grades of school and extend in logical order through the high school, culminating in a thorough theoretical and practical fit for any ordinary technical school in the country and at the same time giving an educational equipment sufficient to enable one to enter upon life's work with an assurance of proper mental development. Pupils will be attracted to such a course because its ultimate design will appeal to them, because it is natural, and because in appealing to all the faculties it enables them to get something from it which mere book-learning cannot supply. Scholars graduate from high schools too little appreciative of the equality of rights, and knowing less of what real life means. Many courses lead to such high ideals that pupils are discouraged at the start in a futile attempt to reach them. There should be at least one course that holds fast to the surface of the earth, having for its exemplification practicability and power. The work should be so arranged that it cannot be used as makeshift for the shirk and the lazy pupil. Intensiveness should be one of its strong features, and a graduation from it should count as much as that from any other. It should include all common branches of the old courses centred around the subject of manual training in its comprehensiveness. No city in the state at the present time has better facilities for carrying on such a course. The additional expense entailed would be

but little, we having at this time a new building nearly ready for use and four of the necessary departments now quite well equipped. It is the purpose of this report to bring the matter to the attention of the board and I recommend that a trial be given it. The results, I am sure, will show it to be both profitable and popular.

#### SCHOOL WORK AND ITS HINDRANCES.

The results accomplished by the schools have been such as to inspire one with confidence in their efficiency. The teachers generally have shown their usual energy in striving to raise the standard and more harmony has prevailed in all the departments. Teachers' meetings have been called at intervals to aid in the execution of the course of study. The Concord Teachers' Association has had the most prosperous season in its history. As an adjunct to this association in giving it a mark for actual work, the grammar teachers have met frequently to discuss matters tending to broaden their educational horizon. To me this is a very significant and hopeful departure for our schools. Nothing is so detrimental to the teacher and to the school as a feeling on her part that things are just about right and further educational effort is useless. When a teacher, a superintendent, or any one else connected with educational affairs lapses into such a condition the "educational rust" has begun to form and should be removed at once. The best results are brought about by the "live" teacher and every parent should insist upon having his child taught by one. The various subjects of arithmetic, history, geography, spelling and language are taught as well as at any other time during my incumbency. The question of reaching a high standard of school work is not so perplexing a problem as maintaining such a standard after it has once been realized. To maintain a standard requires constant renewal of those forces by which it has been raised—of teachers of character and

power—of material which is up-to-date, and of pupil character which tends to purity and not to the frivolities of the present time. It has been my privilege in former reports to write about the morale of the schools and, in view of conditions prevailing in the country at large, I see no reason why I should not continue to do so. If five hours a day cannot be given to the education of child pure and simple without the distractions which many forms of social life and the unhealthful craze of modern athletics is wont to force upon the formative period of manhood and womanhood; if moral force in a community is not strong enough to make up for the woful lack of responsibility on the part of parents; if the general public allows the questionable customs of college life to create in the public school pupil a spirit of insubordination, of lawlessness, of contempt for parental authority, of constant breaches of even the commonest forms of politeness on the street, in the home, at church and at school, will some well-informed person tell me what a common school education is going to stand for in the future? The worst of the matter is that such lack of parental government is not confined to any particular stratum of society. In some of its worst forms it is found in homes where the very opposite would be naturally expected. Pupils from such homes can work more harm to a school in one hour than a less prominent pupil can in a year. If education is to stand for anything it must have the hearty co-operation of all in stamping out all forms of social evil in every home and in every school. The idea that the highest good of education can be realized without insistence upon strict moral conduct and the upholding of a teacher's authority is, to me, one that is too absurd to admit of argument. The trouble with schools is not that the essentials are not well taught; not that the teachers lack conscientiousness in their work; not that too little time is set apart for school use; nor that enough money is not spent for popular education. The

trouble lies in the fact that some teachers do not set a standard of character high enough; that the noxious customs of private institutions are fastening themselves on our public schools, and that the standard of parental authority bears no comparison to that of years gone by. It is time for people to understand that school is a public institution, to be supported by public taxes, to be kept in the interests of the children, to be recognized as a distinct factor in the preservation of our traditional rights, and that the unwholesome customs of private institutions should be frowned upon when an attempt is made to fasten them upon the public school. Conditions in Concord are not so bad as they are in many other cities and there is no good reason why they should be. The time to stop anything of a contagious nature is at the beginning. I believe I represent the public temper when I say that all parents wish the schools to be kept for the moral, physical, and mental well-being of the children and that not one of these things should be neglected.

With feelings of gratitude for the support given me during the past year by the Board of Education, the teachers, and the general public, I respectfully submit this report.

L. J. RUNDLETT,  
*Superintendent.*

## ENGLISH PRIZE COMPOSITION.

## HIGH SCHOOL.

The annual contest for English Prize Compositions in the High school was instituted in 1903. The scheme was submitted to the Board of Education by the superintendent of schools and, on his recommendation, an amount of money was appropriated each year from the prize speaking fund sufficient to defray the cost of the prizes and other expenses of the contest. One month in advance of the contest the pupils are notified of the books from which the subjects are to be chosen (see No. 1).

At the time of the contest each pupil is given a slip explaining the conditions under which the essay is to be written. A number of subjects are submitted from which they can make a choice, all taken from the books previously mentioned, with the exception of two which are "current events" topics. These subjects are chosen by the judge of the contest.

At the expiration of the time allotted for the writing of the essays, the papers, which have been numbered, are collected, the numbers changed to other distinguishing characters to avoid the identification of the writer by the judge. The judge makes his decision with such accompanying remarks as he thinks advisable and the contestants

are notified of the decision, which, with the two prize essays, are printed in full in the daily papers. Appended are the preliminary announcement (No. 1), the slip of instructions (No. 2), and a summary of the prize winners from the beginning of the contests (No. 3).

#### HIGH SCHOOL PRIZE CONTEST FOR ENGLISH COMPOSITION.

The fourth contest for English Composition prizes in the High school will occur at the Chandler school building on..... The award will be determined by excellence in the following particulars:

1. Excellence of thought . . . . . 40 per cent.
2. Excellence of composition . . . . . 30 per cent.
3. Excellence of form including paragraph-  
ing, punctuation and capitalization . . 30 per cent.

Subjects will be taken from the following books:

The Idylls of the King.  
Macbeth.  
Julius Cæsar.  
The Essay on Burns.  
The DeCoverley Papers.  
Macaulay's Essay on Johnson.  
Irving's Life of Goldsmith.  
Silas Marner.  
The Merchant of Venice.  
Scottish Chiefs.  
Topics on *Current Events*.

L. J. RUNDLETT,

*Superintendent.*

#### PRIZE ESSAYS.

MAY 5, 1906.

Five minutes for material.

Thirty minutes for choosing and thinking about the subject.

Sixty minutes for writing the essay.

Five minutes for mistakes.

# ANNUAL SCHOOL MEETING WARRANT.

## STATE OF NEW HAMPSHIRE.

*To the Inhabitants of Union School District in Concord  
qualified to vote in district affairs:*

You are hereby notified to meet at the Auditorium, on Prince street in said district, on the 29th day of March, 1906, at 7.30 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the reports of the Board of Education for the past year.
4. To choose three members of the Board of Education to hold office for three years to fill vacancies arising from the expiration of the term of office of Edward N. Pearson, John E. Robertson, and Ella H. J. Hill, and to fill any other vacancies that may occur in said board.
5. To choose one or more auditors, and all other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year, including industrial education, military drill, and calisthenics.
8. To see what sum of money the district will raise and appropriate for occasional and extraordinary repairs of school buildings during the ensuing year.

9. To see if the district will vote to erect and equip a new Manual Training school building, appoint a committee with authority to decide upon its location, and authorize such committee to purchase or acquire by condemnation, such land as may be necessary and suitable for a lot for such new Manual Training school building, as the same may be located by the committee; and raise and appropriate money and authorize a contract with the City of Concord for its credit as contemplated by chapter 261 of the Session Laws of 1889, and take such other, or further, action as may be necessary to provide for the location and erection of a new Manual Training school building.

10. To see if the district will ratify and confirm the sale and conveyance to the City of Concord, of the old schoolhouse lot and building at West Concord, made by the special building committee, appointed to erect the new West Concord school building; said sale and conveyance having been made in payment for the lot purchased of said city by said committee for the new West Concord school building.

11. To see what sum of money the district will raise and appropriate for the completion of the erection and furnishing of the West Concord school building.

12. To transact any other business that may legally come before said meeting.

---

### ANNUAL SCHOOL MEETING.

CONCORD, N. H., March 29, 1906.

Agreeable to the foregoing warrant, a meeting of the legal voters in Union School District was held at the Auditorium, in the City of Concord, N. H., on March 29, 1906, at 7.30 o'clock in the evening, and was called to order by the moderator, Sammel C. Eastman, who read the warrant.

ARTICLE 1. The moderator called for votes for moderator and when all had voted who wished, declared the ballot closed, and Samuel C. Eastman having four votes, all that were cast, was declared elected moderator and took the oath of office before Louis C. Merrill, justice of the peace.

ART. 2. The moderator called for votes for clerk and when all had voted who wished, the ballot was declared closed, and Louis C. Merrill having received all the votes cast, was declared elected clerk and the oath of office was administered by Samuel C. Eastman, justice of the peace.

ART. 3. On motion it was voted to dispense with the reading of the reports, and that the reports, as printed, be adopted and placed on file.

ART. 4. Mr. H. H. Metcalf moved to proceed to ballot for three members of the Board of Education, the names to be on ticket, and it was so voted and the moderator called for votes.

On motion of Mr. H. H. Metcalf it was voted that the polls be closed at 8.15 o'clock.

The moderator appointed Arthur Sturtevant and Edson J. Hill to assist in sorting and counting the votes.

The moderator declared the vote as follows:

Number of votes cast . . . . .	443
Necessary for a choice . . . . .	222
John P. George had . . . . .	54
Charles L. Fellows had . . . . .	107
Ella H. J. Hill had . . . . .	334
George H. Moses had . . . . .	360
Edward N. Pearson had . . . . .	422

—and Ella H. J. Hill, George H. Moses and Edward N. Pearson were declared by the moderator as elected members of the Board of Education for three years. The members elect then appeared and were sworn by Samuel C. Eastman, justice of the peace.

ART. 5. Mr. John M. Mitchell moved that John P. George and Henry H. Metcalf be chosen auditors, and it was so voted.

ART. 6. Hon. Charles R. Corning presented the following resolution and moved its adoption:

*Resolved*, That there be raised by tax on the polls and ratable estates of Union School District the sum of nine thousand seven hundred eighty-five dollars (\$9,785) of which sum eight thousand dollars (\$8,000) shall be appropriated for the payment of bonds maturing April 1, 1906, and one thousand seven hundred eighty-five dollars (\$1,785) for the payment of the interest on its funded debt accruing during the year.

Motion seconded, a vote taken, and the resolution declared adopted.

ART. 7. Mr. John M. Mitchell offered the following resolution and moved its adoption:

*Resolved*, That there shall be raised, and is hereby ordered to be raised, by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year such a sum as in addition to the sum assigned to the district by the City of Concord out of the appropriation for schools will amount to the sum of sixty-seven thousand seventy-five dollars and nine cents (\$67,075.09).

Motion was seconded, a vote taken, and the moderator declared the resolution adopted.

ART. 8. Mr. John P. George presented the following:

*Resolved*, That the sum of two thousand five hundred dollars (\$2,500) be raised by taxation upon the polls and ratable estates of Union School District and appropriated for occasional and extraordinary repairs of school buildings and that the expenditure of such a sum shall be under the direction of the Board of Education.

Mr. George moved the adoption of the resolution and the motion being seconded, and a vote taken, the moderator declared the resolution adopted.

ART. 9. Mr. George M. Kimball offered the following resolution which was read by the moderator:

*Voted.* (1) That a new manual training school building be erected and equipped; (2) That Charles R. Corning, George M. Kimball, John M. Mitchell, Henry H. Metcalf, Edson J. Hill, DeWitt C. Howe and Charles R. Walker be, and hereby are, appointed a committee with authority to decide upon a location for said new manual training school building, and said committee is hereby authorized to purchase or acquire by condemnation, in the name of, and on behalf of, the Union School District, such land as may be necessary and suitable for a lot for such new manual training school building to be erected upon, as selected and decided upon by said committee, and said committee is authorized to do all other acts and things in the name of, and on behalf of, the Union School District necessary to secure the location of such lot and to purchase or acquire it; (3) That Charles R. Corning, George M. Kimball, John M. Mitchell, Henry H. Metcalf, Edson J. Hill, DeWitt C. Howe and Charles R. Walker be, and hereby are, appointed a building committee to erect and furnish said new manual training school building and to employ architects, agents and such other assistants as they may require, and to do in the name and on behalf of the Union School District such other acts as may be necessary to carry this vote into effect; (4) That the sum of \$30,000 be, and the same is, hereby appropriated to purchase or acquire the land necessary for the location of said new manual training school building and to erect and furnish said new manual training school building; (5) That the indebtedness of the Union School District arising from the purchase of land, construction and furnishing of said new manual training

school building be funded at a rate of interest not exceeding three and one half per cent. per annum, that a sufficient sum of money be assessed upon the polls and estates of Union School District on the first day of April in each year hereafter to meet the payments of the interest and principal of the said indebtedness at the date or dates of the maturity of the principal and interest as the same may be fixed, as hereinafter provided, and that the money obtained by said assessments be, and hereby is, appropriated to make said payments; (6) That the Union School District requests the City of Concord to aid in funding the indebtedness of the Union School District arising from the purchase of land, construction and furnishing of said new manual training school building, as the City of Concord is authorized to do by chapter 261 of the Session Laws of 1889, entitled " An act to authorize the City of Concord to borrow money in aid of its school districts " provided said City of Concord will borrow the money necessary for the purposes set forth in this vote, and will allow the Union School District to have the use of the money so borrowed, and further that if this request is complied with, the Union School District will seasonably pay the City of Concord sufficient sums of money to enable the City of Concord to meet the payments of principal and interest upon the indebtedness so created as the same falls due, and all incidental expenses, and will apply the money to be raised as herein provided, to the payments aforesaid; and said building committee is hereby further authorized to make said request of the City of Concord and determine with the City of Concord the date or dates when the principal and interest thereon shall mature, and do all other acts and things necessary to carry this vote into effect.

Mr. Kimball moved a yea and nay vote on each paragraph and it was so voted, and the vote was then taken on each paragraph with the following result as stated by the moderator:

1. The ayes appear to have it, the ayes do have it and the paragraph is adopted.
2. The ayes have it and the paragraph is adopted.
3. The ayes have it and the paragraph is adopted.
4. The ayes appear to have it, the ayes do have it and the paragraph is adopted.
5. The ayes have it and the paragraph is adopted.
6. The ayes have it and the paragraph is adopted.

ART. 10. Mr. Edward N. Pearson offered the following resolution and moved its adoption:

*Voted*, That the sale and conveyance to the City of Concord, of the old schoolhouse lot and building, at West Concord, made by the special committee appointed to erect the new West Concord school building, said sale and conveyance having been made in payment for the lot purchased of said city by said committee for the new West Concord school building, be ratified and confirmed.

Motion seconded and a vote taken on the motion which the moderator declared adopted.

ART. 11. Mr. John M. Mitchell offered the following resolution and moved its adoption:

*Resolved*, That the sum of one thousand dollars (\$1,000) in addition to the sum of twenty-eight thousand dollars (\$28,000) appropriated by the district by vote at its special meeting holden on June 1, 1905, to secure land and erect and equip the new West Concord school building be, and hereby is, appropriated for the completion and furnishing of said new West Concord school building and for grading the lot upon which it is erected; and that said one thousand dollars (\$1,000) or such part thereof as may be needed for the purposes specified be funded at a rate of interest not exceeding three and one half per cent. in the

manner and by the authority prescribed for the funding of said twenty-eight thousand dollars (\$28,000) as provided in the vote of the district passed as aforesaid, on June 1, 1905.

A vote being taken, the moderator declared the resolution adopted.

Mr. Charles J. French moved to return to the consideration of article 7 of the warrant and it was so voted.

ART. 7. Mr. Charles J. French offered the following resolution and moved its adoption:

*Resolved*, That the sum of one thousand dollars (\$1,000) be raised by tax on the polls and ratable estates within Union School District and hereby is appropriated for the purpose of establishing and maintaining a night school in said Union School District during the winter months of 1906 and 1907, and that the expenditure of the amount of money be under the supervision of the Board of Education.

A vote was taken and the resolution declared adopted.

ART. 12. Mr. H. H. Metcalf moved to adjourn and it was so voted.

A true copy, attest:

LOUIS C. MERRILL,

*Clerk.*

## REPORT OF THE BOARD OF EDUCATION, SCHOOL DISTRICT NO. 20.

---

The Board of Education submits the following report of educational conditions in School District No. 20 for the financial year of 1906-1907.

For a detailed statement of school management, attendance and expenses reference is made to the accompanying reports of the superintendent and treasurer which are made a part of this report.

The school buildings are in good repair and, while sanitary conditions are not perfect at the Summer Street building owing to insufficient ventilation in some of the rooms, no extra appropriation will be required as all necessary repairs and some improvements are made each year.

Two years have been added to the high school course in accordance with the unanimous vote of the district at its last annual meeting. The year began with an enrollment of sixty pupils in this department, which abundantly justifies the new venture. Sufficient tuition has been received to nearly pay the salary of the extra teacher required, and if a full course of four years should be organized, the income from tuitions would be materially increased.

It is now three years since any high school work was attempted in this village and sufficient time has elapsed to judge, if not of its efficiency, at least of its influence on the rest of our school system and on the community.

Under the present management the high and elementary schools form practically one unbroken course with only one graduation point. As a result of this policy and the increased opportunities there has been a large increase in the number of pupils in the higher grades. This year we have sixty pupils from our own district enjoying high

school privileges, while previous to the organization of our own school, twenty-one was the largest number and the average was below seventeen.

These facts show in an unmistakable manner how the children themselves react to the increased opportunities, and they are a sufficient answer to any question as to their stimulating and helpful influence, on the lower grades. They also prove the truth of the assertion so often made by those who have studied our educational conditions most carefully that a very large proportion of our people prefer to educate their children as far as possible in the community where they live. The cost of transportation, the long day away from home privileges, home influences and home restraints are, with many of our people, serious obstacles to sending their children away from home to complete their public school education.

Nor is this all. The high school is a most potent factor in raising the ideals of the community. It fosters educational progress and contributes in no small measure to the culture and moral betterment of the people.

Much has been said concerning the rate of taxation in our district. It is fair to state the fact that the principal cause of the increased rate is the new school building, which was a necessity before the high school was organized.

It may also be interesting to those concerned to know that our school tax is less than our precinct tax and that the rate will probably decrease as large property interests now exempt become taxable.

Is there any good and sufficient reason why we should not pay as much for the education and training of our children as we pay for sewer and light privileges? Of what avail are modern conveniences and even hygiene when schools are neglected and the vast majority of children, finding the larger educational opportunities practically denied them, seek work in the factories at fourteen years of age, and are fit only for work demanding little skill or intelligence, and when the education and

training of the secondary schools can only be the special privilege of the favored few who can afford to seek such privileges away from home.

The efficient administration of your school system means equal public school opportunities for rich and poor alike, it means the contact of all children with American ideals and the spirit of American institutions, it means an opportunity for every Penacook boy and girl to prepare for college if they have the natural ability and ambition, it means an increase in the working efficiency and intelligence of the whole village which it is impossible to estimate.

We believe that no public moneys are more judiciously expended or bring a larger return in the things which really increase human wealth and human success than those expended for school purposes. The average current expenditure per pupil is twenty dollars and sixty-seven cents. Does any intelligent person believe that it should be less than this?

There is some honest criticism of the practical value of the work done in the public schools. Such criticism is always welcome, especially from those who have studied the problem sufficiently to be able to offer practical methods for improvement.

No school system, however perfect, will ever be able to compensate for lack of home training and discipline, and it should always be remembered that the sympathy and co-operation of the parents are quite as essential as wise methods on the part of those who administer school affairs.

Growth toward ideal conditions may be slow but it will be sure when the responsibility of each citizen for the conditions which exist is recognized.

Respectfully submitted,

HENRY C. HOLBROOK,

LEANDER C. PRESCOTT,

HENRY A. BROWN,

*Board of Education.*

## SUPERINTENDENT'S REPORT.

*To the Board of Education:*

I herewith respectfully submit my sixth annual report, which is the sixth in the series of reports of the superintendent of schools in District No. 20, Penacook. It gives me pleasure to again thank the members of the Board of Education and the citizens of the district for their loyal support and their kindly interest in the schools.

### ATTENDANCE.

In another part of this report there will be found a list of the names of those children who were perfect in attendance and a table of attendance for the school year 1905-1906. The ten children whose names are on the list are certainly deserving of praise. As they did not know that their names were to appear in this report, they must have been prompted by some other motive than notoriety. They have shown an interest and faithfulness in school work which is surely worthy of emulation, and it is hoped that next year the list may be greatly increased.

A careful study of the table of attendance brings out several interesting facts. The average membership of the schools is gradually increasing from year to year. This is due to the increased membership in the upper grades. The per cent. of attendance is exceptionally good. The highest per cent. is 97, while the lowest is only 91, and the average per cent. is 94.

In one respect the table is disappointing. There are far too many cases of tardiness. Only two schools show even reasonable figures in that respect. At present there is quite an effort being made to improve this condition of affairs, and it is hoped that the parents will heartily co-operate

with the teachers in their efforts. There are also a large number of excuses granted by teachers. I believe many of these to be unnecessary. Parents are too willing to grant the request of children and write excuses when it would be far better not to do so. Children should be taught that their attendance at school and their school work is of first importance. Poor attendance, as indicated by absence, tardiness, and excuses, often accounts for many cases of poor scholarship. Every time that a child misses a school exercise for one of these causes, there has occurred a material loss which it is almost impossible to regain. Pupils, teachers, parents and members of the Board of Education are urged to do everything in their power to decrease in the future the number of cases of tardiness and excuse. Until something is accomplished in this direction our schools will not be all that we desire.

#### PROGRAMME OF STUDIES.

The programme of studies is now so arranged that the grammar school work is completed at the end of the eighth year of school. That is, if a child enters at the age of six years and continues without interruption, he is ready to enter the High school at the age of fourteen. As very few children have such uninterrupted progress, the average age for entering the High school is generally a little over fifteen. Thus with the present programme of studies the children will graduate from the High school at the average age of nineteen years.

The majority of children lose a year in school life during the first four years. For one reason or another the average child does not develop with the same regularity during this early period as later. This failure of young children to proceed uniformly from grade to grade would be greatly alleviated by the extension of the programme of studies to include the work of the kindergarten. The advantage of the kindergarten and its bearing upon school work in gen-

eral, has been fully treated in previous reports and need not be touched upon at length in this connection.

The course in music is still under the direction of Mrs. Martha Gale, who has made some changes in the work during the past year. New books from the Modern Music Series have been placed in some rooms. As the other old books now in use become unserviceable through wear, they will be replaced by more new ones. The Weaver System of Individual Sight-Reading has been successfully used; some new charts have been furnished, and some sheet music has been placed in the hands of the older pupils. From time to time it has been the custom to give school entertainments with musical programmes to illustrate what is being done in this course. At present such a programme is under preparation and will probably be publicly given in the near future.

The course in physiology has been revised and much extended. A new text-book, Conn's Physiology and Hygiene, has been introduced. This course now fully complies with the requirements of the law and gives the children a good knowledge of the human body and much valuable information in regard to its care.

At present the Werner Arithmetic is being used in most of the rooms. This is extremely spiral in its method of treating the subject-matter. The method is one that has been much in vogue during the past few years. Theoretically, the system is pedagogically sound. The child should take up the discussion of arithmetical facts in their elementary forms as early as the mind is able to grasp them, and these facts should be constantly added to as the mind develops. On the other hand, it is equally true that too many ideas should not be presented in a short period of time, and all facts that are closely allied should be grouped so that comparisons could be made and their relations be definitely shown. In addition the explanation of processes, as they come up for consideration, should be accompanied by sev-

eral examples and problems for the purpose of illustration and drill. This does not mean a return to the old method of presenting fractions in one school year, percentage in the next, and so on, but to simply bring together all the material pertaining to any arithmetical fact which is to be taken up during a definite period of the child's development. In this way there would be less confusion of facts and the child would be able, through comparison and drill, to form more definite arithmetical conceptions. Furthermore, text-books should be so arranged that the pupil may easily refer through the index to any definition or process. This is an important consideration in view of the fact that it is generally conceded to be one of the prominent features in school work to train children how to use books and find out things for themselves. Any book with its subject-matter in confusion, loses its value and is soon discarded. So a text-book, to be of value to pupils, must be well arranged and easy of reference.

It is my privilege to again call the attention of the Board of Education and members of the district, to the condition of the course in drawing. This is being carried out as well as possible, each teacher independently doing her own work. Often many excellent results are obtained, but on the whole the work lacks uniformity in logical arrangement and development. The difficulties encountered in carrying out this course can best be overcome by the employment of a special teacher in the subject. As a method of expression it is fully as worthy of study as music, and deserves an equal expenditure.

At the beginning of the last fall term the State Programme of Studies, with a few slight modifications, was adopted for the first four grades. This programme was worked out by some of the best educators of the state. It serves to establish a uniformity among the schools of the state, so that children moving from one school district to another may do so without loss of time in their studies. It furnishes uniform directions in regard to the amount of

work covered, and the results that should be obtained in each year of school work. It does not definitely determine the text-books to be used, but its recommendations in this direction are good and worthy of consideration. It also contains excellent lists of reference books for teachers on the various subjects. Any thoughtful teacher will find it a great assistance, whatever the programme of studies in use.

### GRADING.

As during previous years, the first grade, on account of its size, has been divided and a part placed in the room with the second grade. Besides the first, the fifth grade is the only one that has been divided. A part of this has been with the sixth and a part with the eighth grade. The plan of having a part of the fifth combined with the eighth is by no means satisfactory on account of the difference in the age of the pupils and the methods of teaching the different subjects presented to the two classes. The combination, however, for the past year seemed unavoidable. Another year it will not be necessary, as the lower grades can be accommodated by themselves.

During the year several pupils have been advanced a grade as they have shown their ability to do harder work. This is always done with the consent of the parents, and where the physical condition of the child is good. Double promotion more frequently occurs in the lower grades, as there advancement depends upon the maturity and natural development of the child rather than on the individual effort.

More children should each year fail of promotion. It is the tendency of teachers, and especially of parents, to crowd children whose mental activities are not rapid enough to do required work. Such crowding is, in the long run, injurious, and these children would develop better and get more from school if they were doing work within

their understanding. Children thus struggling to keep up with their class, as they say, are very apt to become discouraged and generally leave school at the earliest opportunity. If such children and their parents could be brought to realize the importance of considering mental development in relation to grading, a great many unhappy and discouraging hours would be saved the children as well as a great many cases of absolute failure. Only eight years are required to enter the high school, so if a child loses a year only nine years are required, and formerly nine years were required for all children. The superintendent wishes that more parents would consult him in regard to the matter.

#### TEACHERS.

During the past year there have been far too many changes in the teaching force. Since the resignation of Miss Lillian G. Stevens, there have been two teachers, Miss Grace B. Knowlton and Miss Eva M. Cheney, in the second grade. Miss Stevens resigned on account of her health, and Miss Knowlton, to accept a position in Concord. The same change has occurred in the eighth grade. Miss Elizabeth G. Saunders resigned at the end of the last spring term, and Miss M. Jennie Doyle was elected to fill the position. After a few weeks, Miss Doyle resigned to accept a better position in Massachusetts, and Miss Edna Crowell was elected to fill the position. Miss Nettie M. Bowen resigned and her place was filled by the election of Miss Ella M. Shaw.

During the summer Mr. Willard B. Atwell resigned as principal of the High school. Mr. Atwell was principal for three years and did good work in the establishing and building up of the High school. Mr. George H. Harmon, a graduate of Bates, was elected to the position. The growth of the school and the addition of another year's work necessitated the employment of another High school

teacher. Miss Susan Annie May, a graduate of Brown, fills this position. There were, then, no less than five teachers who resigned during the year. In only one case, that of Miss Stevens, was poor health the cause. The others came about directly or indirectly through the lack of sufficient salary inducements. The district, in order to maintain permanency and the standard of its teaching force, must at an early date make a more generous salary schedule. The present teaching force, including the new members, is composed of well-educated, well-trained teachers, who will soon become candidates for better positions. Due recognition must be granted the facts that the expense of living is greater for teachers, and that it takes more time and more money to secure the training required of them now than ever before. In the long run, it is a good financial as well as educational policy to continue the services of good teachers as long as possible.

#### HIGH SCHOOL.

In the last annual report the superintendent recommended that the programme of studies for the High school and ninth grade at that time be somewhat changed, another year's work added and the state superintendent be asked to approve the whole for a three-year High school. The recommendation has been carried out in full, and to-day Penacook has a successful, approved three-year High school with an average enrollment of about fifty-five pupils. Considering the size of the village, this is certainly all that could be expected as far as numbers are concerned. Should another year be added, the number enrolled next year would probably be about seventy-five, and the year following nearly one hundred.

Arguments are no longer necessary to justify the existence of the High school as it now is. Its programme of studies, approved by the state superintendent of public instruction, its teachers, graduates of well-known institu-

tions, and its large enrollment are most emphatic evidences that a long deep-felt need has been successfully met. The question now before the district is, shall the fourth year be added? Should the addition be made, three rooms must be devoted to the High school, one more teacher, a college graduate, must be employed and some new books and apparatus must be purchased. One room at the Summer Street school is still unused, so there need be no anxiety or expense incurred in securing the needed accommodations. The additional teacher, although she must be a college graduate, can, in all probability, be secured at a normal figure which will not exceed by much, if at all, the average salary already paid by the district. Books and the apparatus for a chemical and physical laboratory will probably cost somewhat over one hundred dollars, at the beginning of the next school year. The physical laboratory, however, which is the most expensive part of the equipment, even under the present conditions of a three-year High school, must be established. Thus the extra expense of the fourth year will be largely for the salary of the extra teacher, and this to a large extent will be met by the increased number of tuitions paid by those attending school from outside of the district. There have been, during the fall and winter terms, enrolled eleven pupils for whom tuition has been paid at the rate of thirty dollars per year. Most of these will remain another year while quite a few others will enter.

Whenever a district adds another year's work to its school system, it increases by just so much the educational standard of the schools and community. This is especially true when it affords opportunity for a large number of pupils, who for financial or other reasons can not continue their education outside of the district. For example, out of the fifty-one now enrolled in the High school, it is not probable that even fifty per cent. would have gone to a High school out of the district. The opportunities, then, offered these children, who would have been otherwise deprived of a High school education, have been eagerly ac-

cepted and these same children will be better fitted to take the positions of responsibility which will devolve upon them as they continue to live in the community. A fourth High school year would add more to the educational standard of the schools than any previous year of the child's school life. With this year children could fit for college or other higher educational institutions without leaving home, and the reduced expense in the secondary school would enable many, where there are now but few, to look forward to a college or high technical education. From an educational point of view, the High school should have a full four years' course. Then, and then only, will the school system of the district be complete, and the pupils have something definite to look forward to, namely, the High school diploma. The superintendent recommends this to the careful consideration of the School Board and residents of the district.

As has been before mentioned, an additional year in the High school would require another room. One of the grades in the Charles Street building could be transferred to Summer Street and the room thus vacated be used. However, as a matter of fact, the Summer Street building would be far more economical for High school purposes than the present situation, where the High school must soon occupy the whole building, crowding out all the grades. On the other hand, the second floor of the Summer Street building, by using the double room as an assembly room, could be made to accommodate the school for some time to come.

Thus far the High school has been conducted with the hope and, I may say, expectation that the fourth year would finally be added. The programme of studies is simply the first three years of a four-year course. Records are being kept of all the work of the pupils. Definite per cents. have been decided upon for promotion and certificate privilege. In order to be promoted and finally graduate, a child must acquire an average per cent. of seventy. While those wishing to obtain certificates of scholarship, in

order to attend more advanced institutions, must attain eighty-five per cent. for the last two years of the course. In these respects the whole plan has been in accordance with the idea of a complete four-year High school.

#### IN CONCLUSION.

In closing this report, it may be well to call your attention briefly to the purpose of the public schools. During the last ten years the educational affairs of the state have progressed by leaps and bounds. New and extremely beneficial attendance laws have been enacted, opportunity is now furnished every child of the state to attend a High school at public expense, supervisory laws have been passed, several laws of equalization have become successfully applicable to a large number of poorer districts of the state, and much other equally advantageous legislation has taken place. Furthermore, at the time of writing, the General Court is considering the establishment of another Normal school, the further extension of the equalization laws, and the certification of teachers. Through these numerous legislative acts, the state shows an interest in its public schools and indicates that they are really a department of the state rather than the property of local municipalities. In short, the state recognizes that the political safety of a republic depends directly upon the intelligence of its citizens. It is then for the protection of the state that the vast system of public schools exists. Bearing this in mind, it is readily seen that the public schools must educate children for citizenship. They must, as far as possible, train children so that they may be able to perform intelligently the ordinary duties, social, moral, and political, devolving upon them. The schools of the district are, as far as possible, endeavoring through the conscientious efforts of the teachers and school officials, to attain this object.

Respectfully submitted,

H. C. SANBORN,  
*Superintendent.*

Total bonded indebtedness . . . . .	\$13,800.00

## SCHOOL REPORT OF THE TOWN SCHOOL DISTRICT OF CONCORD, 1906-1907.

---

Once again your attention is called to the close of another school year. Looking back over the year's work, we are able to report progress and improvement in many directions. We have had a school year of about thirty-five weeks; the longest in our history. It may be desirable to extend the school year to thirty-six weeks or even more than that the coming year. However, it is the opinion of many who are well qualified to judge, and the opinion is indorsed by your school board, that thirty-six weeks of schooling in the year is enough for the best interests of the average child.

The financial affairs of the district have been ably managed by our town treasurer, Mr. Isaac N. Abbott, who has served the district faithfully in various positions over an uninterrupted period of forty-nine years.

The close of the year finds all bills paid, schoolhouses in good serviceable condition, and a substantial sum in the treasury.

Our schools are in charge of teachers who have taught from six to forty terms and they are doing uniformly good work.

We earnestly hope the district will vote to authorize the school board to unite with others in forming a supervisory district for the purpose of employing expert supervision. This will, at least, be worth the trial and will not, we trust, make our expenses burdensome. This would be a help to the teachers as a course of study would be planned for them and the work throughout the district would be more uniform.

A short course in agriculture in our schools, we believe,

would awaken an interest in that most essential of occupations and would be especially helpful to any who may wish to enter the agricultural college.

We recommend to parents that their visits at the school-room be more frequent. Encourage and support the teacher in every possible way, and if any injustice prevails, come directly and in a fair manner to the committee for adjustment.

ALBERT SALTMARSH,  
IRVING T. CHESLEY,  
JUDSON F. HOIT,

*School Board.*

#### MILLVILLE GRAMMAR.

This school has been taught for two years by Miss Marjorie Robinson, a teacher of experience, who has worked faithfully with her pupils. c.

#### MILLVILLE PRIMARY.

This school has been taught for a number of years by Miss Ethel Paige, whose efficient work has won for her the esteem of all, and it is with regret that we accept her resignation. c.

#### ASHVILLE SCHOOL.

This school has been taught by Mrs. Maude G. Thompson, a graduate of Tilton Seminary, a teacher of seven years' experience in the graded schools of Belmont and the Town District of Concord. Mrs. Thompson's scholars show great progress during the past year and we hope she will return in the spring. c.

#### IRON WORKS SCHOOL.

This school of thirty scholars has been taught during the past year by Miss Edna Watson, a teacher of experi-

ence, whose excellent work is satisfactory to all parents and scholars in the district. c.

#### HORSE HILL AND No. 4 SCHOOLS.

During the spring and fall terms the scholars at No. 4 were conveyed to Horse Hill school. Miss Ruth W. Favor was in charge of the spring term and both schools seemed to maintain their standing as well as under separate teachers.

After the close of the spring term Miss Favor resigned the position she had filled acceptably for two years and Miss Grace E. Wallace, of Centre Sandwich, succeeded her in the work. Miss Wallace, though a young teacher, gave to the school excellent service which was highly appreciated. A winter school of twelve weeks was maintained at No. 4 with Miss Tina B. Hurd, of Lisbon, as teacher. The closing examination proved to a good number of parents and friends that the school had been in every way a success. s.

#### BURROUGH SCHOOL.

This school, for three years under the instruction of Mrs. Belle C. Ball, of Concord, has made good improvement during her entire term of service. An average of about thirty pupils of ages ranging from five to nearly fifteen years is certainly a field requiring busy and faithful work. The present instructor has filled her position most acceptably to all interested in the welfare of this school, and her services should be retained for the coming year. s.

#### SNAPTOWN SCHOOL.

Miss Fannie Kendall taught the spring term. Miss Mary Shaw, a graduate of Pittsfield high school, taught the fall and winter terms doing good work. h.

## TURTLETOWN SCHOOL.

Miss Flora Hook, who has so successfully taught this school in the past, resumed charge again during the past year. The improved condition of the schoolhouse, together with good teaching service, has made the school a success.

H.

## MOUNTAIN SCHOOL.

The spring term was commenced by Miss Hannah M. Stanyan. Owing to sickness in her home she was obliged to leave and Miss Della Corser finished the term in a very satisfactory manner. The fall and winter terms were taught by Miss Bridgett Rochelle, a graduate of Concord high school, who gave entire satisfaction to scholars and parents.

H.

## PLAINS SCHOOL.

Miss Isabel Adams was in charge of this school during the three terms. She gave her usually faithful service, which resulted in good advancement of the pupils in all branches taught.

H.

---

TREASURER'S REPORT.

The treasurer of the Town School District respectfully submits the following report of the receipts and expenditures for the year ending March, 1907:

---

RECEIPTS.

# FIRE DEPARTMENT.

---

## REPORT OF CHIEF ENGINEER.

---

*To the Honorable Mayor and City Council:*

I herewith submit for your consideration the following report of the Fire Department for the year 1906:

The department responded to forty-six (46) bell alarms and one hundred and sixty-one (161) still alarms.

	Bell.	Still.	Total.
Precinct,	27	140	167
Penacook,	12	18	30
East Concord,	3		3
West Concord,	4	3	7
	<hr/> 46	<hr/> 161	<hr/> 207

In the line of fires the year, when compared with the preceding one, has been uneventful. The loss was not large and a considerable portion of this was entailed by the destruction of buildings far removed from the city proper, without fire protection, the only surprising feature being the total lack of insurance in some instances.

In the line of expenditures, the year has been extraordinary. Valuable additions and improvements have been made to the apparatus and equipment, among the most notable of which may be mentioned the purchase of a ladder truck, hose wagon, twenty-five hundred feet of hose, extension ladder, life-net, and the rebuilding of Engine four.

The apparatus is in good condition but the fact must be borne in mind that the boilers of some of the engines have

attained such age that the replacement of same will be subjects for consideration in the near future.

The fire-alarm telegraph system is in good condition. One box was added to the system and the circuits kept in thorough repair. I would respectfully recommend the installing of a fire-alarm station on Auburn Street, between High and Franklin Streets, during the coming year. Relative to recommendations pertaining to the improvement of the system, I can but refer your honorable body to reports of former years.

The annual test of hose resulted in the relining of seventeen hundred and fifty feet and the discarding of eight hundred and fifty feet.

Respectfully submitted,

W. C. GREEN,

*Chief Engineer.*

#### APPROPRIATIONS.

Appropriation,	\$22,000.00
Joint resolution, hose,	2,250.00
rebuilding Engine 4,	2,000.00
ladder truck,	1,200.00
hose wagon,	490.00
horse,	300.00
extension ladder,	175.00
outstanding claims,	496.18
	<hr/>
	\$28,911.18

#### DISBURSEMENTS.

Permanent men,	\$7,074.00
Vacations,	624.50

## APPARATUS AND FORCE.

The apparatus and force of the department is as follows:

Precinct, located at the Central Fire Station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine Company (13 men); one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine Company (14 men); one second-class Amoskeag engine, "Governor Hill," relief steamer, in charge of an engineer and fireman; one double 60-gallon tank Holloway chemical engine in charge of two permanent men; one ladder truck, "City of Concord," attached to Hook and Ladder Company (21 men); one house man at Central Fire Station. There are twelve horses kept at this station. There are six permanent men located at the Central Fire Station and one permanent man at each fire station within the precinct.

The Alert Hose Company (11 men), located on Washington Street, has a modern hose wagon with permanent man and horse.

The Good Will Hose Company (11 men), located on the corner of Concord and South State streets, has a modern hose wagon with permanent man and horse.

Veterans' Auxiliary Company (30 men).

One hook and ladder truck and one hose carriage in reserve.

The "Pioneer" Steamer Company (28 men), at Penacook, has a fourth-class Silsby, with two hose wagons.

The Cataract Company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand engine and a modern hose wagon.

Old Fort (30 men), East Concord, has a 4½-inch cylinder Hunneman hand engine and hand ladder truck.

## FIRE-ALARM TELEGRAPH.

## NUMBER, LOCATION, ETC.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz.:

DISTRICT 1. Embraces that section of the city north and west of Washington Street, box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4 AND 5. Embrace all south of Pleasant Street.

The first figure of the box number will indicate the district.

## DISTRICT No. 1.

9. New Hampshire state prison.
12. Curtice Avenue.
13. Franklin and Rumford.
14. Bradley and Walker.
15. Main and Church.
16. Franklin and Jackson.
17. Alert Hose House.
18. C. S. Gale's store.
19. Centre and Auburn.

## DISTRICT No. 2.

21. State, opposite Court.
23. Main and Chapel.
24. Main and Centre.
25. Main and School.
26. Centre and Union.
27. School and Merrimack.
28. School and Spring.
29. Centre and Essex.

## DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central Fire Station.
- 35. Martin's drug store.
- 36. Pleasant and Spring.
- 37. Pleasant and North Fruit.
- 38. Orchard and Merrimack.

## DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose House.
- 43. Main and Fayette.
- 45. Nelson & Durrell's store.
- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.
- 412. Wall and Elm.
- 413. Main, opposite Thorndike.
- 414. State and West.

## DISTRICT No. 5.

- 51. Boston & Maine Railroad, new shops.
- 52. South Main and Allison.
- 53. Hall and Hammond.
- 54. Broadway and Pillsbury.
- 56. St. Paul's School.
- 57. Pleasant View.
- 521. Broadway and Rockingham.
- 522. South Main and Holly.

## PRIVATE BOXES.

- 5. Boston & Maine Railroad—north end passenger depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire State Hospital.
- 8. Page Belting Company.
- 9. Three boxes inside New Hampshire state prison.
- 33. State house.
- 55. Boston & Maine Railroad old repair shops.

## FIRE-ALARM SIGNALS.

Alarms rung in from boxes 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 414, 51, 52, 53, 54, 55, 56, 57, 521 and 522 will not be responded to by the Alert Hose Company until signaled. The signal to proceed to the fire will be four blows or second alarm, excepting alarms rung in from box 56.

Alarms rung in from boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 21, 23, 26, 27, 29, 32, 37, 56 and 57 will not be responded to by the Good Will Hose Company until signaled. It will be governed by the same signals governing Alert Hose Company. The Alert Hose and Good Will Hose companies will hitch up and remain in readiness 20 minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal, the officers in charge shall dismiss their companies.

Alarms rung in from boxes 12, 37, 53, 54, 57 and 521 will not be responded to by Kearsarge Company on first alarm.

The signal to proceed to the fire will be two blows, four blows, or second alarm, as circumstances may warrant.

Kearsarge Steamer to all calls except 51.

Eagle Hose Company to all calls.

Eagle Steamer to boxes 6 and 7, on first alarm; to boxes 23, 24, 25, 33, 34, 35, 42, 43, 45 and 413, on second; to all others on third, except 9 and 56.

Governor Hill Steamer will respond to boxes 8 and 9 on first alarm; to boxes 5, 6, 7, 12, 13, 14, 15, 16, 17, 18, 19, 21, 26, 27, 28, 29, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 414, 52, 54, 55, 57, 521 and 522, on second; to all others on third.

Chemical Engine will respond to all box alarms except 8, 9, 51, 56, 57 and 521.

Veterans' Auxiliary Company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of 11 strokes each will signalize the requirement of assistance out of town, and will be responded to by

a detail of three men from each company, appointed for the purpose, and by those alone.

Two additional blows will indicate that the call for assistance emanates from East Concord. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, box 34 (Central Station) will follow.

All out signal, three strokes of the bell.

#### BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells, and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone.

#### MILITARY SIGNAL.

Two rounds of 3-1-2.

#### CONCORD STATE FAIR GROUNDS.

Two rounds of 5-1-2.

To be responded to by Good Will Company and apparatus, Eagle Company excepting engineer and stoker, Eagle wagon, Kearsarge Engine, engineer and stoker, and Hook and Ladder Company.

All apparatus excepting Kearsarge Engine to return immediately to quarters with detail sufficiently large to reload and work apparatus should occasion require.

Companies not responding to remain in quarters until recall is sounded, in readiness to respond to summons by telephone.

#### SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock a. m.

The signal to close for the afternoon session will be given at 1 o'clock p. m.

The signal to close all schools for one session will be given at 11.30 a. m.

#### TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

#### THE FIRE-ALARM TELEGRAPH

is the "Gamewell" patent. It embraces 40 miles of wire.

On the lines are 42 fire-alarm boxes belonging to the city, and nine private boxes—in all, 51. There are three alarm bells, one of 3,724 pounds (bell metal), one of 3,740 pounds (bell metal), and one of 2,000 pounds (American steel). There are also 16 mechanical tappers, 40 direct-action tappers, one four-circuit repeater, and five indicators.

The battery consists of 236 storage battery cells for the lines, and 46 open-circuit battery cells for other electrical purposes.

The alarm system was installed in 1880 by the Gamewell Fire-Alarm Telegraph Company.

#### DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

To obtain the key to the box, break the glass in the key box located beneath the alarm box.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until 20 seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go.

Should there be no response, pull it again.

Then should there be no response, go to the next box.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

## REGULATIONS OF CONCORD FIRE DEPARTMENT.

---

SECTION 1. The fire department shall consist of a chief engineer, two assistants within the precinct, one engineer each from Ward 1, Ward 2 and Ward 3; two steamer and hose companies, one company to consist of thirteen men, including driver, and one company to consist of fourteen men, including drivers; one relief steamer [company] to consist of two men; two hose companies to consist of eleven men, including driver; a chemical engine company to consist of two men; a hook and ladder company to consist of twenty-one men, including driver; a house man at Central Fire Station; steamer Pioneer, not less than twenty or more than forty men; hand engine companies No. 2 and No. 3, not less than twenty or more than thirty men each. The engineers shall exercise the powers of fire wards, and those within the precinct shall constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places are otherwise vacated. The board of mayor and aldermen, for cause, and after a due hearing, may at any time remove from office or place the chief engineer, any assistant engineer, or any officer or member of the department. In case of vacancies from any cause in the department, of officers or men connected in any manner with the fire service, such vacancies shall be filled by the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall

reside in a house to be furnished by the city free from rent. He shall receive in full for his services, in addition to the use of said house, rent free, the sum of twelve hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses, and other houses belonging to the city and used by the department, and by the companies thereto attached, as often as once a week, and whenever directed to do so by the mayor, or the committee on fire department through its chairman. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the city council annually a statement of the receipts and expenditures of the fire department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall, under the direction of the committee on fire department, cause the same to be made, and as far as practicable he shall examine into the location and condition of fire apparatus belonging to corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall be responsible for the proper care of all property connected with the fire department. He shall keep fair and exact rolls of the respective companies specifying the time of admission and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by fire which may happen

within the city, with the causes thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the Laws of 1889, chapter 84, and entitled: "An act in relation to returns and statistics of fires." He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank, who may be present, shall have the powers and perform the duties of the chief engineer and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The foreman of each engine, hose, and hook and ladder company, immediately after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls and record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause

to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon so to do.

SECT. 7. The foreman of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the assistant foreman shall assist the foreman in the discharge of his duties, and act as clerk of the company, and in the absence of the foreman assume his authority. The foreman and assistant foreman shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose companies shall act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective hose houses at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company, to have its engine, hose and other apparatus cleaned, washed, oiled, reeled and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective foreman may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation parade uniform worn by the fire department.

SECT. 11. The pay rolls for the board of engineers and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Foremen and clerks of companies will forward their pay rolls to the board of engineers for approval and after the action of said engi-

neers and the approval of the city auditor and the committee on accounts and claims, said pay rolls shall be passed over to the city tax collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SECT. 13. No engine, hose, or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any fireman, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen, whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers shall take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, schoolhouses, and asylums once in each six months and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by

orders of the officer in command of the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member of the department one dollar; provided, however, that any fireman liable as above may in case of sickness have power of substitution by giving notice, each assistant engineer to the chief, each foreman to an engineer, and each other member to the foreman of his company. All fines shall be paid to the clerks of respective companies at the first regular meeting after they are incurred. The clerks of companies shall disburse the fines to substitutes answering for absent members in cases where there were substitutes. In cases where there were no substitutes the fines shall be paid to the city.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which purpose three hundred dollars can be expended annually. The companies in Wards 1, 2, and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulations respecting the kindling, guarding and safe-keeping of fires, and for the removal of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time make and enforce such regulations for the government of the department as may be deemed proper, subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of any of the several companies shall wilfully neglect or refuse to discharge his duty, or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer, and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No person shall hereafter be appointed to any position in the fire department unless and until the committee on fire department shall have certified in writing to the board of mayor and aldermen that such person has been examined by them, or under their supervision, and is in their opinion qualified to perform the duties of the position to which he is nominated.

No officer or member of the permanent, or officer of the call, force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on the fire department have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department. He shall, with the assistance of the permanent men at the Central Station, make the necessary repairs and take care of the fire-alarm system, including the batteries, all alarm boxes, and everything pertaining to the fire-alarm system. He shall personally be able to master the fire-alarm in every particular, and every permanent man at the Central Station shall be obliged to understand the fire-alarm system, in order that the chief engineer may call upon any of them to attend to and repair any part of the same. This provision shall not be construed to prevent the chief engineer from employing extra linemen when necessary, or from acting promptly in any emergency.

SECT. 24. Permanent officers and men of the department shall be entitled to a vacation, without loss of pay, of fourteen days in each year, one day per month, also one night per week in addition to said day, to be granted under the direction of the chief engineer.

SECT. 25. The joint standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of houses and apparatus; and all bills contracted for the department

must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central Fire Station, and all communications to the city government from the fire department must come through said committee, and annually at the call of the finance committee, in connection with the chief engineer, they shall make recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers, shall be fined five dollars; and in the absence of firemen at fires, from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. It shall be the duty of the chief engineer to cause all snow and ice or other obstructions to be removed from and around all fire hydrants owned by the city, so that at all times the fire department can make immediate connection of the hose to the hydrants.

SECT. 28. The annual pay of the members of the fire department shall be as follows, and in full for all services: Chief, twelve hundred and fifty dollars per annum and house rent; permanent force at Central Fire Station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert Hose houses, seven hundred and twenty-eight dollars each per annum, paid monthly; assistant engineers, within the precinct, one hundred and twenty-five dollars each; engineers of steamers, within the precinct, one hundred and fifteen dollars each; foremen of companies, within the precinct, each ninety dollars per annum; assistant foremen of companies, within the precinct, eighty-five dollars per annum; members of steamer, hose, and hook and ladder companies, within the precinct, and house man at Central Fire Station, eighty dollars per annum; outside

the preeinet, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer Steamer Company, No. 3, five hundred dollars, said sums to be divided among the members as each company shall direct; engineer of steamer at Penacook, seventy-five dollars per annum; assistant engineer at Penacook, twenty-five dollars; assistant engineer at East Concord, fifteen dollars; and assistant engineer at West Concord, twenty dollars.

SECT. 29. The several engineers residing in Wards 1, 2, and 3 shall have the entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards, respectively, to whom all applications for the use of the halls, or any other part of such building, shall be made. Said engineers may severally appoint janitors, who shall serve under the exclusive direction of the engineer having the care and control of the buildings where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceeding year on account of such buildings.

SECT. 30. Stewards for the Pioneer Steamer Company and engine companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer Company, thirty dollars per annum, and when performing the duties of janitor of the building an additional sum of forty-five dollars per annum; and for steward of Engine Company No. 2, fifteen dollars per annum; and for steward of Engine Company No. 3, thirty dollars per annum. No steward shall be allowed to purchase supplies for such building, or for the department, unless by the authority and direction of the committee on fire department; and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a member, except in the immediate

service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 31. The permanent men and horses at all of the fire stations in Concord shall at all times be on duty at their respective stations to attend to fire-alarm calls; and neither the permanent men nor the permanent horses connected with the fire department shall engage in any work for any other department of the city.

The men at the different fire stations shall do such work in connection with the station and apparatus as the chief engineer or his assistants may direct. All permanent men shall lodge in their respective stations (except chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department, shall have power to hire the same; the chief may also increase as far as possible the number of call men that wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, for his use at all times.

SECT. 32. All alarms for brush or forest fires shall be responded to by members of the fire department under such rules and regulations as shall be prescribed by the chief engineer.

SECT. 33. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed; but such repeal shall in no wise revive or put in force any ordinance heretofore repealed, and this ordinance shall take effect upon its passage.

## ADDITIONAL REGULATIONS.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incomplected line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the protection and identification of firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. Each company shall be allowed three substitutes, except Hook and Ladder Company No. 1. which shall have five, to be approved by the chief engineer.

ART. 15. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 16. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Foremen will be held responsible for all lack of promptness and efficiency in their commands.

# ROLL OF THE FIRE DEPARTMENT, 1906.

## Permanent Chief Engineer.

WILLIAM C. GREEN.

Office, Central Fire Station.

## Assistant Engineers.

### PRECINCT.

JOHN J. McNULTY, 1st Asst., Machinist, 35 West Street.  
WILLIAM E. DOW, 2d Asst., Painter, 13 Academy Street.  
JOHN J. McNULTY, Clerk of the Board.

### WARD 1.

ABIAL W. ROLFE, Manufacturer, Penacook St., Penacook.

### WARD 2.

JOHN E. FRYE, Farmer, Penacook St., East Concord.

### WARD 3.

GEORGE W. KEMP, Overseer, 443 No. State St., West Concord.

---

## KEARSARGE STEAM FIRE ENGINE AND HOSE COMPANY, No. 2.

### OFFICERS.

SYLVESTER T. FORD, *Captain.* J. EDWARD MORRISON, *Lieutenant and Clerk.*  
JAMES H. SANDERS, *Engineer and Treasurer.*

### MEMBERS.

<i>Badge Nos.</i>	<i>Names.</i>	<i>Occupations.</i>	<i>Residences.</i>
11	Sylvester T. Ford,	Moulder,	41 South Main Street.

# HIGHWAY DEPARTMENT.

---

## REPORT OF THE COMMISSIONER OF HIGHWAYS.

---

*To the City Council:*

GENTLEMEN: The commissioner of highways herewith submits the annual report of the highway department for the year ending December 31, 1906. The usual amount of work was necessary along the line of general repairs. The winter was not a very severe one and no heavy expense was incurred by reason of storms or freshets.

Considerable was done in the way of permanent improvements. The macadam on North State Street was extended north to the south entrance of Blossom Hill cemetery and I would recommend that the work be carried farther north as the street beyond the macadam now is in very bad condition. About ten hundred feet of graveling was done on the South Pembroke road and I think a continuation of this same work would be advisable another year. Graveling was also done on South Spring Street from Pleasant Street south. A drain was put in which I think will greatly improve the condition of the roadway there. A small section of macadam has been put in each season for several years past on the Penacook road. The section put in this year brought the macadam into Washington Square at Penacook. With a little repair, which is necessary, this road will be in good condition for some distance. Pleasant Street from State to Green was conereted, continuing the work begun in 1905. Main Street from Freight Street south on the west side of the street railway track is in bad shape and

should be repaired. The friends of Christian Science throughout the country, taking pride in the home of their leader, Rev. Mary Baker Eddy, very kindly offered the city a sum of money equal that appropriated by the city for permanently improving North State Street from Pleasant Street north. The city council voted to accept the offer and appropriated \$5,000. The street was concreted from Pleasant to Court Street at an expense of \$10,855.97, of which \$5,855.97 was paid into the city treasury by Mr. J. Wesley Plummer, trustee of the fund.

On account of the new heating plant put in at St. Paul's School, it was necessary to do considerable grading and the bridge will have to be widened.

During the year the Pembroke bridge was re-planked and the Borough bridge at Penacook thoroughly repaired. The Borough bridge was raised about three feet, new timbers put in where needed and re-planked. The Pembroke and Sewall's Falls bridges should both be re-shingled the coming summer. The following table shows the repairs on bridges:

## LABOR ON BRIDGES.

Washington.....	Outlet.....	Outlet.....	General repairs	4.43

The past year brought the brown-tail moth to Concord in much larger numbers than before. The department made a thorough inspection of the trees in the streets during January and February and cleaned them of the nests, which helped to check the spread of the pest. During the summer months when the moths had developed and were depositing the eggs, the trees where infested were sprayed with a solution of arsenate of lead. The department also sprayed trees for private parties, charging for the labor and actual cost of materials used. Quite a number had the work done, while others seemed less interested to help in destroying the pest. The spraying was sufficient to destroy the moths as far as it went, but when the trees of property owners near by were filled with the moths, it can be seen that the work done might be almost useless. I would urge property owners to carefully examine their trees during the winter months and free them of the nests. The department is

again cleaning the trees in the streets and hopes for the co-operation of the residents in the work. Several bills relating to the extermination of the brown-tail moth are before the present session of the legislature, any of which, if passed, will probably offer help in the work. Beside the work on the trees on account of the moths, a number of dead ones were removed and considerable trimming done.

Not many petitions for new concrete walks were granted during the year, but a large number of old concrete walks were repaired.

The table below shows the work done on catch basins.

The question of a convenient supply of gravel is a matter of importance. The bank on the Ahern lot on Franklin Street, purchased last year, has been opened and over

1,500 loads of good gravel and cobble were taken from it in 1906.

The convenience of having garbage regularly collected seems to be appreciated by the citizens. Three thousand nine hundred and twenty-five loads of garbage and three hundred and eighteen of paper were collected during the year. It will be necessary before long to secure some other place for dumping garbage as the stable lot is nearly filled.

The city stable completed last year is proving a great convenience to the department. More shed room is needed for storage and a fence should be built around the lot, which I hope will be completed next year.

Two or three of the sprinklers in use are nearly worn out and it will be necessary to replace them with new ones the coming season. With the present precinct, the number of sprinklers is sufficient.

For the interest taken in the department by his honor the mayor and the city council, I would acknowledge my appreciation.

Respectfully submitted,

ALFRED CLARK.

*Commissioner of Highways.*

# FINANCIAL REPORT OF THE HIGHWAY DEPARTMENT.

---

## GENERAL MAINTENANCE.

Appropriation,	\$23,000.00
Transferred from permanent work, North State Street,	2.20
Transferred from trees,	151.87

## SUMMARY OF STATISTICS.

---

### CONCORD, NEW HAMPSHIRE, WATER-WORKS.

---

Population of the city by census of 1900,	19,632
---	--------

Population of that portion of the city included within the water precinct, estimated,	17,000
--	--------

Date of construction, 1872.

Works are owned by the city.

Source of supply, Penacook Lake, a natural body of water containing 265 acres, situated about three and one-half miles from the state house, and about 125 feet higher than Main Street in front of the state house.

Mode of supply, gravity and pumping to reservoir.

## CONSTRUCTION.

---

Cost of land damages, flowage and water rights:

Paid B. F. & D. Holden, for water rights,	\$60,000.00
Concord Manufacturing Co., for water rights,	83,000.00
W. P. Cooledge, for mill privilege and land,	5,500.00
Humphrey & Farnum, for kit-shop privilege,	4,900.00*
flowage rights around Penacook Lake,	4,375.61
W. P. Cooledge, Hutchins lot,	1,050.00†
Mary C. Rowell, for land,	1,500.00
Moses H. Bradley, for land,	5,000.00
Joseph B. Walker, for land,	2,214.00
John G. Hook, for land,	370.00
A. S. Ranney, for land,	1,350.00
Alfred Roberts, for land,	1,275.00
Charles E. Ballard, for land,	2,500.00
Mary G. Carter, for land,	1,250.00
Elizabeth Widmer, for land,	1,564.50
A. L. Proctor, for land,	450.00
Robert Crowley, for land,	3,000.00
Miles Hodgdon, for land,	2,200.00
heirs of Lowell Brown, for land,	1,032.55
Coffin & Little, for land,	800.00
O. F. Richardson, for land,	100.00
M. H. & C. R. Farnum, for land,	4,500.00

\*Original cost, \$5,000; land sold for \$100.

†Original cost house and lot, \$2,250; portion of lot sold for \$1,200.

Paid Cook & Hood, for land,	\$1,750.00
Charles H. Farnum, for land,	1,410.36
Fred N. Ladd, for land,	300.00
A. W. Hill, for land,	6,500.00

## REPORT OF WATER COMMISSIONERS.

---

OFFICE OF THE BOARD, OF WATER COMMISSIONERS.  
CONCORD, N. H., January 31, 1907.

*To His Honor the Mayor and the City Council:*

The Board of Water Commissioners respectfully submits the following report of the operations of this department for the year 1906, accompanied by the reports of the superintendent and the engineer of the pumping station, which are made a part of this report.

The report of the superintendent exhibits in detail the amount of work done in substituting cast-iron pipe for the original cement-lined pipe.

The work for the coming year is practically decided upon, and the necessary new material has been contracted for at satisfactory prices.

We expect that within a comparatively short period the work of substitution of cast-iron for cement-lined pipe will be completed, relieving the department of so large an annual expenditure for new construction.

The matter of protecting our source of supply, Penacook Lake, from contamination has received the careful consideration of the Board, and during the year we have secured several properties on the shores of the lake with this end in view. The report of the superintendent will exhibit the details of our work in this direction.

In our judgment the time is not far distant when public sentiment will demand more vigorous measures than the Board has heretofore felt justified in adopting.

Respectfully submitted,

HARRY H. DUDLEY,  
NATHANIEL E. MARTIN,  
SOLON A. CARTER,  
HARLEY B. ROBY,  
HENRY C. HOLBROOK,  
HENRY E. CONANT,  
EDSON J. HILL,  
GEORGE D. B. PRESCOTT,  
CHARLES R. CORNING, *ex officio*,  
*Water Commissioners.*

•

## REPORT OF THE SUPERINTENDENT.

---

*To the Board of Water Commissioners:*

I herewith present to you the thirty-fifth annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1906.

### RECEIPTS.

For water, from consumers by fixed rates,	\$29,111.38
For water, from consumers by meter rates,	42,150.85
From delinquents,	79.24
For water used for building purposes,	83.00
For land and buildings sold,	1,350.00
For hay and apples sold,	50.00
For pipe and stock sold,	88.14
For old brass and iron sold,	246.88
	<hr/>
	\$73,159.49
Deduct abatements,	96.04
	<hr/>
Net receipts for 1906,	\$73,063.45

### EXPENDITURES.

#### GENERAL EXPENSES.

Paid pay rolls, salaries and labor,	\$10,989.61
S. G. Sanborn, rent of shop in Penacook,	24.00
Ira C. Evans Co., printing and postage,	176.48

Paid Runford Printing Co., books,	\$66.75
Henry E. Conant, books,	4.00
People & Patriot Co., printing,	10.00
Concord Evening Monitor, printing,	8.44
Frank P. Mace, office supplies,	4.15
Concord Electric Co., lighting,	14.65
N. E. Telephone & Telegraph Co., telephones,	112.83
John C. Thorne, rubber boots,	9.25
J. M. Stewart & Sons Co., wall paper,	3.80
Thompson & Hoague Co., hard- ware,	83.78
W. L. Jenks & Co., hardware,	23.57
A. H. Britton & Co., hardware,	6.17
Joseph T. Walker, hay,	91.70
Wm. P. Ford & Co., stove,	12.00
H. H. Crowell, slab wood,	11.75
D. Waldo White, grain and straw,	77.94
G. N. Bartemus & Co., grain,	21.50
T. L. Davis & Co., manila rope,	15.34
Tragle Cordage Co., jute pack- ing,	47.25
Walter Macleod & Co., heater,	95.00
Alfred Clark, horse,	100.00
George W. Wales, hose,	15.00
Stoughton Rubber Co., hose,	3.33
Jos. Dixon Crucible Co., grease,	3.50
Batchelder & Co., oil, etc.,	37.37
C. H. Martin & Co., naphtha, etc.,	18.28
Woodworth & Co., cement,	12.90
M. J. Drummond & Co., cast- iron pipe,	13,202.67

Paid Builders Iron Foundry, castings,	\$63.90
Ford & Kimball, castings and coke,	83.33
Concord Foundry & Machine Co., castings,	2.26
Page Belting Co., pipe, lead, etc.,	70.41
Coffin Valve Co., hydrants,	560.00
R. D. Wood & Co., hydrants,	291.52
Rensselaer Mfg. Co., hydrants,	210.00
Ludlow Valve Mfg. Co., gates,	987.75
Richards & Co., pig lead,	1,329.42
Chadwick-Boston Lead Co., lead pipe,	34.56
J. H. Cunningham Co., wrought-iron pipe and valve boxes,	348.15
Hays Mfg. Co., valve box covers,	3.00
Summer-Gerald Co., pipe,	34.81
H. Mueller Mfg. Co., brass goods,	81.79
Walworth Mfg. Co., brass goods, valve boxes and tools,	50.68
Harold L. Bond & Co., tools and jute,	25.71
Waldo Bros., tools,	6.00
Crane Co., tools,	4.10
Orr & Rolfe, pipe and labor,	23.09
Lee Bros., pipe and labor,	10.98
Concord Pipe Co., pipe and fittings,	8.06
G. S. Milton & Co., pipe and fittings,	13.39
Thomson Meter Co., meters and repairs,	414.45
Hersey Mfg. Co., meters,	119.58

Paid Henry R. Worthington, meters,	\$71.20
Union Water Meter Co., meters,	31.00
National Meter Co., repairs,	53.77
E. B. Hanchay, smith-work,	133.70
Ross W. Cate, smith-work,	13.25
Rowell & Plummer, mason-work,	16.31
George D. Huntley, repairs,	32.70
Chandler Eastman & Sons, repairs,	27.00
J. D. Johnson & Son, repairs and supplies,	14.60
Abbot-Downing Co., repairs,	4.50
George L. Theobald, team-work,	157.55
O. F. Richardson, team-work,	6.20
E. H. Runnells, labor,	4.00
Hutchinson Building Co., lumber and labor,	34.78
Geo. Abbott, Jr., painting,	71.46
Benj. Bilsborough, painting and papering,	13.58
J. H. Rowell & Co., repairing concrete,	54.33
city highway department, repairing streets,	14.45
Engineering News,	5.00
Morrill & Danforth, insurance,	266.51
Eastman & Merrill, insurance,	9.00
Boston & Maine Railroad, freight,	1,352.58
A. W. Hill, land,	6,500.00
Helen G. Evans and others, land and buildings,	2,000.00
Frank B. Kilburn, land,	2,500.00
town of Webster, taxes,	55.20
A. G. Cochran, clerk, cash paid out,	54.33
incidentals,	27.45
	<hr/> \$43,603.40

## PUMPING STATION EXPENSES.

Paid pay rolls, engineer and fireman,	\$1,600.00
labor on fuel,	18.00
B. P. Burton & Co., coal,	389.57
Boston & Maine Railroad,	
freight on coal,	95.21
H. H. Crowell, slab wood,	40.00
Vacuum Oil Co., oil,	68.84
Garlock Packing Co., packing,	45.13
Henry R. Worthington, pack-	
ing,	18.00
Walworth Mfg. Co., packing	
and glasses,	3.72
Harold L. Bond & Co., waste,	12.04
Stoughton Rubber Co., hose,	13.00
Orr & Rolfe, pipe and labor,	9.78
Thompson & Hoague Co., sup-	
plies,	11.10
J. M. Stewart & Sons Co., sup-	
plies,	9.60
Rumford Printing Co., book,	11.00
Morrill & Danforth, insurance,	75.00
Concord Light & Power Co.,	
lighting,	8.17
N. E. Telephone & Telegraph	
Co., telephone,	35.25
Boston & Maine Railroad,	
freight,	1.34
incidentals,	3.40
	<hr/>
	\$2,468.15
	<hr/>
Total expenditures for 1906,	\$46,071.55

The expenditures are divided as follows:

## GENERAL EXPENSES.

For care and maintenance,	\$2,282.61	
office expenses,	1,012.85	
inspection,	660.00	
care and repair of hydrants,	759.64	
repairs on cement-lined pipe,	260.09	
raising road and work at Penacook Lake,	84.25	
new service pipes,	1,632.44	
new distribution pipes,	22,949.14	
new hydrants,	1,413.46	
meter account,	928.17	
land at Penacook Lake,	11,000.00	
incidentals,	620.75	
	—————	\$43,603.40

## PUMPING STATION EXPENSES.

For salaries, engineer and fireman,	\$1,600.00	
fuel,	542.78	
oil, packing and waste,	148.32	
repairs,	9.78	
supplies,	48.85	
lighting and telephone,	43.42	
insurance,	75.00	
	—————	\$2,468.15

## EXTENSIONS AND IMPROVEMENTS.

Cast-iron main and distribution pipes have been laid and hydrants set during the year as follows:

*In North State Street,*

south from near Chapel to Pleasant Street, 2,733 feet  
20-inch pipe in place of 14-inch and 12-inch cement-lined pipe discontinued.

*In Clinton Street,*

west from South Spring to South Fruit Street, 1,615 feet 10-inch pipe in place of 4-inch cement-lined pipe discontinued.

*In Bradley Street,*

south from Perkins to Franklin Street, 1,514 feet 10-inch pipe in place of 4-inch cement-lined and iron pipe discontinued.

*In Walker Street,*

west from North State to Bradley Street, 610 feet 10-inch pipe in place of 4-inch cement-lined pipe discontinued.

*In Albin Street,*

west from Bradley to Rumford Street, 785 feet 10-inch pipe in place of 4-inch pipe discontinued.

*In Franklin Street,*

west from Jackson to Rumford Street, 650 feet 10-inch pipe in place of 6-inch cement-lined pipe discontinued.

*In Penacook Street,*

east from near North Main Street to Page Belting Co.'s, 672 feet 10-inch pipe in place of 8-inch and 6-inch pipe discontinued.

*In Ferry Street,*

east from North Main Street to Huntoon Avenue, 1,000 feet 8-inch pipe.

*In Washington Street,*

west from North Main to North State Street, 545 feet 8-inch pipe in place of 4-inch cement-lined pipe discontinued.

*In Washington Street,*

west from Rumford Street to Perry Avenue, 498 feet 8-inch pipe.

*In South Fruit Street,*

north from Clinton Street, 1,447 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

*In Jackson Street,*

north from Franklin to Church Street, 505 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

*In Penacook Street,*

extended east from Page Belting Co.'s, 406 feet 6-inch pipe.

*In Eastman Street,*

south from Pillsbury to Carter Street, 400 feet 6-inch pipe.

*In Chapel Street,*

east from North State Street, 222 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

*In Humphrey Street,*

extended west from Kimball Street, 64 feet 6-inch pipe.

*On connections,*

59 feet 10-inch pipe, 136 feet 8-inch pipe, 378 feet 6-inch pipe; in place of 74 feet 8-inch, 94 feet 6-inch and 324 feet 4-inch cement-lined pipe discontinued.

*On hydrant branches,*

414 feet 6-inch pipe; 174 feet 6-inch and 28 feet 4-inch cement-lined pipe discontinued.

*On blow-offs,*

4 feet 6-inch pipe.

Also, 315 feet of 1-inch pipe; 253 feet 1-inch pipe discontinued.

Twenty-three new hydrants have been set as follows:

On Penaeook Street at Concord Lumber Co.'s planing mill.

On Albin Street near D. Weathers'.

On Rumford Street at Albin.

On Bradley Street at Franklin.

On Franklin Street at Lyndon.

On Jackson Street at Church.

On Chapel Street near First Methodist Church.

On Ferry Street at Northern Railroad.

On Ferry Street at New England Granite Works.

On Ferry Street at Huntoon Avenue.

On Washington Street at Rollins.

On Washington Street at Essex.

On Holt Street at E. M. Nason's.

On Orchard Street opposite A. P. Sherburne's.

On Minot Street at Odd Fellows' Home.

On North Spring Street at High School.

On Concord Street at South State.

On Downing Street opposite Grove.

On Downing Street at Redwood Avenue.

On Pillsbury Street at Kimball.

On Clinton Street opposite Harvard.

On South Fruit Street at J. C. Kilburn's.

On Humphrey Street near Kimball.

Two hydrants have been replaced by larger ones:

On Bradley Street at Highland.

On South Fruit Street at Critchett's.

There have been set 55 gates; discontinued, 33.

## SUMMARY OF THE FOREGOING.

## NEW PIPES, HYDRANTS AND STOP-GATES.

<i>Pipes.</i>		<i>Hydrants.</i>		<i>Stop-Gates.</i>

20-in.,	2,733 "			12-in.,	2
				20-in.,	1
-----			—		—
	14,972 feet.		27		55
equal to 2.835 miles.					

## PIPES, HYDRANTS AND STOP-GATES DISCONTINUED.

<i>Pipes.</i>		<i>Hydrants.</i>		<i>Stop-Gates.</i>	
1-in.,	253 feet.	In city,	2	4-in.,	19
4-in.,	7,259 "			6-in.,	9
6-in.,	1,033 "			8-in.,	2
8-in.,	631 "			12-in.,	2
12-in.,	1,622 "			14-in.,	1
14-in.,	977 "				
-----			—		—
	11,775 feet.		2		33
equal to 2.23 miles.					

Total length of main and distribution pipes now in use, 348,668 feet, equal to 66.03 miles.

Total number of hydrants now in use, 339.

Total number of gates now in use, 893.

## SERVICE PIPES.

There have been laid during the year and connected with the main pipes, 58 service pipes consisting of

54	¾-inch,	1,335 feet.
2	2-inch,	55 feet.
1	4-inch,	47 feet.
1	10-inch,	10 feet.

—	—
58	1,447 feet.

There have been discontinued, 8; whole number in use at the present time, 3,559; total length of service pipes, 82,563 feet, or 15.63 miles. We have placed 106 service boxes at the curb on old services.

We have set 47 meters during the year; 5 have been removed, making the total number now in use, 1,439.

The following table shows the height of water in Penacook Lake on the first day of each month:

January,	183.00	July,	185.10
February,	183.50	August,	184.50
March,	183.70	September,	183.90
April,	184.65	October,	183.00
May,	185.05	November,	182.75
June,	185.50	December,	182.40

The lowest point reached during the year was on December 26, being 182; the highest was on June 1 and was 185.50; mean height for the year was 183.94, which was .57 foot higher than the mean height for the year 1905.

All the buildings owned by the works are in good condition, the woodwork of the pumping station, coal shed, shop and stable having been painted the past summer.

The work of the year has been mainly in relaying the distribution pipes. On all the streets relaid, we have cleaned out the service pipes, renewing them when necessary, and set service boxes when practicable; we also replaced the hydrants on these streets with new ones, most of the old ones having been in use for thirty-four years.

There now remains of the original cement-lined pipe, 18,085 feet, and pipe has already been contracted for to be used next season in relaying 9,349 feet of this amount, thus leaving only 8,736 feet of the original pipe, which, according to the work done in the past few seasons, would be replaced in another year.

It is planned to relay the following streets in 1907: Broadway, South, Centre, Church, Railroad, Hill's Avenue,

Lyndon, Maple, Montgomery, Park, North Spring, Union, Washington and West.

I would also recommend that a pipe be extended down Dunklee Street from West to Pillsbury.

Respectfully submitted,

V. C. HASTINGS,

*Superintendent.*

## REPORT OF THE ENGINEER OF THE PUMPING STATION.

### PUMPING STATION, CONCORD WATER-WORKS.

V. C. HASTINGS, *Superintendent*:

*Sir*: I would report that the pumping machinery at the pumping station is in good working condition.

Following will be found a statement of coal and other supplies used at the pumping station during the year, with a table showing the work for each month:

#### STATEMENT.

168 tons 1,933 pounds Cumberland coal.

40 tons 1515 pounds Pocahontas coal.

70 gallons of oil.

49 pounds of waste.

101½ cords of slab wood.

81½ pounds of grease.

#### ENGINE RECORD.

MONTHS.	No. of days pump- ing engine No. 1.		No. of days pump- ing engine No. 2.		Total days pumping.		Total hours pump- ing.		Average pumping time.		Total gallons of water pumped.		Daily average pumped.		Total coal con- sumed.		Daily average coal consumed.		Total pounds of wood consumed.		Gallons pumped per pound of coal.*

# REPORT OF CITY ENGINEER.

---

CITY ENGINEER'S OFFICE,  
CONCORD, N. H., December 31, 1906.

*To the City Council:*

In compliance with the ordinance creating this department, the following report of the expenses and operations of the Engineering Department for the year ending December 31, 1906, is respectfully submitted:

Paid for engineer and assistants,	\$2,530.50
supplies,	91.16
car fares and livery,	97.50
postage,	2.75
repairs,	6.80
express,	2.05
	<hr/>
	\$2,730.76
Appropriation,	\$3,000.00
Expended,	2,730.76
	<hr/>
Unexpended balance,	\$269.24

## SEWERS.

The conditions existing in several sections of the city call for attention from the city council, and an appropriation for beginning the work of enlarging the mains is sadly needed. It is hoped that some action will be taken the coming season, to enable this much-needed work to be properly started.

The many complaints from owners of flooded premises makes the necessity of radical changes more apparent each year.

The surface drain in North State Street is completed, and if catch-basins of sufficient capacity are constructed and connected with this drain, all troubles from surface water will be overcome.

One sewer granted by the board of mayor and aldermen was not laid, owing to a lack of funds.

The amounts spent on new work and repairs, the location of the work and the cost of flushing the sewers will be found on the accompanying pages.

#### STREETS.

Dakin Street was extended from Allison Street to Pillsbury Street.

The surfacing of a portion of North State Street with coal-tar concrete, called for an expenditure of sewer funds to the amount of \$83.63.

This amount was expended for raising and adjusting man-holes and lamp-holes to the new surface.

There was laid on this street, in the roadway, 9,318 square yards of coal-tar concrete.

Lines and grades for street and sidewalk work have been given when requested by other departments and by private parties.

#### WATER-WORKS.

A survey of Penacook Lake and the property fronting on the lake has been made, and a plan showing the same will be made during the winter, for the board of water commissioners.

#### BUILDING PERMITS.

The petitions for new buildings and for alterations to old ones, in the building and fire precinct, become more numerous each year. In company with the chief engineer of the fire department, I have attended forty-three hearings. We have granted forty-one petitions and denied two.

## MISCELLANEOUS.

The work of the hydrant commissioners is shown in their report to the city council.

The location of poles, attendance upon various hearings, committee meetings, examinations of plumbers, surveys and plans in connection with the High School and the Manual Training School, the West Concord School, the old city shed lot and the cemeteries, together with the numerous demands for information from other departments and private citizens, have fully occupied our time and required many days' work outside of regular hours.

The employees during the past season have been: Fred W. Lang, principal assistant; Carl D. Kennedy and Clarence A. Little, rodmen, who have rendered efficient services in their respective positions.

To his honor the mayor and the members of the city council, I wish to express my appreciation for their support and co-operation, and to the heads of other departments, for many courtesies extended to this department.

## CITY PRECINCT, NEW SEWERS.

## CARTER STREET, EXTENSION OF SEWER.

148 feet of 10-inch Akron pipe laid.	
Paid for labor,	\$71.32
pipe,	48.04
cement,	2.25
trucking,	4.75
tools,	5.68
	<hr/>
	\$132.04

Average cost per foot, \$0.892 plus.  
Material excavated, sand.

## MCKINLEY STREET, EXTENSION OF SEWER.

202 feet of 15-inch Akron pipe laid.

Paid for labor,	\$1,084.80
pipe,	37.08
cement,	13.50
trucking,	8.60
hardware,	.20
oil,	2.10
tools,	51.06

---

\$1,197.34

Pipe on hand,	109.08
---------------	--------

---

\$1,306.42

Average cost per foot, \$6.467 plus.

Material excavated, loam, wet sand and clay.

## NORTH STATE STREET DRAIN.

729 feet of 24-inch Akron pipe laid.

200 feet of 18-inch Akron pipe laid.

Paid for labor,	\$795.58
pipe,	26.48
brick,	34.00
cement,	44.40
castings,	37.93
wrought iron,	1.18
sand,	1.25
blacksmith,	5.30
oil,	3.75
trucking,	12.50
tools,	43.00

---

\$1,005.37

Pipe on hand, paid for in 1905,	995.13
---------------------------------	--------

---

\$2,000.50

Average cost per foot, \$2.153 plus.

Material excavated, gravel, sand and hardpan.

## REPAIRS.

North State Street,	\$2.89
Franklin Street,	6.15
Abbott Street,	6.00
Summit Street,	.61
Jackson Street,	1.50
Ferry Street,	3.60
Downing Street,	.50
Stickney Field,	108.66
Academy Street,	8.40
Giles Street Extension,	1.00
Bowery Avenue,	3.05
South State Street,	.50
Rumford Street,	9.50
Warren Street,	7.33
North State Street, account of concreting,	83.63
Holly Street,	1.50

---

 \$244.82

Expense of spring and fall flushings,	\$299.29
Paid for new work,	2,334.75
Paid for repairs,	244.82
Paid for repairs on hoister,	.76
Moving to new shed,	6.00

---

 \$2,885.62

Precinct funds available, 1906,	\$2,886.81
Expended, 1906,	2,885.62

---

 Balance on hand, \$1.19

## SEWERS BUILT IN 1906.

10-inch pipe,	148 feet.
15-inch pipe,	202 feet.
18-inch pipe,	200 feet.
24-inch pipe,	729 feet.

---

 Total, 1,279 feet.

## SEWERS BUILT IN CITY PRECINCT TO DECEMBER 31, 1906.

6-inch pipe,	1,034	feet.
8-inch pipe,	25,003	feet.
10-inch pipe,	49,237	feet.
12-inch pipe,	39,222	feet.
15-inch pipe,	11,310	feet.
18-inch pipe,	6,404	feet.
20-inch pipe,	4,549	feet.
24-inch pipe,	3,370	feet.
30-inch pipe,	969	feet.
Brick, 12-inch x 14-inch,	2,758	feet.
16-inch x 24-inch,	1,848	feet.
14-inch x 22-inch,	350	feet.
20-inch x 32-inch,	2,527	feet.
24-inch x 36-inch,	17,937	feet.
28-inch x 48-inch,	883	feet.
24-inch circular,	1,515.5	feet.
30-inch circular,	402	feet.
38-inch circular,	4,080	feet.
24-inch cast-iron pipe,	1,576	feet.
30-inch cast-iron pipe,	1,054.5	feet.
	<hr/>	
	176,079	feet.

Total miles in city precinct to date, 33.348 plus.

## WEST CONCORD SEWER PRECINCT.

No additional sewers were laid in this precinct, and no extensions were made. Spring and fall flushing was done as usual.

The expense attending this work is as follows:

Spring and fall flushing,	\$17.66
Repairs,	43.55
	<hr/>
Total expenditure,	\$61.21
Unexpended balance January 1, 1906,	\$71.56
Expended 1906,	61.21
	<hr/>
Balance January 1, 1907,	\$10.35

## EAST CONCORD SEWER PRECINCT.

No work was done in this precinct during the past season.

The funds available January 1, 1907, are \$132.40.

## ST. PAUL'S SCHOOL SEWERAGE PRECINCT.

The annual charge for water service in the flush tanks cover the expense of this precinct.

Paid water department,	\$45.00
Funds available January 1, 1906,	\$70.64
Expended 1906,	45.00
	<hr/>
Balance January 1, 1907,	\$25.64

There has been deposited with the city treasurer, to the credit of the city sewer precinct, the following sums:

Rent of pumps,	\$7.34
Rent of hoister,	255.00
	<hr/>
	\$262.34

## SIDEWALK GRADES ESTABLISHED.

Northerly side of School Street, from High Street 300 feet westerly.

Easterly side of Auburn Street, from High Street northerly to Saint John Street (so called).

Respectfully submitted,

W. B. HOWE,

*City Engineer.*

# BOARD OF EXAMINERS OF PLUMBERS.

---

CONCORD, N. H., December 31, 1906.

*To the City Council:*

The seventh annual report of the Board of Examiners of Plumbers is herewith submitted for your consideration.

The membership of the board is made up as follows: Henry P. Cilley, a practical plumber, Russell Wilkins, M. D., and Will B. Howe, city engineer.

The board organized with Henry P. Cilley, chairman, and Will B. Howe, clerk.

Twelve regular meetings and five special meetings were held during the year. We have examined two candidates for master plumbers' licenses, and issued a license to them. We have examined three for journeyman's licenses, and issued licenses to two of them, the third failing to meet the requirements of the board; making a total of five applicants examined. The receipts of the board were \$24, for which amount the clerk holds receipts of the city treasurer.

The expenses of the board for materials purchased for the practical work were \$7.62.

The following is a list of all the registered plumbers, whose licenses or certificates were renewed in 1906, in the order in which they appear on the register.

## MASTER PLUMBERS.

W. Arthur Bean, certificate renewed.

Seth R. Hood, certificate renewed.

Willis H. Robbins, certificate renewed.

William A. Lee, certificate renewed.  
Benjamin H. Orr, certificate renewed.  
Richard J. Lee, certificate renewed.  
George A. Harwood, certificate renewed.  
Michael J. Lee, certificate renewed.  
Albert S. Trask, certificate renewed.  
Frederick Booth, certificate renewed.  
G. Arthur Nichols, license renewed.  
Charles W. Bateman, license renewed.  
Burton A. Curtis, license renewed.  
W. M. Trottier, license renewed.  
Albert L. Worthen, license renewed.  
John C. Smith, license renewed.  
P. Wallace Orr, license renewed.  
Elmer E. Babb, license issued March 2, 1906.  
Timothy Kenna, license renewed.  
Joseph A. Ralph, license issued May 22, 1906.

#### EMPLOYING PLUMBERS.

George S. Milton, certificate renewed.  
M. E. Clifford & Co., certificate renewed.

#### JOURNEYMAN PLUMBERS.

Charles H. Berry, certificate renewed.  
Henry P. Cilley, certificate renewed.  
Philip King, certificate renewed.  
William L. Reagan, certificate renewed.  
William H. McGuire, certificate renewed.  
Harry H. Kennedy, certificate renewed.  
P. Harrison D. Leary, certificate renewed.  
Patrick A. Clifford, certificate renewed.  
George N. Berry, certificate renewed.  
Frederick F. Converse, license renewed.  
Arthur W. Buntin, license renewed.  
Michael J. Finn, license renewed.  
Thomas Mathews, license renewed.

Thomas F. Foley, license renewed.  
Harris S. Parmenter, license renewed.  
Frank D. Brown, license renewed.  
Timothy W. Quinn, license renewed.  
Jonas Denby, license issued August 15, 1906.  
Manley W. Morgan, license issued October 9, 1906.

Master plumbers' certificates issued,	10
Master plumbers' licenses issued,	10
Employing plumbers' certificates issued,	2
Journeyman plumbers' certificates issued,	9
Journeyman plumbers' licenses issued,	10
	—
Total number on register to date,	41

Respectfully submitted,

H. P. CILLEY,

RUSSELL WILKINS, M. D.,

WILL B. HOWE,

*Board of Examiners of Plumbers.*

# BOARD OF HYDRANT COMMISSIONERS.

---

CONCORD, N. H., December 31, 1906.

*To the City Council:*

An ordinance creating a Board of Hydrant Commissioners was passed on December 11, 1905, and on January 1, 1906, the first meeting was held.

At this meeting it was unanimously voted to recommend setting hydrants in locations specified herein, and a letter embodying these locations was sent to the Hon. Solon A. Carter, President of the Water Board.

1. Chapel Street, near North State Street.
2. Concord Street, near South State Street.
3. North Spring Street, opposite Maple Street.
4. Downing Street, opposite Grove Street.
5. Downing Street, west of and near Redwood Avenue.
6. Concord Street, 100 feet east of South Street.
7. Rumford Street, near Walker Street.
8. Bradley Street, at Franklin Street.
9. Jackson Street, just north of Church Street.
10. Holt Street, midway between Warren and School Streets.
11. Clinton Street, 100 feet east of Harvard Street.
12. Humphrey Street, 50 feet east of South Street.
13. South Street, between Pillsbury and Carter Streets.
14. Stone Street, 300 feet east from Bow Street.
15. Rockingham Street, west of and near Donovan Street, for a blow-off.
16. Pillsbury Street, 50 feet west of Kimball Street.
17. Ferry Street, 3 hydrants, when high service mains should be extended into Ferry Street. During the summer this pipe was laid and the hydrants were located and set.

The hydrants above mentioned were installed, excepting, the one on North Spring Street opposite Maple Street, which will be set during the coming season, when the Spring Street main will be relaid with larger pipe; Concord Street, 100 feet east of South Street; South Street, between Pillsbury and Carter Streets, which location was abandoned later in the season; Stone Street, 300 feet east of Bow Street; Rockingham Street, west of and near Donovan Street.

On May 5, 1906, a meeting was held to consider the request of Wm. Parkinson for fire protection on the Fisherville road near the West Concord Cemetery. No recommendations were made at that time, but the location of branches was to be looked up and investigations made as to the methods that could be devised and expense incurred, to furnish Penacook with suitable protection, during the time required for any proposed installation of hydrants on that line. Some investigations along this line have been made, and during the coming season the board will communicate with the Water Commissioners on this subject.

The location of the hydrant which was set on the easterly side of North State Street, in the rear of the state house, was changed to a point nearer Park Street.

A new hydrant was set in Washington Street near Rollins Street.

The hydrant at the junction of North State and Warren Streets was changed from the north-westerly to the south-easterly corner.

A new hydrant was set in Penacook Street near the sheds of the Concord Lumber Co.

A new hydrant was set on Fruit Street near the Blanchard place; one on Franklin Street at Lyndon Street and one at Rumford and Albin Streets, instead of one at Walker and Rumford.

Respectfully submitted,

W. B. HOWE.

W. C. GREEN,

*Board of Hydrant Commissioners.*

# PUBLIC LIBRARY.

---

## REPORT OF THE TRUSTEES.

---

*To the City Council of the City of Concord:*

The trustees of the Public Library submit herewith the report of the librarian for the past year. In connection with her former reports it shows clearly the work that is being done in this department, which for obvious reasons does not materially differ from what has been accomplished for several years. But notwithstanding the restricted quarters of the library and its inadequate facilities for the work it is intended to do, it is a remarkable as well as gratifying fact that each year finds it extending its influence of usefulness in the community. It is more than "holding its own." It is not standing still, though seriously hampered. It is not merely "beating time."

Little more than a generation ago, a public library was deemed to be principally useful as a place for the storage of books, which upon rare occasions might be consulted. A few hundred volumes of standard works, inconveniently catalogued, in the care of a custodian called a librarian, whose duties were not unlike those of a watchman, seemed to fulfil the mission of a public library. Comparatively few people ventured within its walls, while many were ignorant of its existence. It was not an intellectual force of much vigor and was principally useful to the scholar and the confirmed bookworm. To the great majority, it was of little, if any, importance. Subsequently, it received the additional credit of affording amusement and some instruction to children and novel-readers, and its use was thereby enlarged. It acquired a larger class of patrons

than before. But its true mission, as well as the essential function of the librarian, has not been adequately appreciated by the public, and probably it will not be until people in all fields of activity resort to it, not for recreation merely, but for information in matters relating to their various vocations. The scope of its true usefulness will then be immensely enlarged. It requires no argument to show that all engaged in industrial pursuits may learn much of practical utility to them individually, by regarding the books in the library as most useful tools to be used under the direction of the librarian, whose most important function it is to guide and direct readers to the books they specially need. The old idea that the reader must tell the librarian what book he wants has been largely modified by the more rational idea that the librarian must be qualified to tell the reader what book he needs. Co-operation in this respect is essential to the best results.

The fact that the library and the librarian and her assistants furnish the means for the acquisition of useful information upon most subjects affecting the daily life of the people, ought to draw to the library hundreds of our citizens, who are not now its patrons. It is believed that this delinquency is due principally to an erroneous and antiquated view of the purpose of a library, or to a lack of information as to the method of using it. Let it be generally known that the library is for practical uses by practical people, as well as for recreation and amusement or theoretical information by school children and students, and its true importance will be more fully appreciated, and a niggardly policy of raising money for its support will become less popular. The demands of the library will receive more adequate recognition, when the inhabitants of the city become better acquainted with the work which it is attempting to do, and which, with proper facilities, it can successfully accomplish. It is, therefore, the desire of the trustees, as well as of the librarian, that that large class of our citizens who do not now use the library should

become acquainted with the advantages it affords for practical information upon almost every subject, believing that they would soon become its most ardent patrons. It would then be recognized as a most useful aid, not merely to a small minority, but to the great majority, and be in fact, as well as in name, a public library.

REUBEN E. WALKER,  
*President, Board of Trustees.*

## REPORT OF THE LIBRARIAN FOR 1906.

---

*To the Board of Trustees of the Concord Public Library:*

GENTLEMEN: 1906, at our library, has been much, too much, like its predecessors in opportunities and results. "Marking time," which Mayor Corning two years ago said in his inaugural was all this library could do in its present quarters, is not enjoyable in the doing or thrilling in the relation. In previous reports, I have detailed the library's work and aims, and urged its needs. I will, therefore, now occupy less time than usual at this annual meeting, in order to leave more time for your inspection and discussion.

The circulation of books has increased in the past twelve months; 90,939 volumes were given out at the desk. That is a proud record for a city of not quite 20,000 inhabitants. It is only the third time the library has touched this high-water mark in a dozen years. This increase in the number of books given out for home reading comes, we think, from our work at deposit and delivery stations, particularly that done at Penacook, of which further mention will be made later on.

It may be of interest to you to compare the force caring for this library's business with the staff of another library. Here, there are, besides the librarian, three regular assistants; also two boys and one girl, each of whom works several hours a week. In a middle state library, where the circulation was 106,000, the staff consists of a librarian, assistant librarian, seven assistants on full time, three assistants on half-time, two substitutes and one story-teller.

It may be well to make another illuminating comparison, bearing in mind the figures of our circulation, 90,939, and

the sum at our disposal, \$5,427. The public library in a New York city did a desk business of 92,369 volumes. It sent in an itemized estimate for the next year's work, which called for \$9,900.

Our appropriation would not have been sufficient the past year had it not been that the trustees secured the favor from the city government of an extra \$400, to cover the cost of the new and larger boiler rendered necessary by the burning out of the old one in our furnace.

Though we handled during the year so many thousand volumes, and though they went by every method of transportation to every conceivable kind of a home, out of 91,000 volumes circulated only five were lost. Another library's report says they are indebted to the local police for assistance in securing the return of books overdue. Here the librarian hunts them up herself, knowing she will upturn the very last stone to find one. It is a comfort, however, to feel that back of her lies the police force, whose help she can invoke when necessary. Indebtedness is felt toward the teamsters and janitors, who kindly bring in books left by children on their sleds or in the buildings under their care. It is entertaining to note that in 1869, when this library loaned out only 20,000 volumes, 58 were lost, and in the report of that year the loss is considered "very small, considering the circulation."

The Concord public has read during 1906, for recreation and for instruction, in about the same proportion as formerly. Fiction leads by a hopeless majority, and always will; and our 70 or more per cent. annually charged to stories is not caused altogether by that *serious* study of fiction advocated by Professor Phelps of Yale. We try, however, to purchase fiction worth reading for one reason or another, *i. e.*, for plot, style or timeliness, as we agree with the Somerville librarian, who says, "The most confirmed novel readers will read good novels when they can not get bad ones; and here is the opportunity of the public library." We buy fiction to a degree which would be

thought reprehensible by some library boards; to such let Mrs. Margaret Deland give the paper she gave here on "The Value of the Novel."

Turning from the subject of the quantity and quality of our circulation to that of acquisitions, they are to be stated as follows:

Volumes added,	1,100
New works,	678
From bindery, chiefly magazines,	132
Duplicates,	66
Replacements of discarded volumes,	224
Worn out,	302

(Many of these volumes are given to the asylum and the jail.)

Net gain to our shelves,	798
--------------------------	-----

Total number of volumes now in library,	28,628
---	--------

Anyone inspecting the accession book, in which are listed all our purchases, should bear two things in mind. First, books are 20 per cent. higher than formerly; hence we must buy fewer. Secondly, the State Library and the New Hampshire Historical Society in town buy along certain lines, with which we conflict least if we confine ourselves to acquiring the more popular and generally educational works that will extend the use of the library to greater numbers of people and particularly to the younger persons.

We have received gifts from Government, from state and city organizations, from committees of publication, from manufacturing houses and from Mrs. Armenia S. White, Mrs. Frank H. Blanchard, Mrs. Edwin W. Plummer, Joseph B. Walker, Henry McFarland, William M. Chase, Samuel C. Eastman, Frank W. Rollins, Dr. A. F. Sumner, Eastman & Merrill, all of Concord; Miss Mary Eaton, Albert E. Pillsbury, Roy M. Grover, Boston; Rossiter Johnson, New York; Nathan Gould, Portland; Mrs. Alice Peloubet Norton,

Chicago. We wish to acknowledge the kindness of those local societies, hospitals, churches, etc., which place their periodicals on our reading table or bring us their year-books to put on file.

Fewer new borrowers were registered in 1906 than in 1905, but that does not mean that we had fewer new customers. We made out application blanks for 675 persons, but we also charged by name and street address scores of books to newcomers, who wanted only one special work and would have heartily agreed with us that the registration process was, in their case, unnecessary red tape.

We must expect, however, that as we send more and more books to school-rooms, fewer boys and girls will have sufficient leisure or book-hunger to come to the library for enrollment among its borrowers.

As usual, the lectures in the free Walker courses have stimulated reading on certain subjects. A run on our Shakesperian material was caused by Professor Griggs' course on the immortal plays. Every year these Walker lectures are "roads to books." Art and science departments, current events clubs, etc., annually give us winter work. The supplementary reading required of pupils gives us another valued clientele. Mr. L. J. Rundlett, school superintendent, is desirous of making this public library increasingly useful, and through him there might be arranged a systematic way of sending reading to school-rooms or of giving talks to pupils on books and the use of the library. At present we are not so much aggressive as responsive in this line of our work. Indeed, we feel there is truth in the statement that school deposits encourage the reading habit, but are injurious in that they make it easy for the pupils to avoid going to a library.

Our summer branch has now passed in successive years from West Concord, to East Concord, to Fosterville, to Penacook. After tending each of these four stations, the librarian realizes the truth of the saying that no two chil-

dren are alike; for each branch has had distinct characteristics.

Each summer arrangement has resolved itself into a permanent delivery station.

At East Concord, Mrs. Grace Farnum still cares at her house for the boxes of books we send over from time to time. She never fails to enclose an acknowledgment when returning a box, such as: "We shall be very glad of another lot. One young lady remarked, 'I don't know what I shall do without those books for even a few days.' I think we all feel that way."

The West Concord delivery station is still in the good care of Mrs. Sara Quimby.

The summer branch, which is always my immediate charge, was located this year in Penacook, from June to December. Half a plumber's store was rented, and about 500 volumes taken up, together with our summer room paraphernalia, consisting of chairs, tables, pictures, etc. We were in attendance to give out books on Tuesday and Friday afternoons, but borrowers could return books at any time.

Penacook people were cordial and appreciative after they learned that the sole object of the six-months' scheme was their own enjoyment. Between 60 and 80 books were charged out each afternoon. The branch prevented some juvenile street loafing, and afforded opportunity to ladies to secure, in good season, material for coming papers at their clubs. When it was time for this summer branch to be discontinued, an arrangement was made so that now twice a week books are sent to Penacook, those books going up which have been selected from call-numbers on borrowers' cards that have come down to us the preceding week from this ward. At present Mr. George H. Whitman has, at his store, the care of handling the books and of repacking the boxes, which then are transported by Cunningham's express. If found desirable, an increasing reserve supply of library books will be kept at Mr. Whitman's,

to be charged out by him to any resident who has not had a book come up in our box.

In our humble way, we have taken to heart and are trying to put into practice what a Missouri librarian said: "Branches are necessary to realize the possibilities of a public library system. It should be, not the St. Louis Public Library, but the St. Louis Public *Libraries*, just as it is the St. Louis Public *Schools*."

All cities find that at delivery stations the main feature is circulation of general reading matter, especially for women and children; men fail to get the pleasure or profit they might easily derive by merely sending in requests for books by a favorite author, or for works which would help them in their vocations.

This regrettable state of things is true at a main library, to a lesser degree. Every year I read thoughtfully about 75 reports from other libraries, and it is curious to note how the same problem seems to arise at the same time all over the country. Apparently, just now the unsolved problem of public library administration is how to interest masses of adults, to place one book in every home, to ascertain why there are lapsed cards, to draw men to the library. It is evident the public library has a campaign to wage.

One gets some light on such problems by attendance at national library meetings, and I went to the 1906 Conference of the American Library Association, held at Narragansett Pier, where the 1,000 librarians convened were stimulated by salt air, as well as by fresh ideas.

The fad-and-hobby stage in library development seems to be over; for instance, a large circulation is no longer considered the test of a library's usefulness; work with children is not dwelt upon as more vital than work for adults; exhibits and other extension work have become a matter of course and regarded as entirely legitimate within limits. Also when extensive work cannot be taken up by a library because of hampering conditions, intensive work

is considered a praiseworthy alternative. In short, a modern librarian, steadied by professional reading, comparisons and experience, takes her stand not upon the plea that her library shall be ahead of the times, but that it shall not be behind the times.

It would seem as if this library had reached the point of urging only unquestioned benefits. When a gentle-spoken and studious lady says to us, "It was dreadfully crowded upstairs; I had to take the book home to read, as there was not a chair left in the reference room," it would seem as if enlarged quarters were wanted by the public as well as by the library staff.

When a book is received, as it was, bearing this inscription, "For the Children's Room of the Public Library of Concord, N. H., with the Christmas good wishes of the author," it would seem that a literary person takes it for granted that the city library in a place of Concord's size and reputation has modern adjuncts.

When the former cataloguer at our State Library, now himself a Massachusetts librarian, writes in acknowledgment of our last annual report, "You certainly need a larger building. We have twice the reading room you do, and yet we think we are crowded and are talking of an addition," it would seem as if this Concord library was claiming only its dues.

During the year, a carpenter has made bookcases for every place where he saw room to put one, and they are all occupied. We have culled and can still further cull old or duplicate books and put them in the basement, until the small space remaining there shall become filled. But when the 800 volumes we shall add in 1907 are under this roof, many of them will go on shelves so high above our reach that the customer must wait while the assistant drags a chair and steps up on it to secure the lofty literature.

A minor note has inevitably crept into this report, because I have just listened to our cultivated Mayor's third inaugural, in which he discountenanced any outlay at pres-

ent for library enlargements. My faithful assistants also would rejoice in additional opportunities for the library, even if such entailed more work. Perhaps the major key can be regained by saying that library work, no matter under what limitations it is done, or with what physical weariness, is always interesting.

To this Board, who cannot feel indifference for the institution under their charge, I respectfully submit this report, with the hope that soon they and the other powers that be will be putting through measures for the relief of the congestion of this city department, and that the proposition, as taken up, will *not* read, "What is the *least* thing we can do for the public library?"

Thanking all my Trustees for their constant consideration and courtesy, and many of them for help readily given the past year in regard to improvements at the library or to needs at the branches.

GRACE BLANCHARD,

*Librarian.*

# HEALTH DEPARTMENT.

---

## REPORT OF SANITARY OFFICER.

---

*To His Honor the Mayor, the City Government and the Board of Health:*

GENTLEMEN: The Sanitary Officer herewith submits the annual report of the Health Department for the year ending December 31, 1906.

The city maintained its usual good sanitary condition throughout the year. Inspections were made of all premises complained of, and the stables and alleyways in the business portion of the city.

### MORTALITY.

The total number of deaths from all causes during the year was 424, 22 more than in 1905. Based upon an estimated population of 20,000, this gives a death rate of 15, compared with 12.7 in 1905. Heart disease in various forms caused the greatest number of deaths, 44 being the recorded number. Dementia occupied second place, with 40 deaths; nearly all these deaths were at the New Hampshire State Hospital. Tuberculosis and pneumonia followed, with 25 deaths each. The vital statistics for the year are tabulated and made a part of this report.

Transfer permits to the number of 143 were granted for the removal of dead bodies to other towns and cities for interment; 95 bodies were brought to this city from other places, to be interred.

### CONTAGIOUS DISEASES.

During the year there were 175 cases of contagious diseases reported to this department, with six deaths, compared with 299 cases with five deaths, in 1905.

There were 27 cases of scarlet fever, with no deaths. A number of the cases were very mild, and others more severe. During the last three months of the year, there were several cases whose origin could not be determined. It is probable that children having a mild type of the disease, and not knowing its true nature, were allowed to attend school and other public places, thereby transmitting it to others.

There were 14 cases of diphtheria, with two deaths. Nine of these cases were in Ward 1, and as there were a number of cases in Boscawen the latter part of the year, we were fortunate in not having more.

There were 32 cases of typhoid fever, with three deaths. This is the largest number of cases ever reported to this office in one year, and they were widely scattered over the city. Several of the cases trace their origin to sources outside the city.

A slight epidemic of measles in Ward 8 made the total of 101 cases, with one death.

One case of smallpox occurred in June. The patient was a non-resident who had been exposed to the disease in Canada. As soon as the disease was recognized, he was removed to the Detention Hospital, where he remained 21 days, when he was pronounced entirely recovered, and was discharged. The expense of handling this case was \$206.60.

#### FUMIGATION.

Formaldehyde was used as a disinfectant through the year, with good results. The total cost for fumigation supplies was \$66.83. Your attention is called to the amount of fumigating done, in the table, Summary.

#### PLUMBING.

There were not as many plumbing permits issued as in former years, though nearly as many new fixtures were installed. A number of peppermint tests were made of

the plumbing in old buildings to ascertain if it was in good sanitary condition. There were 60 sewers constructed.

## EXPENDITURES.

The expenditures of this department for the year 1906 were more than for the year 1905, owing to the fact that more aid was required by persons having contagious diseases, and a case of smallpox also added to the expenses. The total expense for milk inspection was \$383.39, which was paid out of the appropriation for the Health Department.

Expenditures of the Health Department of the City of Concord, N. H., for the year ending December 31, 1906:

## SALARIES.

Charles E. Palmer, health officer,	\$1,200.00
George A. Berry, member board of health,	25.00
Russell Wilkins, M. D., member board of health,	25.00
Chancey Adams, M. D., member board of health,	25.00

## FUMIGATION SUPPLIES.

George A. Berry & Co., formaldehyde, perman- ganate, etc.,	63.08
C. Pelissier & Co., satchel,	3.75

## INCIDENTAL EXPENSES.

Helen O. Monier, clerk, services,	278.68
Russell Wilkins, M. D., supplying for health officer,	50.00
Russell Wilkins, M. D., professional services,	7.50
Chancey Adams, M. D., professional services,	82.50
Charles H. Cook, M. D., professional services,	196.75
Charles E. Palmer, postage,	15.75
Rumford Printing Co., mortuary reports,	19.50
Rumford Printing Co., contagious disease book,	7.50
Ira C. Evans Co., printing,	28.75
Edson C. Eastman, office supplies,	1.82
C. F. Nichols, medical dictionary,	2.50

Library Bureau, vaccination cards,	\$6.63
New England Tel. & Tel. Co., rental and tolls,	24.80
A. H. Britton & Co., supplies,	1.00
George A. Berry & Co., antitoxin,	26.50
Margaret Pillsbury Hospital, care of Ethel Beer, diphtheria,	15.00
Margaret Pillsbury Hospital, care of Abbie Wilcox, scarlet fever,	87.86
Margaret Pillsbury Hospital, care of Thomas Fagan, scarlet fever,	19.29
Fred Cherette, attendance on smallpox patient,	36.00
Charles E. Palmer, cash paid out, smallpox case,	10.00
A. P. Baker, supplies, smallpox case,	22.29
C. H. Dudley, supplies, smallpox case,	2.89
George A. Berry & Co., supplies, smallpox case,	6.75
A. H. Knowlton & Co., supplies, smallpox case,	5.42
M. E. Prescott, labor on pump, Detention Hospital,	7.50
E. J. Ormsbee, boarding Gilpatrick family,	10.00
Mrs. Mabel Rolfe, care of Mrs. Foley, diphtheria,	26.00
Mrs. Mabel Rolfe, care of Mrs. C. G. Davis, diphtheria,	18.00
Mrs. Bell Bean, care of W. J. McMullen, diphtheria,	15.70
W. W. Allen Co., supplies furnished Foley family,	2.63
E. L. Davis, burying dog,	1.00

## MILK INSPECTION.

Russell Wilkins, M. D., milk inspector,	268.40
Edgar H. Calvert, collecting milk,	101.84
Ira C. Evans Co., printing tags, etc.,	7.75
George A. Berry & Co., supplies,	3.80
Eimer & Amend, supplies,	1.60

Total,

---

 \$2,761.73

## CONTAGIOUS DISEASES.

The following table shows the number of contagious diseases reported during each month of the year and the deaths resulting therefrom:

MONTHS.	Diph- theria.		Scarlet fever.		Typhoid fever.		Small- pox.		Measles.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.

## NUISANCES, COMPLAINTS AND INSPECTIONS.

A statement of the number and character of the nuisances which have been abated by this department during the year appears below:

Catch-basins not trapped,	8
Dead animals,	47

Decayed fruit,	1
Decayed meat and fish,	4
Defect in house sewers,	3
Defective plumbing,	11
Dropping manure in street,	2
Dumping rubbish,	16
Filthy alleyways,	1
Filthy cellars,	2
Filthy premises,	6
Filthy swill-barrels,	7
Filthy watering-troughs,	1
Filthy yards,	10
Keeping hens,	8
Keeping hogs,	9
Odor from gas in houses,	2
Offensive manure heaps,	2
Offensive odor from stables,	5
Offensive odor in houses,	16
Offensive privy vaults,	13
Offensive sewage,	2
Pediculosis,	1
Plumbers doing work without license,	2
Scabies,	1
Sewage backed into cellars,	5
Sewer-traps broken,	1
Sink-drains obstructed,	2
Sinks found without traps,	2
Sinks with imperfect drainage,	3
Spitting in halls,	2
Stagnant water,	1
Suspected contagious diseases,	7
Throwing ashes in street,	1
Throwing out slops,	4
Throwing swill in yards and alleyways,	5
Water-closets foul and offensive,	7
Water-closets not ventilated,	2
Water-closets out of repair,	10

Water-closets without water supply,	2
Water in cellars,	4
Well water questionable,	2
<hr/>	
Total,	240

## INSPECTION OF PLUMBING.

The number of inspections will be found in the table herewith annexed:

Plumbing permits granted,	124
Water-closets put in,	251
Sinks put in,	106
Bath-tubs put in,	88
Wash-bowls put in,	117
Wash-trays put in,	35
Urinals put in,	17
Drinking fountains put in,	3
Ranges put in,	2
Shower baths put in,	5
Slop sinks put in,	3
Number sewers,	60
<hr/>	
Total number inspections of plumbing,	275

## SUMMARY.

Houses placarded in cases of contagious diseases,	94
Placards removed,	94
Visits made to contagious diseases,	436
Rooms fumigated,	361
School-rooms fumigated,	6
Wards at hospitals fumigated,	11
Stables fumigated,	4
Cars fumigated,	2
Hacks fumigated,	2
Fire towers fumigated,	1
Watering-troughs fumigated,	1

## HEALTH DEPARTMENT.

345

Books and pieces of clothing fumigated,	279
Pieces of bedding and clothing burned,	28
Burial permits issued,	424
Burial permits issued to non-residents,	95
Transfer permits issued,	143
Garbage licenses issued,	46
Number of reports of contagious diseases sent to state board of health,	52
Number of mortuary reports sent in exchange to other cities,	1,044
Number of vaccination certificates issued for children to attend school,	772
Number of permits issued for children to return to school,	58
Number of samples of water collected for analy- sis,	12

In closing this report, I wish to acknowledge the courtesies extended this department during the year by his honor the mayor, the members of the city government, the board of health, and the various city officials.

Respectfully submitted,

CHARLES E. PALMER,

*Sanitary Officer.*

## REPORT OF CITY MARSHAL.

---

CONCORD, N. H., December 31, 1906.

GENTLEMEN: I have the honor herewith to submit the report of the Police Department for the year ending December 31, 1906.

### FINANCIAL STATEMENT.

Total receipts from fines and costs,	\$3,257.15
--------------------------------------	------------

### EXPENDITURES, 1906.

Regular appropriation,	\$14,777.32
Expended,	14,627.22

---

Balance unexpended,	\$150.10
---------------------	----------

### DISBURSEMENTS.

Fuel, city and Penacook,	\$273.17
Helmets and buttons,	59.05
Horse hire, city and Penacook,	69.75
Board and shoeing of horse,	325.00
Ice,	2.11
Incidentals,	734.27
Lights, city and Penacook,	144.53
Salaries, regular marshal, deputy, captain, eleven patrolmen,	11,959.49
Special officers,	402.53
Janitor,	300.00

Telephone, private line,	\$164.32
Water,	43.00
Police commissioners,	150.00

---

Total,	\$14,627.22
--------	-------------

	1905.	1906.
Whole number of arrests, including Penacook,	768	760
Whole number of arrests at Penacook,	149	124
Males,		727
Females,		33
Married,		196
Single,		564
Juveniles,		11
Residents,		356
Non-residents,		404

POLICE DEPARTMENT.

369

Stone cutters,	7	Printers,	4
Steam fitters,	2	Bushers,	2
Schoolboys,	3	Sailors,	3
Teamsters,	2	Dyers,	3

The organization of the Police Department at the present time is as follows :

POLICE COMMISSIONERS.

Josiah E. Dwight,          Giles Wheeler,          G. Scott Locke.

CITY MARSHAL.

James E. Rand.

ASSISTANT MARSHAL.

John E. Gay.

CAPTAIN OF NIGHT WATCH.

Daniel S. Flanders.

PATROLMEN.

Charles H. Rowe,	Victor I. Moore.
Samuel L. Batchelder,	George E. Drury.
Hoyt Robinson,	Irving B. Robinson,
Christopher T. Wallace,	George N. Fellows,
Samuel Rodd,	Clark D. Stevens.

SPECIAL RESERVE OFFICERS.

CAPTAIN.

George H. Silsby.

Orrin H. Bean,	Willie A. Little,
W. H. H. Patch,	Alvin H. Uran.
Fred H. Clifford,	Thomas P. Davis.
Charles E. Kelley,	James Jepson,
Harry J. Jones,	Joseph A. Flanders.
George G. Allen,	Fred S. Pendleton.

In concluding this report, permit me to return thanks to the honorable mayor and city council for the support you have given me; also to the board of police commissioners, judge of police court, and City Solicitor Edmund S. Cook, all of whom have been very kind, considerate and accommodating at any and all times; and to all others who have contributed to our success, we extend our thanks.

Respectfully submitted,

JAMES E. RAND,

*City Marshal.*

# PUBLIC PARKS.

---

## REPORT OF THE PARK COMMISSIONERS.

---

*To the City Council:*

The Park Commissioners present herewith their report for the year ending December 31, 1906:

### RECEIPTS.

General appropriation for parks,	\$3,500.00	
Appropriation for Penacook Park,	125.00	
Appropriation for Pecker Park,	131.08	
Appropriation to cover deficit,	159.43	
	<hr/>	\$3,915.51

### EXPENDITURES.

Salary of superintendent,	\$1,080.00
---------------------------	------------

### WHITE PARK.

Paid for labor,	\$765.71	
shrubs, seed, etc.,	170.55	
repairs,	31.39	
grain,	8.30	
tools, etc.,	68.94	
grade,	215.00	
swans,	40.00	
fence,	280.00	
incidentals,	137.97	
	<hr/>	\$1,717.86

## ROLLINS PARK.

Paid for labor,	\$388.62	
shrubs, seed, etc.,	130.70	
grade,	28.90	
repairs,	10.64	
tools, etc.,	8.39	
grain,	12.95	
incidentals,	70.65	
	<hr/>	\$650.85

## BRADLEY PARK.

Paid for labor,	\$38.60	
incidentals,	18.84	
	<hr/>	\$57.44

## FISKE PARK.

Paid for labor,	\$32.38	
incidentals,	14.00	
	<hr/>	\$46.38

## RIDGE AVENUE PARK.

Paid for labor,	\$16.00	
incidentals,	4.80	
	<hr/>	\$20.80

sun-dial, etc.,	96.08	
incidentals,	26.10	
	<hr/>	\$156.43

## PENACOOK PARK.

Paid for labor,	\$103.00	
repairs,	38.77	
incidentals,	2.85	
	<hr/>	\$144.62

## COURT HOUSE PARK.

Paid for labor,	\$39.13	
incidentals,	2.00	
	-----	\$41.13
		-----
		\$3,915.51

The work at White Park has continued during the year as usual, the only exception being the erection of a section of a permanent fence, which the commissioners will hope to continue from year to year until the park is well fenced. The Park has reached a place which demands permanent work, such as entrances and interior embellishment, to give added dignity and character. At present the work has developed so slowly that many years will go by before the plan can be completed. How much better it would be to complete the park, for the maintenance of it would be no more than in its incompleteness.

A cage of grey squirrels was placed in the grounds during the summer and has created much interest, and it is hoped that later on we can let them loose in the park, for there are many nut-bearing trees, which will sustain a large colony. If those who frequent the park will co-operate with the caretakers in the maintenance and good order, these added attractions will bring much pleasure to all. A new pair of swans have been added this last year. The walks have been recoated with crushed stone, and one hundred and fifty loads of grade have been put on the playground, which will need many loads more to make it available, for the lack of drainage causes the water to stand thereon during the rainy part of the season, so that the ground settles continually.

Rollins Park has been very attractive during the season. The new ball-grounds have been in constant use. The superintendent has regraded a part, and will by degrees complete the whole surface.

The shrubs and herbaceous plants at the entrance from Broadway have been very effective, as they stand in contrast to the noble forest beyond.

The herd of deer, which has increased by two, still continues to be of much interest. This park is well adapted for picnics and is often used by family parties, while during the summer large numbers of people gather at the services which are held on Sundays. The time is not far away when some scientific forestry can be applied with advantage.

Penacook Park is still enjoyed, as in years past, as a picnic ground. The appropriation should be increased, that much-needed improvements may be made. A more rigid enforcement of rules would result in keeping the shores more sightly. Everything which in any way will cause pollution to the water or unsightliness should be removed.

The enclosure in the rear of the County Building should be improved and arranged, so that the large crowds which attend the band concerts can be better accommodated.

The smaller parks and enclosures have been increased by the addition of Pecker Park in East Concord, and one at the north end of Main Street, and placed under the supervision of the park department. There are others which could be developed if given to the city. The increasing demands on this department bring an imperative need of an increased appropriation.

CHARLES R. CORNING, Mayor, *ex-officio*,  
WILLIS D. THOMPSON,  
GARDNER B. EMMONS,  
WILLIAM P. FISKE,  
CHARLES P. BANCROFT,  
BEN C. WHITE,  
WILLIS G. C. KIMBALL,  
*Commissioners.*

# REPORT OF CITY PHYSICIAN.

---

*To the City Council:*

I have the honor to submit the following report of the work done in my department for the year ending December 31, 1906:

Vaccinations and examinations for same, with certificate,	143
Office calls,	23
Operation,	1
Calls,	145

At the request of the sanitary officer, I have taken professional care of three cases of scarlet fever and one of smallpox. From time to time during the year, he also called upon me to inspect schools for contagious diseases among the pupils, and again to look up suspicious cases in their homes and report on the nature of the case.

Respectfully submitted,

CHARLES H. COOK,  
*City Physician.*

CONCORD, N. H., January 23, 1907.

# CEMETERY DEPARTMENT.

---

## REPORT OF COMMISSIONERS OF CEMETERIES.

---

*To the City Council of the City of Concord:*

In making our annual report, the commissioners can only say that your appropriation of the last year has been expended in the planting of trees and shrubs, and in the general care and improvement of both cemeteries committed to our care. For the financial standing of the cemeteries we would refer you to the report of the city treasurer.

The burials for the past year have been one hundred and seventy-eight (178) in Blossom Hill Cemetery, and twenty-five (25) in Old North.

The new chapel has been used but eight times the past year, and the commissioners think it strange that the public continues to have funeral services held in the undertakers' rooms, when this beautiful chapel can be had free of expense.

A new waiting room built of stone, with toilet rooms, has been erected near the entrance at Blossom Hill, which we think will be fully appreciated by the public, when waiting for the cars or in stormy weather. We would recommend that the iron fence be extended on the west line of Blossom Hill as soon as the necessary funds can be appropriated. We would again recommend that a small appropriation be made for the employment of a competent landscape architect to lay out the new section at Blossom Hill, which was purchased a few years ago of

Mr. Bradley, so that when needed for new lots it would be ready for use.

Whatever sum you may place at our disposal will be expended, we trust, in a manner that will merit your approval.

CHARLES R. CORNING, *ex officio*,  
JOHN E. ROBERTSON,  
FRANK P. ANDREWS,  
CHARLES G. REMICK,  
FRANK J. BATCHELDER,  
GEORGE A. FOSTER,  
GEORGE W. ABBOTT,

*Commissioners.*

GEORGE A. FOSTER, *Secretary.*

Respectfully submitted,

HENRY E. CHAMBERLIN,  
*City Clerk.*

# REPORT OF CLERK OF POLICE COURT.

---

CONCORD, N. H., April 4, 1907.

*To the City Council:*

The clerk of the police court submits the following report:

Number of civil cases entered in court January to December, 1906, inclusive, was seventy-three. Received entry fees for same at fifty cents each, thirty-six dollars and fifty cents (\$36.50). Paid to city treasurer thirty-six dollars and fifty cents (\$36.50).

Respectfully submitted,

RUFUS H. BAKER.

*Clerk of Police Court.*

## REPORT OF CITY SOLICITOR.

---

*To the City Council:*

I respectfully submit the following report for the year 1906:

On December 31, 1905, the following suits against the city of Concord were pending in court: *Concord Street Railway v. Concord*, an appeal taken by the Concord Street Railway from an award of damages to it by the board of mayor and aldermen upon laying out a highway in Penacook; *Joseph Stickney v. Concord*, a petition for an abatement of taxes for the year 1900; *Joseph Stickney v. Concord*, a petition for an abatement of taxes for the year 1901; *Jennie E. Martin v. Concord*, a suit to recover damages for injury to the plaintiff's real estate, on the corner of South State and Downing Streets, which she claims has been caused by the backing up of water and sewage by reason of an insufficient and defective sewer; *H. Cohen v. Concord*, a petition for a writ of mandamus to compel the board of mayor and aldermen of Concord to issue to him a license to deal in old junk. The city was also interested in the case of *State v. Cohen*, a criminal prosecution charging the defendant with being a dealer in old junk, old metals, etc., in the City of Concord, without a license, which was, at the time of my last report, before the supreme court on an appeal by the defendant claiming that the law relating to dealers in old metals, etc. (chapter 124 of the Public Statutes), was unconstitutional, and that his business, as shown by the facts, was not within the meaning of the law. I made two briefs for the state in this case and argued the case orally before the supreme court. The court decided that the junk business is subject to police

regulation, that chapter 124 of the Public Statutes, giving boards of mayor and aldermen in cities and selectmen in towns power to say who are suitable persons to engage in such business, and to determine where such business shall be carried on under a license, is constitutional, and that the business of the defendant was such as to require a license. This decision makes it clear that the city has the power to prohibit all unsuitable persons from dealing in old junk, old metals, etc., within its limits, and to determine where the business of such persons as may be licensed shall be carried on. Since this decision certain men, who previously did a local junk business, claim to do no buying or selling of junk in Concord, but do go into the surrounding towns and buy junk which they ship into Concord, sort, arrange, handle, and store here, and ship away from here for sale in other places. This kind of a business, because it results in the accumulation of large quantities of rags, paper, and other inflammable matter, gathered from all sorts of places, creates the very dangers at which the junk law is aimed, to wit: the danger to the public by reason of fire, and the danger to public health by reason of the spread of contagious diseases. I do not think that the present junk law gives the city the power to regulate such a business, because the owner thereof cannot be said to be a dealer in junk in the city. I therefore recommend that the incoming legislature be asked to pass a law which will give cities and towns power to regulate such a business.

The cases of the Concord Street Railway, Joseph Stickney, and Jennie E. Martin have not been pressed by the plaintiffs, and no progress has been made in them since my last report. I have been told a number of times since my last report by counsel for Jennie E. Martin that the plaintiff in this case cares more to have the conditions causing the damage remedied than to get damages from the city. I renew the recommendation, made in my last report, that the city government investigate the sewer con-

ditions and facilities in the vicinity of Mrs. Martin's property with a view of ascertaining if there is some practical way of preventing future damage to property in that neighborhood on account of defective or insufficient sewers. The petition of H. Cohen for a writ of mandamus to compel the board of mayor and aldermen to issue to him a license to deal in old junk, which at the time of my last report was in the supreme court on exceptions taken by the petitioner to the denial of his petition by the superior court, has been abandoned by the petitioner and has been dismissed by the court.

In the early part of the year a number of citizens, living at the south end of the city, complained that their property was being endangered by the use of a steam engine, in a building on Broadway, by E. A. Morgan. I took this matter up and found that Mr. Morgan was using a steam engine in a shed on Broadway in connection with a wood business he was carrying on there. I prosecuted him in the police court for using a steam engine in a building within the fire precinct without a license. He was found guilty and fined. He then appealed to the superior court. At the April term, 1906, of the superior court, I filed a petition asking that Mr. Morgan be enjoined from using a steam engine at his place on Broadway without a license. Mr. Morgan claimed that the structure in which he was using a steam engine was not a building within the meaning of the law, and the petition for an injunction was transferred to the supreme court for a decision of the question. The supreme court decided that the structure was a building, and the superior court at the October term, 1906, issued an injunction, which was served on Mr. Morgan, ordering and directing him not to use a steam engine in the building referred to in the case, or in any other building in the fire precinct in the city of Concord, without a license.

At the April term, 1906, of the superior court, Asa Emery brought suit against the city, claiming damages on account

of a change in grade on North State Street, at Willow Hollow, which he alleges throws sand and water onto his land and obstructs his driveway thereto. At the October term of court this matter was referred to the county commissioners. I expect that they will hear this case in time to file their report at the April term, 1907, of the superior court.

At the October term, 1906, of the superior court, James Y. Gatecomb and George L. Theobald brought suit against the city, claiming \$30,000 damages for injuries to a pacing mare, called Phalla, owned by them, which they allege she received on May 10, 1906, on Fruit Street, by reason of a defective culvert in said street. The plaintiffs gave notice to the city to be ready for trial at the October term of court, but, after a hearing, I obtained a continuance. This case is in order for trial at the term of court to be held next April.

In addition to the claim of Gatecomb & Theobald, there are pending against the city the claim of N. E. Martin and his wife for injuries which they claim to have received while traveling on one of our highways by reason of a defective culvert, and one or two small claims for injuries which are claimed to have been received by reason of defective culverts. During the last year I settled one small claim against the city for injuries to a horse caused by stepping into a culvert which was out of repair.

Under the law, as it stands now, the liability of cities and towns for accidents happening to travelers on highways is limited to such as are caused by bridges, culverts and sluiceways which are defective or out of repair, and by dangerous embankments defectively railed. With this limited liability, it behooves the city to take especial care of these parts of its highways. I think it would be true economy for the city government to authorize the street commissioner to employ a capable man, whose especial duty it should be to make, periodically, a thorough examination of all bridges, culverts and sluiceways to see that they

are in proper repair, and to inspect all embankments which are dangerous to travelers to see that they are properly railed. In addition to the money such an inspection may save the city, it is a duty owed to the traveling public to see that these particular places, at which very serious accidents are liable to occur, are kept in a safe and suitable condition.

I have, during the year, prosecuted many criminal cases for the police department before the police court. I have also given advice and assistance when required to the various departments of the city government and to committees and members of the city council. Some of these matters have been of importance and have required considerable time on my part to be able properly to advise in regard to them.

Respectfully submitted,

EDMUND S. COOK,

*City Solicitor.*

December 31, 1906.

# TREASURY DEPARTMENT.

---

ANNUAL REPORT FOR THE YEAR 1906.

---

## TRUST FUNDS.

CITY TREASURER'S ACCOUNTS AS CUSTODIAN OF TRUST FUNDS.

---

### ABIAL WALKER TRUST.

For the benefit of the school fund.

Capital,	\$1,000.00
Income received, 1906,	35.00
Paid into the city treasury,	35.00

Deposited in Merrimaek County Savings Bank.

---

### COUNTESS OF RUMFORD TRUST.

For the benefit of the Concord Female Charitable Society. Income to be applied to the charitable uses and purposes of said society, and under its direction.

Capital,	\$2,000.00
Income received, 1906,	80.00
Paid Grace E. Foster, treasurer of the society,	80.00

Invested in Eagle and Phenix Hotel Company 4 per cent. notes, secured by mortgage.

## MINOT ENCLOSURE CEMETERY TRUST.

Donated to the city by Abby P. Minot, the income to be expended annually by the superintendent of cemeteries for the preservation, care and embellishment of the burial lots known as the Minot Enclosure, under the direction of the duly appointed officials, or members of the Minot Cemetery Association.

Capital,	\$3,000.00
----------	------------

Deposited (at  $3\frac{1}{2}$  per cent.) with city of Concord, in general account.

Income received, 1906,	\$105.00
Paid H. H. Dudley, treasurer,	105.00

## DAVID OSGOOD TRUST.

The purpose of the donor of this trust fund was that the income should be used for the purchase of school-books for poor children; but since the bequest was made, a state law has been enacted that requires the towns and cities to buy all the school-books; consequently the beneficiary of the donor is provided for and the purpose of the trust no longer exists. This fund, \$200, and accumulations, amount to \$438.91, and same will continue to accumulate forever without any benefit to any object, unless some legal action can be taken to divert the income from the specified purpose of the donor.

Capital,		\$200.00
Balance from last year,	\$223.30	
Income received, 1906,	15.61	
	—————	\$238.91

Capital \$200, deposited in New Hampshire Savings Bank; income deposited in the Union Guaranty Savings Bank.

## COGSWELL COLLECTION OF THE PUBLIC LIBRARY.

Bequest of P. B. Cogswell, the income to be spent annually for the purchase of books of a biographical, geographical, historical and scientific character, and the books relating to science shall be those that give the latest developments and discoveries by scientific persons from year to year.

Capital,	\$2,145.00
Income received 1906,	65.16
Paid into the city treasury,	65.16
Invested in City of Concord 3% bonds,	\$2,000.00
Deposited in Loan and Trust Savings Bank,	145.00

---

## G. PARKER LYON PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00
Income received, 1906,	35.00
Paid into the city treasury,	35.00
Invested in City of Concord 3½% bond.	

---

## FRANKLIN PIERCE PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00
Income received, 1906,	36.25
Paid into the city treasury,	36.25
Deposited in New Hampshire Savings Bank,	\$500.00
Deposited in Union Guaranty Savings Bank,	500.00

---

## THOMAS G. VALPEY PUBLIC LIBRARY TRUST.

Capital,	\$500.00
Income received, 1906,	17.50
Paid into the city treasury,	17.50
Invested in City of Concord 3½% bond.	

---

## BLOSSOM HILL CEMETERY FUND.

This fund is increased each year by the addition of one-half the amount received from the sale of lots. The income of the fund is used for the care, protection and ornamentation of Blossom Hill Cemetery.

Amount of capital January 1, 1906,	\$21,839.46	
Received from one-half sale of lots, 1906,	690.85	
Received from income of fund, 1906,	848.95	
	—————	\$23,379.26
Credited City of Concord general account,	\$848.95	
Credited City of Concord for wait- ing room at cemetery,	3,000.00	
Amount of capital January 1, 1907,	19,530.31	
	—————	\$23,379.26
Invested in City of Concord 4% bonds,	\$8,500.00	
Invested in City of Concord 3½% bonds,	2,000.00	
Deposited in New Hampshire Sav- ings Bank,	4,925.11	
Deposited in Union Guaranty Sav- ings Bank,	4,105.20	
	—————	\$19,530.31

---

OLD NORTH CEMETERY FUND.

As the lots in this cemetery are all sold, there is no provision for an increase of the fund.

Income devoted to the care, protection and ornamentation of Old North Cemetery.

Amount of capital January 1, 1906,	\$815.00	
Received from income of fund, 1906,	28.53	
	—————	\$843.53
Credited City of Concord general ac- count,	\$28.53	
Amount of capital, January 1, 1907,	815.00

Deposited in Merrimack County Sav- ings Bank,	315.00	
	<hr/>	\$815.00

## WEST CONCORD CEMETERY FUND.

This fund is increased each year by the addition of one-half the amount received from the sale of lots. The income is used for the care, protection and ornamentation of West Concord Cemetery.

Amount of capital January 1, 1906,	\$386.50	
Unexpended income on hand Janu- ary 1, 1906,	176.59	
Received from income of fund, 1906,	19.67	
	<hr/>	\$582.76
Unexpended income January 1, 1907,	\$196.26	
Amount of capital January 1, 1907,	386.50	
	<hr/>	\$582.76

Capital and unexpended income deposited in Merrimack County Savings Bank.

## MILLVILLE CEMETERY FUND.

This fund originated, and is provided for, by the voluntary contributions of interested parties. Income devoted to the care, protection and ornamentation of Millville Cemetery.

Amount of capital January 1, 1906,	\$785.00	
Unexpended income on hand Janu- ary 1, 1906,	66.78	
Received from one-half sale of lots, 1906,	10.00	
Received from income of fund, 1906,	20.26	
	<hr/>	\$882.04
Unexpended income January 1, 1907,	\$87.04	
Amount of capital January 1, 1907,	795.00	
	<hr/>	\$882.04

Capital and unexpended income deposited in Loan and Trust Savings Bank.

## EAST CONCORD CEMETERY FUND.

This fund is increased each year by the addition of one-half the amount received from the sale of lots. Income devoted to the care, protection and ornamentation of East Concord Cemetery.

Amount of capital January 1, 1906,	\$247.50	
Unexpended income on hand January 1, 1906,	167.77	
Received from income of fund, 1906.	16.60	
	<hr/>	\$431.87
Unexpended income January 1, 1907,	\$184.37	
Amount of capital January 1, 1907,	247.50	
	<hr/>	\$431.87

Capital and unexpended income deposited in New Hampshire Savings Bank.

## WEST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the West Concord Sewer Precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund which provided that the following amounts should be raised annually upon the taxable property of the precinct, for the purpose of paying the bonds as they mature, viz.:

\$500 annually for 10 years from October 1, 1892.

\$1,000 annually for five years from October 1, 1902.

\$1,400 annually for five years from October 1, 1907.

Balance on hand January 1, 1906,	\$4,019.40	
Income received, 1906,	135.49	
Received from City of Concord,	1,000.00	
	<hr/>	\$5,154.89
Deposited in Union Guaranty Savings Bank,	\$3,133.18	
Deposited in Loan and Trust Savings Bank,	2,021.71	
	<hr/>	\$5,154.89

## PENACOOK SEWER PRECINCT SINKING FUND.

The city ordinance establishing the Penacook Sewer Precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the following amounts should be raised annually upon the taxable property of the precinct for the purpose of paying the bonds as they mature, viz.:

\$1,000 annually for five years from August 1, 1898.  
 \$100 annually for 15 years from October 1, 1900.  
 \$1,200 annually for five years from August 1, 1903.  
 \$1,000 annually for five years from May 1, 1908.  
 \$500 annually for six years from July 1, 1914.  
 \$500 annually for three years from October 1, 1915.

Balance on hand January 1, 1906,	\$2,983.99	
Income received, 1906,	96.94	
Received from City of Concord,	1,300	
	—————	\$4,380.93

Balance on hand January 1, 1907,	\$4,380.93
----------------------------------	------------

Capital and unexpended income deposited in Union Guaranty Savings Bank.

## EAST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the East Concord Sewer Precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the sum of one hundred dollars (\$100) should be raised annually for 20 years from July 1, 1895, upon the taxable property of the precinct, for the purpose of paying the bonds as they mature.

Balance on hand January 1, 1906,	\$61.05	
Income received, 1906,	1.95	
Received from City of Concord,	100.00	
	—————	\$163.00

Balance on hand January 1, 1907,	\$163.00
----------------------------------	----------

Capital and unexpended income deposited in Union Guaranty Savings Bank.

\* Capital deposited with City of Concord in general account in accordance with an ordinance passed by the city government, March 13, 1905.

## BLOSSOM HILL CEMETERY RECEIPTS.

One-half of the receipts from the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

## RECEIPTS.

Transferred to city of Concord, gen- eral account,	2,637.60	
	-----	\$3.883.68

•

## RECEIPTS OF OLD NORTH CEMETERY.

Amounts received from sundry collections and income of permanent funds are added to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor, from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

I hereby certify that I have examined the foregoing accounts of William F. Thayer, city treasurer, for the year 1906, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and cash balance to be thirty-nine thousand nine hundred sixty-eight dollars and twenty-four cents (\$39,968.24), and as treasurer of the city water department, cash balance to be seventeen thousand two hundred seventy-five dollars and forty-seven cents (\$17,275.47).

I have also verified the account of the trust and sinking funds of the city, and find such trust and sinking funds invested, and the income thereof, for the year 1906, accounted for, as shown by the book of the city treasurer, kept for that purpose.

HENRY E. CHAMBERLIN,

*City Clerk.*
